SUBJECT: An Ordinance Amending Section 17.12.124 of the Casper Municipal Code
Pertaining to Wireless Communication Facilities

Meeting Type & Date

Regular Council Meeting on July 2, 2019

Action type

Ordinance

Recommendation

That Council, by ordinance approve an ordinance amending Section 17.12.124 of the Casper Municipal Code pertaining to wireless communication facilities.

Summary

Last year Council passed Ordinance Numbers 2-18 and 7-18 pertaining to wireless communication facilities, which were codified in Section 17.12.124 of the Casper Municipal Code. On September 27, 2018, the FCC released a *Declaratory Ruling and Third Report and Order* (“Order”) that limited state and local management of wireless communication facilities and imposed other timeline requirements on cities. The FCC continues to make new rules and regulations that tighten timelines for approval.

Section 17.12.124 of the Casper Municipal Code needs to be updated to reflect the FCC’s changes, and to assist City staff with meeting FCC-imposed timeliness. The City of Casper Planning and Zoning Commission reviewed the proposed changes at its June 20, 2019, meeting, and recommended approval.

"Macro cell" means an antenna or antennas mounted on or in a tower, ground-based mast, rooftops and other or structures, at a height that provides a clear view over coverage to the surrounding buildings and terrain area.

Section 3:

That the definition of "Small cells" under Section B is changed as follows:

"Small cells" and "small wireless facilities" mean compact wireless equipment that contain their own transceiver equipment and function like cells in a wireless network but provide a smaller coverage area than traditional ~~macrocells~~ macro cells and also add additional capacity and meet the following criteria: (1) the facilities -- (i) are mounted on structures fifty feet or less in height including their antennas, or (ii) are mounted on structures no more than ten percent taller than other adjacent structures, or (iii) do not extend existing structures on which they are located to a height of more than fifty feet or by more than ten percent, whichever is greater; (2) each antenna associated with the deployment, excluding associated antenna equipment, is no more than three cubic feet in volume; (3) all other wireless equipment associated with the structure, including the wireless equipment associated with the antenna and any pre-existing associated equipment on the structure, is no more than twenty-eight cubic feet in volume; (4) the facilities do not require antenna structure registration under federal law; (5) the facilities are not located on Tribal land as defined under federal law; and (6) the facilities do not result in human exposure to radiofrequency radiation in excess of the applicable safety standards specified under federal law.

Section 4:

The definition of "Stealth design" under Section B is changed as follows:

"Stealth design" means technology a design that minimizes the visual impact of wireless communication facilities by camouflaging, disguising, screening or blending into the surrounding environment. Examples of stealth design include but are not limited to facilities disguised as trees (monopines), flagpoles, utility and light poles, bell towers, clock towers, ball field lights and architecturally screened roof-mounted antennas.

Section 5:

Under Section B, Subsection (1), the definition of "Substantial Change" is hereby changed as follows:

- (1) For towers other than towers in the public rights-of-way, it increases the height of the tower by more than ten percent or by the height of one additional antenna array with separation from the nearest existing antenna not to exceed twenty feet, whichever is greater; for other eligible support structures, it increases the height of the structure by more than ten percent or more than ten feet, whichever is greater. Changes in height shall be measured from the original support structure in cases where deployments are or will be separated horizontally, such as on buildings' rooftops; in other circumstances, changes in height should be measured from the dimensions of the original tower or base station, inclusive of originally approved appurtenances and any modifications that were approved prior to the passage of the Spectrum Act (47 U.S.C. Section 1455(a));

Section 6:

The definition of "Transmission equipment" under Section B is changed as follows:

"Wireless Communication Facilities" or "WCF" means a ~~staffed or~~ an unstaffed facility ~~or location~~ or equipment for the transmission or reception of radio frequency (RF) signals or other wireless communications or other signals for commercial communications purposes, typically consisting of one or more antennas or group of antennas, a tower or attachment support structure, transmission cables and other transmission equipment, and an equipment enclosure or cabinets, and including small ~~cell technologies~~ wireless facilities.

Section 8:

Section D. 4. is changed to read as follows:

4. All non-pre-engineered and non-prefabricated towers, radio and television aerials or antennas, dishes capable of receiving electronic transmission from satellites or other sources, including the substructure, shall be ~~designed~~ ~~approved~~ by a licensed professional engineer, registered in the state.

Section 9:

Section E. 1. is changed to read as follows:

1. Distributed antenna systems and small cells are allowed in all zones by right (unless they involve the installation of a pole or tower ~~or building that exceeds the height limitation of the underlying zoning district~~) and except for the FC or OYD zones, as long as all other requirements of the zoning district are met along with stealth requirements, regardless of the siting preferences listed in subsection I herein, provided the applicant also complies with all federal laws (such as the Americans with Disabilities Act) and state laws and requirements.

Section 10:

Section E. 2. is changed to read as follows:

2. Distributed antenna systems and small cells in all zones are subject to approval by administrative review unless their installation requires the construction of a new pole or tower or building that exceeds the height limitation of the underlying zoning district. A conditional use permit shall not be required for stealth replacement utility support structures, so long as they are substantially similar in height and design.

Section 11:

Section F. 1. is changed to read as follows:

1. Inventory of Existing Sites. Each applicant for a macro cell macrocell tower shall provide to the community development department an inventory of its existing towers, antennas, or sites approved for towers or antennas, that are either within the jurisdiction of the city or within one-half mile of the border thereof, including specific information about the location, height, and design of each tower or antenna. The community development department may share such information with other applicants applying for administrative approvals or conditional use permits under this section or other organizations seeking to locate antennas within the jurisdiction of the city; provided, however, that the city is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

Section 12:

Section F. 2. is changed to read as follows:

2. Color. The antenna array shall be placed and colored to blend into the architectural detail and coloring of the host structure. Support Towers shall be painted a color that best allows it them to blend into the surroundings. The use of grays, blues, greens, dark bronze, browns or other site specific colors may be appropriate; however, each case will be evaluated individually.

Section 13:

Section F. 7. is changed to read as follows:

15. Accessory Equipment. In residential zones, all accessory equipment located at the base of a WCF shall be located or placed (at the applicant's choice) in an existing building, underground, or in an equipment shelter cabinet that is (a) designed to blend in with existing surroundings, using architecturally compatible construction

and colors; and (b) be located so as to be unobtrusive as possible consistent with the proper functioning of the WCF.

Section 15:

Section F. 17 e. i. is changed to read as follows:

- i. Equipment shelters and cabinets and other on the ground ancillary equipment (outside of the public right-of-way) shall be screened with landscaping as required for the zone in which they are located or with another design acceptable to the community development department. Alternatively, where technically feasible, the applicant shall incorporate the cabinet and other equipment into the base of a new pole (for example, for a small cell) provided there is adequate space in the right-of-way and that ADA sidewalk accessibility requirements can be met. All provisions of the ADA, including, but not limited to, clear space requirements, shall be met by the applicant.

Section 16:

Section F. 17 e. ii. is changed to read as follows:

- ii. The ground level view of macro cell towers shall be mitigated by additional landscaping provisions as established through the conditional use permit process. The use of large trees from the approved urban forestry list of recommended species or native conifers is required at the spacing specified for the specific trees chosen. Alternatively, a landscaping plan may be submitted with the conditional use permit and, if approved, shall take precedence over the foregoing requirement.

Section 17:

Section F. 17. e. iii. is changed to read as follows:

- iii. A site-obscuring fence (for example, solid or slatted wood, faux wood, vinyl, masonry or a combination thereof) no less than six feet in height from the finished grade shall be constructed around each macro cell tower and around related support or guy anchors. Access shall only be through a locked gate. Any fence shall comply with the other design guidelines of this code.

Section 18:

Sections F. 20. is changed to read as follows:

20. Sites and Application Appointments. Each application may include up to ten sites in the city. An in-person appointment with city staff is required encouraged at the outset of the process for an application for multiple sites.

Section 19:

Sections G.'s title is changed to read as follows:

Sharing of Support Towers and Collocation of Facilities.

Section 20:

Section G. 1. is changed to read as follows:

1. It is the policy of the city to minimize the number of macrocell macro cell and wireless communication support towers and to encourage the collocation of antenna arrays of more than one wireless communication service provider on a single support tower, provided that additional Building Code regulations may apply.

Section 21:

Section G. 2. is changed to read as follows:

2. No new macrocell macro cell wireless communication support tower may be constructed within one-half mile of an existing macrocell macro cell support tower, unless it can be demonstrated to the satisfaction of the community development director or the designee thereof that the existing macrocell macro cell support tower is not available or feasible for collocation of an additional wireless communication facility, or that its specific location does not satisfy the operational requirements of the applicant. Factors to be considered by the community development director or the designee thereof in determining whether applicant has made this demonstration include those listed below in subsection 4.

Section 22:

Section G. 3. is changed to read as follows:

3. The shared use of towers is encouraged. Applications for macrocells macro cells and towers which will, immediately upon completion, operate with more than one user may reduce setback requirements from adjacent nonresidential property. The setback from adjacent nonresidential property may be reduced by twenty-five percent when two users enter into a binding agreement prior to the issuance of the building permit. The setback from adjacent nonresidential property may be reduced by up to fifty percent when three or more users enter into a binding agreement prior to the issuance of the building permit. A binding agreement for the purposes of this subsection is one signed by all parties using the tower and by the affected landowners. This signed agreement will commit the users to occupy the tower immediately upon its completion. Notwithstanding the foregoing, fall zones shall be at least one foot for every foot of tower height subject to the breakpoint provisions herein.

Section 23:

Section G. 4. is changed to read as follows:

4. Factors Considered in Granting Conditional Use Permits for ~~Macrocells~~ Macro cell Towers. In addition to any standards for consideration of conditional use permit applications pursuant to this Code, the applicant must provide wet stamped plans for ~~macrocell~~ macro cell towers, and the planning and zoning commission or city council (as appropriate under Section 17.12.240(C)) shall consider the following factors in determining whether to issue a conditional use permit.

Section 24:

Section G. 4. b. is changed to read as follows:

- b. Proximity of the ~~macrocell~~ macro cell tower to residential structures and residential district boundaries.

Section 25:

Section G. 4. j. is changed to read as follows:

- j. ~~A determination by the FCC that~~ the applicant's proposed antennas would cause electromagnetic interference with the antenna on the existing towers or structures, or the antenna on the existing towers or structures would cause interference with the applicant's proposed antenna.

Section 26:

Section G. 5. is changed to read as follows:

5. Site Plan. In districts where towers are allowed, applicants are required to submit and be granted an approval for a site plan before a building permit will be issued. The standards set forth in the tower regulations summary of this section will be used to determine tower requirements and whether approval shall be granted or denied. Towers of one hundred ~~twenty-one thirty~~ feet or more require that site plan approval be granted by ~~the city council, following recommendation from~~ the planning and zoning commission. ~~Both the city council and~~ The planning and zoning commission may consider reductions to the setback requirements for such towers as a part of the site plan approval.

Section 27:

Section G. 6. is changed to read as follows:

6. All towers that provide commercial wireless ~~telecommunication~~ service are required to submit a site plan to the city for approval. In addition to the standard site plan requirements (listed in this Title 17), the following information must be supplied with the site plan or building permit application:

Section 28:

Section G. 6. g. is changed to read as follows:

- g. Site plans must show the locations for at least two equipment buildings or cabinets, even if the tower is proposed for a single user;

Section 29:

Section G. 6. h. is changed to read as follows:

- h. For macro cell towers that are fifty feet or greater in height above the ground, a visual study depicting the zone within a three-mile radius, where any portion of the proposed tower could be seen (scaled vicinity maps);

Section 30:

Section G. 7. is changed to read as follows:

- 7. Placement Provisions—Towers. Towers shall be located only in those areas described in Table 1, provided that macro cell towers that are proposed to be located in a residential zone or within two hundred feet of a residential zone or in the downtown area shall be subject to the siting priorities set forth for preferred macro cell tower locations in subsection I.

DRAFT

Section 32:

That Section G, 8, is changed to read as follows:

8. Macro cell towers used for the purpose of providing commercial wireless telecommunication services are permitted uses in all districts, except in the downtown area (OYDSPC), FC districts, residential districts (R1-R6), planned unit developments (PUD), and the agricultural district (AG). However, a conditional use permit may be granted for Small cells providing commercial wireless telecommunication services in residential districts (R1-R6), planned unit developments (PUD), and the agricultural district (AG) are permitted uses if the pole or tower does not exceed the height limitation of the underlying zoning district. Additionally, towers which are placed on buildings must conform to the other requirements of this section.

Section 33:

That Section H. 4, is changed to read as follows:

4. All equipment shelters, cabinets, or other on the ground ancillary equipment shall meet the setback requirements of the zone in which they are located.

Section 34:

That Section I, is changed to read as follows:

- I. Preferred Macro cell Tower Locations. All new macro cell towers proposed to be located in a residential zone or within two hundred feet of a residential zone or in the downtown area are permitted only after application of the following siting priorities, ordered from most-preferred (1) to least-preferred (7):
1. City-owned or operated property and facilities not in the downtown or residential zones and not including right-of-way;
 2. Industrial zones;
 3. Commercial zones;
 4. Other non-residential zones;
 5. City rights-of-way in residential zones;
 6. Parcels of land in residential zones;
 7. Designated historic structures, downtown and neighborhoods with additional protection.

The applicant for a macro cell tower located in a residential zone or within two hundred feet of a residential zone or in the downtown area shall address these preferences in an alternative sites analysis prepared pursuant to subsection J below.

Section 35:

That Section J. 1. a. is changed to read as follows:

- a. For macro cell towers in a residential zone or within two hundred feet of a residential zone or in the downtown area, the applicant must address the city's preferred macro cell tower locations with a detailed explanation justifying why a site of higher priority was not selected. The city's macro cell tower location preferences must be addressed in a clear and complete written alternative sites analysis that shows at least three higher ranked, alternative sites considered that are in the geographic range of the service objectives of the applicant, together with a factually detailed and meaningful comparative analysis between each alternative candidate and the proposed site that explains the substantive reasons why the applicant rejected the alternative candidate.

Section 36:

That Section J. 1. c. is changed to read as follows:

- c. For purposes of disqualifying potential collocations or alternative sites for the failure to meet the applicant's service coverage or capacity objectives, the applicant will provide: (a) a description of its objective, whether it be to address a deficiency in coverage or capacity; (b) detailed maps or other exhibits with clear and concise RF data to illustrate that the objective is not met using the alternative (whether it be collocation or a more preferred location); and (c) a description of why the alternative (collocation or a more preferred location) does not meet the objective.

Section 37:

That Section J. 3. e. i. is changed to read as follows:

- e. Additional Information Required. Applicants for a conditional use permit for a macrocell tower shall also submit the following information:

Section 38:

That Section J. 3. e. vii. is changed to read as follows:

- vii. Identification of the entities providing the backhaul network for the tower(s) described in the application and other cellular sites owned or operated by the applicant in the municipality city.

Section 39:

That Section J. 5. c. is changed to read as follows:

- c. An initial payment of a registration fee (for other than small wireless facilities) which shall be in addition to any other fee paid by the owner or operator of the tower or facility, for all towers or facilities located within the city, shall be required and shall be submitted to the community development department at the

time of submission of the documentation, as required in 5.1.a. and 2.b. of this subsection.

Section 40:

That Section K. 4. c. i., ii. and iii. are changed to read as follows:

- c. The applicant demonstrates the following:
 - i. ~~A significant gap in the coverage, capacity, or technologies of the service network exists such that users are regularly unable to connect to the service network, or are regularly unable to maintain a connection, or are unable to achieve reliable wireless coverage within a building; The development standard materially limits or inhibits the ability of the applicant to compete in a fair and balanced legal and regulatory environment;~~
 - ii. The ~~gap~~situation can only be ~~filled~~addressed through an exception to one or more of the standards in this section; and
 - iii. ~~The exception is narrowly tailored to fill the service gap such that the wireless communication facility conforms to this section's standards to the greatest extent possible.~~

Section 41:

That Section K. 4. d. is deleted in its entirety.

~~d. For a new tower proposed to be located in a residential zone or within two hundred feet of a residential zone or in the downtown area, unless the proposal qualifies as a preferred location on city owned or operated property or facilities, the applicant must also demonstrate that the manner in which it proposes to fill the significant gap in coverage, capacity, or technologies of the service network is the least intrusive on the values that this section seeks to protect.~~

Section 42:

That Section L. is changed to read as follows:

- L. Removal of Abandoned Towers. Towers which are not used for a period of six months or more shall be removed by the owner within ninety days from the date of written notification by the city. To assure the removal of towers, which have not been maintained or have been abandoned, a performance bond, cash, letter of credit, or other approved security shall be submitted for each tower. The amount of the bond, cash, letter of credit, or other approved security shall be based on an estimate provided by a contractor licensed in the state, who shall estimate the cost of removing the tower. This estimation shall be provided in writing and submitted with the application. There will be a ten percent contingency fee added to the contractor's estimate. In the event the owner shall fail to remove any tower which has not been maintained or has been

abandoned, as provided in this subsection, the city shall have the right to enter the premises and remove such tower without further notice to owner, in which event, all removal costs shall be charged against the bond or security and the owner until satisfied.

Section 43:

That Section O. is changed to read as follows:

- O. Independent ~~Consultant and RF~~ Legal and Technical Review. Although the city intends for city staff to review applications to the extent feasible, the city may retain the services of an independent ~~consultant and RF expert~~ attorney and technical expert of its choice to provide evaluation of permit applications for WCFs, when they are subject to conditional use permits or administrative review. The ~~third party expert~~ consultant shall have recognized training in the field of ~~telecommunications or radio frequency engineering wireless communication facilities~~. The ~~consultant's and RF expert's~~ consultants' review may include, but is not limited to: (a) the accuracy and completeness of the items submitted with the application; (b) the applicability of analysis and techniques and methodologies proposed by the applicant; (c) the validity of conclusions reached by the applicant; and, (d) whether the proposed WCF complies with the applicable approval criteria set forth in this section. The applicant shall pay the cost for any independent consultant fees through a deposit, estimated by the city, within ten days of the city's request. When the city requests such payment, the application shall be deemed incomplete for purposes of application processing timelines until the deposit is received. In the event that such costs and fees do not exceed the deposit amount, the city shall refund any unused portion within thirty days after the final permit is released or, if no final permit is released, within thirty days after the city receives a written request from the applicant. If the costs and fees exceed the deposit amount, then the applicant shall pay the difference to the city within thirty days and before the permit is issued.

Section 44:

That Section R. is changed to read as follows:

- R. Indemnification. Each permit issued for a WCF located on city property shall be deemed to have as a condition of the permit a requirement that the applicant, ~~wireless infrastructure provider and wireless service provider~~ defend, indemnify and hold harmless the city and its council, officers, agents, employees, volunteers, and contractors from any and all liability, damages, or charges (including attorneys' fees and expenses) arising out of claims, suits, demands, ~~actions~~ or causes of action as a result of the permit process, a granted permit, construction, erection, location, performance, operation, maintenance, repair, installation, replacement, removal, or restoration of the WCF.

Section 45:

That Section S. I. is changed to read as follows:

S. Eligible Facilities Request.

Section 46:

That Section S. 2. b. is changed to read as follows:

- b. Review. Upon receipt of an application for an eligible facilities request pursuant to this subsection, the community development director or the designee thereof, shall review such application, make its final decision to approve or disapprove the application, and advise the applicant in writing of its final decision.

3. Compliance Obligations ~~Due To~~ After Invalidation. In the event that any court of competent jurisdiction invalidates all or any portion of Section 6409(a) or any FCC rule that interprets Section 6409(a) such that federal law would not mandate approval for any Section 6409(a) approval(s), such approval(s) shall automatically expire one year from the effective date of the judicial order, unless the decision would not authorize accelerated termination of previously approved Section 6409(a) approvals or the City grants an extension upon written request from the permittee that shows good cause for the extension, which includes without limitation extreme financial hardship. Notwithstanding anything in the previous sentence to the contrary, the city may not grant a permanent exemption or indefinite extension. A permittee shall not be required to remove its improvements approved under the invalidated Section 6409(a) approval when it has obtained the applicable permit(s) or submitted an application for such permit(s) before the one-year period ends.

Section 53:

That Section S. 4. is changed as follows:

4. City's Standing Reserved. The city's grant or grant by operation of law of a Section 6409(a) approval does not waive, and shall not be construed to waive, any standing by the city to challenge Section 6409(a), any FCC rules that interpret Section 6409(a) or any Section 6409(a) approval.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. 9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. - c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 *et seq.*, and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Contractor has two options regarding deductibles and self-insured retentions:

- a. *Option 1:* Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Contractor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. *Option 2:* Contractor shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Contractor is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. Contractor shall provide a written endorsement from its insurance carrier that such insurance coverage is in place, and shall keep such coverage in place during the term of this Contract and any subsequent time period required for claims made policies.

6. *Acceptability of Insurers*

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise agreed to in writing by the City.

7. *Claims Made Policies*

If any of the required policies provide coverage on a claims-made basis:

- a. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
- b. Insurance must be maintained and evidence of insurance must be provided *for at least three (3) years after completion of the contract of work*. However, Contractor's liabilities under this Contract shall not be deemed limited in any way by the insurance coverage required.
- c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

12. INTENT:

Contractor represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Contractor shall perform all of the services for the compensation set forth in this Contract. Contractor also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Contractor agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 *et seq.*, and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

5. *Deductibles and Self-Insured Retentions*

Contractor has two options regarding deductibles and self-insured retentions:

- a. *Option 1:* Any deductibles or self-insured retentions must be declared to and approved by the City. - b. *Option 2:* Contractor shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Contractor is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. - c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Contractor also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Contractor agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 *et seq.*, and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. 8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. 14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. 8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. 4. *Waiver of Subrogation*

Contractor hereby grants to City a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City by virtue of the payment

of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

3. **Workers’ Compensation:** as required by the State of Wyoming with Statutory Limits.

4. Professional Liability (Errors and Omissions) Insurance appropriate to the Contractor's profession, with limit no less than the sum of Two Hundred Fifty Thousand Dollars (\$250,000) to any claimant for any number of claims arising out of a single transaction or occurrence; or the sum of Five Hundred Thousand Dollars (\$500,000) for all claims arising out of a single transaction or occurrence. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location.
- C. *Higher Limits.* If the Contractor maintains higher limits than required under this Agreement, then the City shall be entitled to coverage for the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.
- D. *Other Insurance Provisions*

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. *Additional Insured Status*

The City, its officers, elected and appointed officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions used).

2. *Primary Coverage*

For any claims related to this contract, the Contractor's insurance coverage shall be primary insurance as respects the City, its officers, elected and appointed officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its officers, elected and appointed officials, employees, agents or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3. *Notice of Cancellation*

Each insurance policy required above shall state that coverage shall not be canceled, materially changed, or reduced, except with notice to the City. Such notice to the City shall be provided in a commercially reasonable time.

4. *Waiver of Subrogation*

Contractor hereby grants to City a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City by virtue of the payment

of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Contractor has two options regarding deductibles and self-insured retentions:

- a. *Option 1:* Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Contractor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. *Option 2:* Contractor shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Contractor is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. Contractor shall provide a written endorsement from its insurance carrier that such insurance coverage is in place, and shall keep such coverage in place during the term of this Contract and any subsequent time period required for claims made policies.

6. *Acceptability of Insurers*

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise agreed to in writing by the City.

7. *Claims Made Policies*

If any of the required policies provide coverage on a claims-made basis:

- a. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
- b. Insurance must be maintained and evidence of insurance must be provided *for at least three (3) years after completion of the contract of work*. However, Contractor's liabilities under this Contract shall not be deemed limited in any way by the insurance coverage required.
- c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

12. INTENT:

Contractor represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Contractor shall perform all of the services for the compensation set forth in this Contract. Contractor also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Contractor agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

4. Professional Liability (Errors and Omissions) Insurance appropriate to the Contractor's profession, with limit no less than the sum of Two Hundred Fifty Thousand Dollars (\$250,000) to any claimant for any number of claims arising out of a single transaction or occurrence; or the sum of Five Hundred Thousand Dollars (\$500,000) for all claims arising out of a single transaction or occurrence. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location.

C. *Higher Limits.* If the Contractor maintains higher limits than required under this Agreement, then the City shall be entitled to coverage for the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

D. *Other Insurance Provisions*

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. *Additional Insured Status*

The City, its officers, elected and appointed officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the Contractor's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions used).

2. *Primary Coverage*

For any claims related to this contract, the Contractor's insurance coverage shall be primary insurance as respects the City, its officers, elected and appointed officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its officers, elected and appointed officials, employees, agents or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3. *Notice of Cancellation*

Each insurance policy required above shall state that coverage shall not be canceled, materially changed, or reduced, except with notice to the City. Such notice to the City shall be provided in a commercially reasonable time.

4. *Waiver of Subrogation*

Contractor hereby grants to City a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City by virtue of the payment

of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Contractor has two options regarding deductibles and self-insured retentions:

- a. *Option 1:* Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Contractor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. *Option 2:* Contractor shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Contractor is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. Contractor shall provide a written endorsement from its insurance carrier that such insurance coverage is in place, and shall keep such coverage in place during the term of this Contract and any subsequent time period required for claims made policies.

6. *Acceptability of Insurers*

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise agreed to in writing by the City.

7. *Claims Made Policies*

If any of the required policies provide coverage on a claims-made basis:

- a. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
- b. Insurance must be maintained and evidence of insurance must be provided *for at least three (3) years after completion of the contract of work*. However, Contractor's liabilities under this Contract shall not be deemed limited in any way by the insurance coverage required.
- c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

12. INTENT:

Contractor represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Contractor shall perform all of the services for the compensation set forth in this Contract. Contractor also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Contractor agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 *et seq.*, and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

SUBJECT: Resolution Authorizing Submission of a Grant Application to the U.S. Department of Transportation for a 2019 BUILD (Better Utilizing Investments to Leverage Development) Transportation Discretionary Grant

Meeting Type & Date: Regular Council Meeting July 2, 2019.

Action Type: Resolution.

Recommendation: That Council, by resolution, authorize submission of a Better Utilizing Investments to Leverage Development (BUILD) grant to the U.S. Department of Transportation to fund the reconstruction of Midwest Avenue from Walnut Street to Poplar Street, in the amount of \$1,992,000, with the City's match of 20%. The total project cost will be \$2,490,000, and the City's portion will be \$498,000.

Summary: The City of Casper is preparing to apply to the U.S. Department of Transportation (USDOT) for the 2019 BUILD Discretionary Grant (formerly known as the TIGER program) to help fund the reconstruction of Midwest Avenue from Walnut Street to Poplar Street. City staff received the BUILD Notice of Funding in mid-May and has been working steadily on compiling project cost estimates, writing the project narrative to reflect transportation impacts, and requesting letters of support from local, state, and federal partners. This project includes moving all overhead utilities to underground, replacing aging water and sewer mains, upgrading all services to each lot, upgrading the storm sewer to handle flood events, new roadway, curb and gutter, constructing business front sidewalks, and providing bike lanes along the corridor. The project also includes extensive landscaping and irrigation throughout the corridor, benches, bike racks, trashcans, and decorative roadway lighting.

The reconstruction of Midwest Avenue will enhance the existing transportation system in accordance with the City's Comprehensive Plan. The proposed project will also improve the walkability of the Old Yellowstone District by providing a new sidewalk along both sides of the street, new crosswalks along the entire corridor and extending the Rails-to-Trails pathway to Poplar Street.

If awarded the grant, design engineering of the project would be finalized immediately in order to meet all local, state, and federal requirements by September 30, 2021. One of the grant requirements is confirmation of the non-Federal match, which can be demonstrated via a Council

resolution. Once designed, the project would be scheduled to be bid out to contractors in the winter of 2021. Construction could then start in spring of 2022, and would be scheduled to be constructed over a 14-month period with completion by fall of 2023.

Financial Considerations: The 2019 BUILD Discretionary Grant considers rural designated projects that are a minimum in size of \$1.0 million dollars, and requires a non-Federal match of 20%. The engineer's estimate for the City of Casper's proposed project is a total cost of \$2,490,000 with a non-Federal match of 20% by the City of \$498,000.

The funding source for the local match is proposed to be determined at such time as the City receives the approval of the grant application.

Oversight/Project Responsibility: Andrew Beamer, Public Services Director, will administer the grant on behalf of the City of Casper.

WHEREAS, the application will be submitted for the reconstruction of Midwest Avenue from Walnut Street to Poplar Street, including new utilities, curb and gutter, sidewalk, landscaping, and roadway lighting; and,

WHEREAS, the reconstruction will be a benefit to the residents of Casper and the surrounding area by creating a walkable, sustainable, infrastructure foundation for the redevelopment of the Old Yellowstone District and future State office building; and,

WHEREAS, sufficient federal transportation enhancement funds exist to fund the project providing adequate local match is provided by the City of Casper.

Agreement

STANDARD FORM OF
AGREEMENT BETWEEN OWNER AND CONTRACTOR

THIS AGREEMENT is made between the City of Casper, 200 North David Street, Casper, Wyoming 82601, hereinafter referred to as the "Owner," and with Wayne Coleman Construction, Inc., P.O. Box 2440, Mills, Wyoming 82644, hereinafter referred to as the "Contractor."

WHEREAS, the City of Casper desires to make asphalt improvements at the Solid Waste Facility; and,

WHEREAS, Wayne Coleman Construction, Inc., is able and willing to provide those services specified as the 2019 Solid Waste Asphalt Improvements, Project No. 18-021.

NOW, THEREFORE, it is hereby agreed as follows:

ARTICLE 1. WORK.

Contractor shall perform all the work required by the Contract Documents for the 2019 Solid Waste Asphalt Improvements, Project No. 18-021, hereinafter referred to as the "Work."

ARTICLE 2. ENGINEER.

The Project has been designed by the City of Casper, who is hereinafter referred to as the "Engineer" and who is to act as Owner's representative, assume all duties and responsibilities and have the rights and authority assigned to Engineer in the Contract Documents in connection with completion of the Work in accordance with the Contract Documents.

ARTICLE 3. CONTRACT TIME.

- 3.1 The Work will be substantially completed by **September 27, 2019**, and completed and ready for final payment in accordance with Article 14 of the General Conditions by **October 4, 2019**.
- 3.2 Liquidated Damages. Owner and Contractor recognize that time is of the essence of this Agreement and that Owner will suffer financial loss if the Work is not substantially completed by the time specified in Paragraph 3.1 above, plus any extension thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not substantially completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty) Contractor shall pay Owner Five Hundred Dollars (\$500.00) for each day that expires after the time specified in Paragraph 3.1 for substantial completion. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in paragraph 3.1 for completion and readiness for final payment or any proper extension thereof granted by Owner, Contractor shall pay Owner

Two Hundred Dollars (\$200.00) for each day that expires after the time specified in paragraph 3.1 for completion and readiness for final payment. It is further agreed that such liquidated damages are not a penalty, but represent the parties' best estimate of actual damages.

ARTICLE 4. CONTRACT PRICE.

In consideration of the performance of the work in accordance with the Contract documents for this Unit Price Contract, Owner shall pay Contractor in current funds a not-to-exceed total contract price of Two Hundred Forty-Eight Thousand Three Hundred Seven Dollars (\$248,307.00), subject to additions and deductions by Change Order approved by the Owner. The contract fee shall be based on materials actually furnished and installed and services actually provided based on the unit prices contained in the Bid Form, included as Exhibit "A" (pages BF-1 through BF-4, Bid Form) and Itemized Bid Schedule, included as Exhibit "B" (page BS-1, Bid Schedule) and by this reference made a part of this Agreement.

ARTICLE 5. PAYMENT PROCEDURES.

Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed through the Engineer as provided in the General Conditions.

- 5.1 Progress Payments. Contractor's Applications for Payment, as recommended by Engineer, shall be submitted to City Engineering Staff on or before the 25th day of each month during construction, and Owner shall mail progress payments in the following month one day after the second monthly meeting of the Casper City Council. Progress payments shall be structured as provided below. All progress payments will be on the basis of the progress of the Work measured by the Schedule of Values provided for in Paragraph 14.1 of the General Conditions, subject to the cutoff and submittal dates provided in the General Provisions.
 - 5.1.1 Prior to payment of fifty percent (50%) of Total Contract Price, progress payments will be made in an amount equal to ninety percent (90%) of the Work completed, and ninety (90%) of Invoice Cost of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made.
 - 5.1.2 After payment of fifty percent (50%) of Total Contract Price has been made, Owner shall withhold such amounts necessary so the total retainage is equal to five percent (5%) of the Total Contract Price.
 - 5.1.3 In the event the Contractor makes only one application for payment upon substantially completing the Work, progress payment will be made in an amount equal to ninety-five percent (95%) of the Work completed. Owner shall withhold five percent (5%) of the work completed as retainage, said retainage to be paid in accordance with the provisions of Paragraph 5.2, Final Payment.

5.1.4 Should amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other item or purpose remain unpaid beyond the City's general credit policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this agreement.

5.2 Final Payment. Upon final completion and acceptance of the Work in accordance with Article 14 of the General Conditions, Engineer shall recommend payment and present Contractor's Final Application for Payment to the City. Pursuant to Wyoming State Statutes, final payment cannot be made until forty-one (41) days after publication of the first Notice of Completion.

ARTICLE 6. WITHHELD FUNDS.

Pursuant to Wyoming Statutes Section 16-6-701 et seq., withheld percentages for Contracts exceeding Twenty-Five Thousand Dollars (\$25,000.00) will be retained in an account in the name of the Contractor (except when specifically waived in writing by Contractor) which has been assigned to the Owner until the Contract is completely, satisfactorily, and finally accepted by the Owner. Unless a depository is designated by the Contractor in a written attachment hereto, the Contractor's signature hereon shall act as authority for the Owner to designate a retainage depository on behalf of the Contractor, for the purposes specified in Wyoming Statutes Section 16-6-704. The Contractor's signature hereon shall act as an assignment of the depository account to the Owner, as provided by Wyoming Statutes Section 16-6-701 et seq., whether the depository is designated by the Contractor or by the Owner.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

Recommendation

That Council, by resolution, authorize a Professional Services Contract with Stantec Consulting Services, Inc. (Stantec), for stormwater design, bid administration, and construction administration services related to the North Platte River Restoration – 1st Street Reach Project, in the amount of \$149,743.00.

Summary

The North Platte River Restoration is an ongoing, multi-phase, collaborative project to improve overall habitat, remedy and protect against bank erosion, and enhance the aesthetics of the North Platte River throughout the Casper area. The project is supported and funded by the City through the One Cent as well as other public and private agencies through grants. Previous phases of this project have been completed in recent years on the west end of Casper, including the Morad Park Reach, the Wyoming Boulevard Reach, and the Water Treatment Plant Reach.

The 1st Street Reach begins just downstream of the Poplar Street Bridge, flowing downstream underneath the 1st Street Bridge, and ends just upstream of the Burlington Northern-Santa Fe (BNSF) Bridge. This reach includes approximately one half mile of river through a highly visible and visited portion of the City of Casper. The construction project includes special environmental preparedness, grade control features, channel adjustment, bank reconstruction, bank re-vegetation, and stormwater outfall enhancements.

Stantec has completed the primary design to support permitting efforts to move forward with bidding of the project and has been selected to provide the finished stormwater design, bid administration, and construction administration for this project. The construction work is expected to be complete by December of 2019 with final plantings and inspection by May 2020.

If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location. The CGL policy shall be endorsed to contain Employers Liability/Stop Gap Coverage
2. Automobile Liability: Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than Five Hundred Thousand (\$500,000) per accident for bodily injury and property damage.
3. Workers’ Compensation: as required by the State of Wyoming with Statutory Limits.

4. Professional Liability (Errors and Omissions) Insurance appropriate to the Consultant's profession, with limit no less than the sum of Two Hundred Fifty Thousand Dollars (\$250,000) to any claimant for any number of claims arising out of a single transaction or occurrence; or the sum of Five Hundred Thousand Dollars (\$500,000) for all claims arising out of a single transaction or occurrence. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location.

C. Higher Limits. If the Consultant maintains higher limits than required under this Agreement, then the City shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

D. Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. *Additional Insured Status*

The City, its officers, elected and appointed officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Consultant including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the Consultant's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions used).

2. *Primary Coverage*

For any claims related to this contract, the Consultant's insurance coverage shall be primary insurance as respects the City, its officers, elected and appointed officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its officers, elected and appointed officials, employees, agents or volunteers shall be excess of the Consultant's insurance and shall not contribute with it.

3. *Notice of Cancellation*

Each insurance policy required above shall state that coverage shall not be canceled, materially changed, or reduced, except with notice to the City. Such notice to the City shall be provided in a commercially reasonable time.

4. *Waiver of Subrogation*

Consultant hereby grants to City a waiver of any right to subrogation which any insurer of said Consultant may acquire against the City by virtue of the payment of any loss under such insurance. Consultant agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Consultant has two options regarding deductibles and self-insured retentions:

- a. Option 1: Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. Option 2: Consultant shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Consultant is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. Consultant shall provide a written endorsement from its insurance carrier that such insurance coverage is in place, and shall keep such coverage in place during the term of this Contract and any subsequent time period required for claims made policies.

6. *Acceptability of Insurers*

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise agreed to in writing by the City.

7. *Claims Made Policies*

If any of the required policies provide coverage on a claims-made basis:

- a. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
- b. Insurance must be maintained and evidence of insurance must be provided *for at least three (3) years after completion of the contract of work*. However, Consultant's liabilities under this Contract shall not be deemed limited in any way by the insurance coverage required.

- c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Consultant must purchase “extended reporting” coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Consultant shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant’s obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subconsultants*

Consultant shall require and verify that all subconsultants maintain insurance meeting all the requirements stated herein, and Consultant shall ensure that the City is an additional insured on insurance required from subconsultants.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

- E. Consultant agrees to indemnify the City, the City’s employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Consultant and any subconsultant thereof.

12. INTENT:

Consultant represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Consultant shall perform all of the services for the compensation set forth in this Contract. Consultant also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Consultant agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

Dear Mr. Baxter,

In response to your request, Stantec Consulting Services Inc. (Stantec) is pleased to provide this scope and fee proposal for final engineering services, stormwater design services, bid administration, and construction oversight services to the City of Casper (Client) for the North Platte River Restoration – First Street Reach Project (project). Under this proposal, Stantec will provide professional consulting services associated with the final design, permitting, and implementation of the project.

Scope of Services

Based on our communications, we understand that the City would like Stantec to assist with completion of project permitting and update the final restoration design based on regulatory input, design Stormceptor-type Manufactured Treatment Devices (MTDs) for in-line pre-treatment and sediment reduction of storm flows prior to discharging to the North Platte River, provide bid administration services, and provide construction oversight services during project implementation. This scope and fee proposal summarizes these services, by task, in detail below.

Task 1 Project Management, Meetings, and Coordination

This task will include Project Manager and Design Engineer communications, project calls and meetings, regulation of workflow, and management of project financials to ensure successful project maintenance, execution, oversight, and delivery. Effective communications are of paramount importance during all phases of project execution.

Assumptions and exclusions:

- Stantec's Project Manager and/or lead design engineer will attend bi-weekly project conference calls (plus additional brief calls as necessary) and ensure proactive communications during the lifecycle of the Project.
- Stantec will attend up to one (1) face-to-face meeting with the City, project stakeholders, or regulatory agencies as necessary to address project needs and requirements under this task.

Reference: 1st Street Restoration Project (Implementation Phase) – Scope & Fee Estimate

Task 2 Final Restoration Design Modifications & Permitting Support

While Stantec is not responsible for securing the final environmental project permits necessary to construct the restoration design (CWA §404, §401), we understand the need to participate, contribute-to, and assist-in the acquisition of these permits as the designers and restoration technical experts. This effort includes time and materials necessary to support permitting along with time needed to incorporate modifications to the final restoration design.

2.1 Permitting Support and WSQT

Construction of this project is predicated on the successful acquisition of these permits, and as such, Stantec will represent the City's interests and objectives throughout continuing discussions and negotiations with the US Army Corps of Engineers and Wyoming Department of Environmental Quality through active communication and participation. Permits have yet to be secured for the project, and this subtask includes technical assistance associated with regulatory consultation and negotiation. This includes data entry and reporting associated with the Wyoming Stream Quantification Tool (SQT), which is required by the USACE for this project.

2.2 Final Design Refinement and Documentation

Stantec anticipates that these permitting discussions will necessitate refinement of the final design plans, design specifications, bid documents and may affect project execution and construction phasing. In addition, several active and ongoing constraints could further impact the final design and implementation phases of this project. These include changes to the project's limits of disturbance; landscaping and strategic vegetative plantings; water control; infrastructure conflicts; construction access; stakeholder concerns; and baseflow discharge. These additional constraints will be considered on a case-by-case basis.

Assumptions and exclusions:

- Stantec will participate in up four (4) conference call with the City, stakeholders, and the City's environmental contractor (Golder) to discuss project permit acquisition
- Stantec will participate in up to two (2) in-person meetings with regulators (USACE, WY DEQ) at their offices in Cheyenne, WY
- Communications with regulators will result in one (1) round of design refinements/modifications to the Final Design Plans and project specifications
- No new data collection or analyses will be required to complete the WSQT documentation. Stantec will rely on experience and best professional judgement to populate many of the required data values, and Stantec assumes that this protocol will be acceptable to the USACE for project permitting purposes

Task 3 Stormwater Design Services

Under this task, Stantec will size and specify Manufactured Treatment Devices (MTDs), perform an energy grade line/hydraulic grade line (EGL/HGL) analysis to evaluate existing and proposed surcharge conditions,

Reference: 1st Street Restoration Project (Implementation Phase) – Scope & Fee Estimate

provide construction-level plan view graphics and details, and complete an opinion of probable cost for construction.

It is our understanding that the following is requested:

- MTDs will be designed inline for:
 - 36" BNSF Bridge Outfall
- Two private inlets (Outfall A-18" and Outfall B-24") on the western side of the river at Jonah Bank will be retrofit with a FlexStorm or Gutter Bin type inlet filter.
- A series of Elbows/Connections, a pipe extension, and a new outfall (with protection measures) will be designed and installed at outfall A to better tie in with proposed grade associated with the restoration.
- A pipe extension and a new outfall (with protection measures) will be designed and installed at outfall B to better tie in with proposed grade associated with the restoration.
- A Manhole Adjustment (Raising), a drop manhole, a pipe extension, and a new outfall (with protection measures) will be designed and installed at outfall C.

3.1 Hydrology and Hydraulic Analyses

Stantec will use the drainage area boundaries and discharges provided by the Client to establish existing and proposed conditions closed conduit hydraulic conditions. This analysis will include a full-flow pipe evaluation based on invert elevations, slope, and pipe diameter. We assume that these pipe dimensions and elevations will be provided via GIS data. Stantec will evaluate the hydraulic grade line of the system to a limit of one junction structure upstream of the work areas. Sizing of the MTDs is included in the Hydrology & Hydraulic Analysis task. Sizing of the drop manholes at Jonah Bank will be limited to DOT or Client standard requirements based on inflow and outflow pipe size and orientation. The results of this task will be provided in a brief summary memo. The summary memo will be provided to the client in PDF format.

3.2 Storm Sewer Retrofit and Design

Stantec will use a continuous simulation model developed by the practice manufacturer to determine appropriate sizing of the MTD to meet pre-treatment targets, existing conditions, and site constraints. Stantec will locate the practices in the areas desired by the Client, accessible to maintenance crews and away from private property.

Stantec will design storm sewer line extensions/modifications and outfall retrofits needed to improve the function of the existing stormwater infrastructure. The design will account for the H & H modelling to size and position new outfall locations and protection.

3.3 Construction Plan Sheets

Stantec will use results of the Hydrology and Hydraulics task and sizing to develop construction level construction plan sheets for the retrofits. The sheets will include plan views of each retrofit, profiles of the system in the immediate vicinity of the work areas, general construction notes, and details. The notes and details will be limited to those available from the manufacturer and standard DOT or Client provided notes & details for installation of storm structures. Erosion and sediment control practices are expected to be limited

Reference: 1st Street Restoration Project (Implementation Phase) – Scope & Fee Estimate

to perimeter control, staging areas, and access road stabilization and will be depicted on the retrofit plan sheets in-lieu of a separate standalone erosion and sediment control plan. We assume production of 4 Construction plan sheets and one round of revisions to address client comments after review under this task. The plan sheets will be provided to the Client in PDF format.

3.4 Opinion of Probable Cost

In addition to the plan sheets Stantec will provide an engineer's opinion of probable cost (OPC). The OPC will be provided to the client in PDF format.

3.5 Restoration Compatibility Support

Stantec's river restoration design team will work directly with our stormwater engineers and technicians to ensure seamless compatibility with the restoration project's goals and objectives. This task includes data transfer, tech transfer, communications, and support necessary to deliver a complete, professional, and robust design package.

Assumptions and exclusions:

- This scope does not include oversight or coordination with the contractor during construction by Stantec's stormwater engineer.
- This scope does not include coordination with stakeholders or agencies beyond the client.
- Detailed survey, geotechnical, or structural investigations by Stantec are not required to complete stormwater design.
- This scope does not include any services contrary to the assumptions denoted herein.

Task 4 Bid Administration Services

Bid administration services will consist of the following items:

- Attending and co-leading one (1) pre-bid meeting onsite in the City of Casper
- Providing written responses to questions and inquiries regarding design received during the pre-bid meeting from contractors
- Preparing any plan set addendums, if necessary

Assumptions and exclusions:

- Stantec will attend one (1) pre-bid meeting for interested contractors
- Technical restoration questions raised during the pre-bid meeting will be compiled, and Stantec will provide written responses to these questions within one week once the question period has closed.

Reference: 1st Street Restoration Project (Implementation Phase) – Scope & Fee Estimate

- Stantec will complete one round of project addendums based on contractor and regulatory input received by Stantec within two weeks of the project pre-bid meeting. Following this two week question/comment window, Stantec assumes that no additional addenda will be needed.

Task 5 Construction Oversight Services

Construction administration will consist of the following items:

- Weekly construction observation during active construction and revegetation activities
- Daily safety and project workflow tailgate meetings
- Monthly project meetings with the contractor and the City
- Weekly photo logs that document construction progress
- Weekly field reports with descriptions of construction activities
- The Project Engineer and Project Manager will provide clarifications throughout construction and planting to facilitate review of all invoices
- Onsite observation of construction activities will be performed by a Project Engineer or Senior Ecologist on a weekly basis throughout the active construction window. The Project Manager will make site visits as necessary to facilitate project implementation
- Project Closeout will consist of developing a final punchlist for the contractor and development of an “As-Built” Planset. The “As-Built” Planset will utilize PLS survey data, provided by the contractor, to redline the completed construction elements and to document any field changes.

Assumptions and exclusions:

- Stantec assumes that construction will be completed during one (1) construction season (October – December, 2019) which will involve 12 weeks of active implementation requiring construction observation. Any changes to this anticipated project construction schedule may necessitate modifications to this agreement.
- One week of revegetation/planting observation is also included in this scope
- Of the 12-week active construction window, it is assumed that Stantec will be onsite full-time (50 hrs/wk) for 6 of these weeks, and half time (25 hrs/week) for the remaining 6 weeks.
- Indirect costs are included for project travel, meals, and accommodation and have been estimated using standard rates. It is assumed that lodging will be secured on a weekly basis at local hotels/motels, as appropriate.

Reference: 1st Street Restoration Project (Implementation Phase) – Scope & Fee Estimate

Deliverables

Project deliverables under this scope of services includes the following:

- Full plan set and specifications for interested contractors
- Addenda (if necessary)
- Meeting minutes from weekly and monthly progress meetings
- Weekly photo logs
- Weekly progress reports

Schedule

Active Project Construction is anticipated to occur over one construction season, approximately October through December, 2019. This scope and associated fee assume that construction of the First Street Site will occur during one construction season in the Fall of 2019. Due to local weather conditions, some vegetative plantings may need to occur during the spring, following active construction (approx. April 2020), and this scope allows for this flexibility. The final project implementation schedule will be predicated on the terms of any project permits received, and on the construction contractor, once selected.

Cost

Total cost associated with this scope of services is \$149,743.00

A full breakdown of proposed costs may be found on the attached spreadsheet.

Resolution

Recommendation:
That Council, by resolution, execute a M-54 License with the Wyoming Department of Transportation (WYDOT), for installation of a water distribution line within WYDOT right-of-way to serve the Topol Addition.

Summary:
New commercial development is planned for the Topol Addition at the northeast corner of Wyoming Boulevard and Centennial Hills Boulevard. Installation of a water distribution line requires work within Wyoming Boulevard, a WYDOT controlled right-of-way.

As the water distribution line will ultimately be owned and operated by the City of Casper, WYDOT requires a license for this installation. The permit documents the conditions under which the facility may be installed and is required by WYDOT.

Financial Considerations
The cost for installation of the water line will be the responsibility of the developer.

3. **Term of License and Required Approvals.** This License is effective when all parties have executed it and authority to proceed has been granted by the Agency.

4. **Responsibilities of Licensee.**
- A. **Condition of Approval.** As a condition of approval for this License, the Licensee agrees to locate the Facility identified by this License at the Licensee’s expense, in accordance with Wyoming Statute § 37-12-301 *et. seq.* Wyoming Underground Facilities Notification Act. The Licensee also agrees to include the nature, location and depth of the Facility on an Engineering Drawing, using three dimensional planes and a datum reference determined by the Agency. If unanticipated or unusual circumstances are encountered during Facility construction which forces a deviation in excess of two (2) feet from the approved horizontal alignment, the Licensee shall contact the respective district maintenance engineer and seek approval prior to making the deviation. The Licensee shall then file an amended exhibit.
 - B. **Plan/Staking Sheet.** The Licensee shall attach the Engineering Drawing, and a plan sheet and/or staking sheet showing the proposed facilities to be placed within the Agency’s right-of-way, designated Exhibit “A”, which is attached to and incorporated into this License by this reference. Upon completion of the proposed work, the Licensee shall submit to the Agency “As-Constructed” plans showing the actual location of the facilities within the Agency’s right-of-way. Exhibit “A” and the “As-Constructed” plans shall comply with the *Wyoming Department of Transportation Utility Accommodation Regulation* and the following requirements:

(i) PLAN VIEW REQUIREMENTS

- (a) Existing roadway, right-of-way line, right-of-way fence, and cross fences if they are not on the right-of-way line.
- (b) Existing approaches, intersecting roads or streets, drainage ditches, irrigation ditches, pipes, and culverts that have to be crossed
- (c) Existing major utility facilities.
- (d) Proposed Facility alignment with offset distances from either the roadway centerline or right-of-way line.
- (e) Location of existing facilities on the highway right-of-way that are owned and operated by the Company.
- (f) Proposed locations of all support appurtenances such as air relief valves, manholes, pedestals, junction boxes, line marker, vent pipes, guys and anchors, etc.
- (g) Size and/or capacity of the proposed Facility, that is, kV, number of cable pairs, pipe diameter, pipe type, wall thickness (for carrier and casing), product to be carried, max. operating psig, etc.
- (h) Indicate with a highlighter, appropriate symbol, or verbiage (for example, "As-Constructed") the new Facility so that it is easily recognizable for someone reading the drawing(s).
- (i) Legal description: Section, Township, and Range with North Arrow.
- (j) Reference new Facility to the nearest milepost marker using a compass direction and footage. Example: "1231' east of milepost 30."
- (k) All bridge attachments must be reviewed and approved by the WYDOT Bridge Program. Bridge attachments should indicate if the Facility is to be placed in an existing conduit or a new conduit on the bridge. Bridge attachments are addressed in the WYDOT Utility Accommodation Regulation.

(ii) AERIAL HIGHWAY CROSS SECTION

- (a) Low sag design clearance above the high point of the roadway.
- (b) Existing or proposed under-built facilities, including those by others.
- (c) Cross section view of the highway right-of-way indicating the location of poles or support structures relative to the roadway centerline or right-of-way lines.

(iii) BURIED HIGHWAY CROSS SECTION

- (a) Cross section view of the highway right-of-way at the crossing, showing the depth of the Facility relative to natural ground, roadway drainage ditch, and the roadway template.
- (b) If casing pipe or conduit is used, indicate by dimension where the casing will end.
- (c) If heavy wall thickness pipe is used instead of casing pipe, show where the heavy wall thickness pipe transitions back to normal thickness pipe.

The maximum sheet size shall be eleven inches by seventeen inches (11" x 17"). Use of Agency supplied project plans and cross sections is recommended as most of the above requirements are met, saving time and expense to both parties. Contact the Agency for availability of paper plans and/or electronic design files.

- C. **Facility Placement.** The Facility will be placed in a manner conforming to recognized standards, applicable federal, state, or local laws, codes, ordinances, and regulations; in the exact location shown on the attached "Exhibit A"; and as directed by the Agency. Placing the Facility in a location other than originally approved without obtaining prior Agency approval by submitting a revised "Exhibit A", will void the License.
- D. **Changes.** Any future alterations, modifications, or removals (Adjustments) of the Facility within the highway right-of-way, required and requested by the Agency, shall be completed without delay. These Adjustments will be accomplished *at no expense to the Agency*, unless otherwise provided for by law. Any costs due to delays or lack of response to the Agency or an Agency contractor resulting from the failure of the Licensee to perform the required Adjustments necessitated by a highway construction project or maintenance activities, will be borne by the Licensee.
- E. **Limitations.** This License will not be modified, transferred, or assigned without the written consent of the Agency. This License does not allow for installation of additional facilities, nor does this License set aside a strip of land of specific width for the exclusive use by the Licensee.
- F. **Cancellation or Nullification.** The Licensee is required to notify the Agency in writing to cancel or nullify any issued License if the described Facility is not constructed within the prescribed time limits,

scheduled to be removed, or taken out of service. No Facility will be allowed to be abandoned in place. The Facility must be removed at the time of abandonment.

- H. Traffic Control.** The Licensee agrees to the standards for traffic control as outlined in the Agency's *Traffic Control for Roadway Work Operations* manual, which is incorporated into this License by this reference. Standards developed by the Licensee may be substituted for the cited manual provided they have been approved by the district traffic engineer. The Licensee must cease all operations if they do not comply with traffic control standards. Traffic control plans and road closure plans will be submitted to the Agency's engineer for approval prior to starting any work on highway right-of-way.
- I. Contaminated Soil.** Any Licensee installing a new Facility or replacing/upgrading an existing Facility that encounters any type of contaminated soil, will at the Licensee's expense manage the contaminated soil in accordance with current DEQ regulations.
- 5. Responsibilities of Agency.** This License is issued pursuant to Wyoming Statute § 1-26-813, Right-of-Way Along Public Ways . . . , and grants permission for the Licensee to occupy a portion of the right-of-way controlled by the Agency. SUBJECT: Professional Services Contract with Civil Engineering Professionals, Inc. in the amount of \$197,500.00, for water system modeling and study for the City of Casper 2020 Water System Master Plan, Project No. 19-013.

Recommendation

That Council, by resolution, authorize a Professional Services Contract with Civil Engineering Professionals, Inc. (CEPI), for water system modeling and study related to the City of Casper 2020 Water System Master Plan, in the amount of \$197,500.00.

Summary

Over the past 60 years the City of Casper has relied upon water system master plans to plan and construct its water system to serve the residents in Casper and the surrounding area. The more recent plans were developed in 1982 (updated in 1997), and 2006. The 2006 plan was entitled "Casper Master Plan Level I Study" and was funded by the Wyoming Water Development Commission (WWDC). The 2006 Master Plan included water system growth projections, hydraulic modeling and system analysis, and recommendations for needed improvements to meet current and projected development in the system. There were 58 recommended improvements in the final report, ranging from short waterline installations to new or replacement booster stations and water tanks. Financial needs and recommendations were also presented.

The City of Casper and the greater Casper area have grown considerably even since 2006. With this new growth and development, the City of Casper desires to update its current 2006 Water System Master Plan with a new 2020 Water System Master Plan to determine future sizing and locations of new and/or modified water storage tanks, booster stations, and water transmission lines throughout the City of Casper.

Proposals were received from two consultants and CEPI was selected based on their experience with multiple systems and studies similar to this one, their specific understanding of the Casper area water system, and the excellent proposal they submitted. Their objective will be to study and document the existing water distribution system in Casper, including modeling of the Central Wyoming Regional Water System, and prepare a new master plan that will make recommendations for future corrections, upgrades and designs in a new City of Casper 2020 Water System Master Plan. The master plan study is expected to be complete by May 1, 2020.

Financial Considerations

The City's funding for this project will come from Water Fund Reserves.

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than the sum of Two Hundred Fifty Thousand Dollars (\$250,000) to any claimant for any number of claims arising out of a single transaction or occurrence; or the sum of Five Hundred Thousand Dollars (\$500,000) for all claims arising out of a single transaction or occurrence. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location. The CGL policy shall be endorsed to contain Employers Liability/Stop Gap Coverage
2. **Automobile Liability:** Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if Consultant has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than Five Hundred Thousand (\$500,000) per accident for bodily injury and property damage.
3. **Workers’ Compensation:** as required by the State of Wyoming with Statutory Limits.

4. Professional Liability (Errors and Omissions) Insurance appropriate to the Consultant's profession, with limit no less than the sum of Two Hundred Fifty Thousand Dollars (\$250,000) to any claimant for any number of claims arising out of a single transaction or occurrence; or the sum of Five Hundred Thousand Dollars (\$500,000) for all claims arising out of a single transaction or occurrence. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location.

C. *Higher Limits.* If the Consultant maintains higher limits than required under this Agreement, then the City shall be entitled to coverage for the higher limits maintained by the Consultant. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

D. *Other Insurance Provisions*

The insurance policies are to contain, or be endorsed to contain, the following provisions:

1. *Additional Insured Status*

The City, its officers, elected and appointed officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Consultant including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage shall be provided in the form of an endorsement to the Consultant's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 20 10 and CG 20 37 forms if later revisions used).

2. *Primary Coverage*

For any claims related to this contract, the Consultant's insurance coverage shall be primary insurance as respects the City, its officers, elected and appointed officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its officers, elected and appointed officials, employees, agents or volunteers shall be excess of the Consultant's insurance and shall not contribute with it.

3. *Notice of Cancellation*

Each insurance policy required above shall state that coverage shall not be canceled, materially changed, or reduced, except with notice to the City. Such notice to the City shall be provided in a commercially reasonable time.

4. *Waiver of Subrogation*

Consultant hereby grants to City a waiver of any right to subrogation which any insurer of said Consultant may acquire against the City by virtue of the payment of any loss under such insurance. Consultant agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Consultant has two options regarding deductibles and self-insured retentions:

- a. Option 1: Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Consultant to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. Option 2: Consultant shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Consultant is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. Consultant shall provide a written endorsement from its insurance carrier that such insurance coverage is in place, and shall keep such coverage in place during the term of this Contract and any subsequent time period required for claims made policies.

6. *Acceptability of Insurers*

Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise agreed to in writing by the City.

7. *Claims Made Policies*

If any of the required policies provide coverage on a claims-made basis:

- a. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
- b. Insurance must be maintained and evidence of insurance must be provided *for at least three (3) years after completion of the contract of work*. However, Consultant's liabilities under this Contract shall not be deemed limited in any way by the insurance coverage required.

- c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Consultant must purchase “extended reporting” coverage for a minimum of *three (3) years* after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Consultant shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant’s obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subconsultants*

Consultant shall require and verify that all subconsultants maintain insurance meeting all the requirements stated herein, and Consultant shall ensure that the City is an additional insured on insurance required from subconsultants.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

- E. Consultant agrees to indemnify the City, the City’s employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney’s fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Consultant and any subconsultant thereof.

12. INTENT:

Consultant represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Consultant shall perform all of the services for the compensation set forth in this Contract. Consultant also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Consultant agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

Exhibit "A"
Scope of Services

The scope of services is comprehensive and will provide the City of Casper with a complete Master Plan and system hydraulic model that will be an accurate, reliable, usable and comprehensive tool to serve the City in the management, planning, operation and maintenance of the water system that serves the community.

Task No. 1 – Project Meetings.

- A. A Project Kick-Off Meeting shall be held at City Hall early in the project schedule to familiarize City staff with the scope of the project, and to obtain input from affected parties. CEPI shall prepare a presentation including some combination of projected presentation slides, large maps, personal hard-copy hand-outs and other visual aids to explain the project.

- B. Project Coordination Meetings shall be held at City Hall every other month for the duration of the project to update City staff on the progress of the master plan and to resolve any problems or questions related to the project. CEPI shall present any adjustments to the proposed schedule of the project during these meetings.

- C. A Project Completion Meeting shall be held at City Hall at the conclusion of the project to inform City officials during a City Council Work Session of the project findings and recommendations. CEPI shall develop the information and materials to be presented after consultation with City staff and shall include some combination of projected presentation slides, large maps, personal hard-copy hand-outs and other visual aids to explain the findings and recommendations.

- D. CEPI will host a hydraulic model training seminar for City staff.

Task No. 2 – Review and Summarization of Previous Data/Studies.

CEPI shall collect and review all available background information regarding the Central Wyoming Regional Water System, to include existing reports, planning documents, agency surveys, plans/engineering drawings, and other sources of data relating to the water distribution system. This review shall also include information obtained from studies conducted for the Central Wyoming Regional Water System. Information obtained through this task shall be summarized and used to help direct project work.

Task No. 3 – Service Area Determination/Land Use Planning.

CEPI shall, in coordination with City staff, identify the service area for this project. The Consultant shall also coordinate with City and County planners from the outset of project scoping and through the entire course of the study. Resources from which to assist the study include the comprehensive growth management plan, transportation master plan, GIS

coverages, etc. The Consultant shall utilize these resources to provide the framework from which the water master plan can build and synchronize similar components. The Consultant shall incorporate existing local land use plans into this study for the purpose of service area delineation.

Task No. 4 – Water Use/Demand Projections.

Using the City’s data, the Consultant shall determine historic per capita demand rates. CEPI shall also determine the expected impact on per capita demand of any conservation measures planned by or recommended to the City. Per capita values are useful for projecting system-wide flow rates for the average day, monthly average, maximum day, maximum hour, and storage replenishment conditions. The Consultant shall determine annual variations in per capita water demands and reach agreement with City staff regarding the “dry year” demand rates that should be used for projecting future water requirements.

CEPI shall prepare population/demand projections for the service area. The projections shall be based on Department of Administration and Information population projections, industrial/commercial demand projections, and city/county planning office records and projections. The Consultant shall use this information to project future average day, monthly average, maximum day, maximum hour, fire-flow, and storage replenishment water use for the years 2020, 2025, 2030, and 2040. The projected demands shall be used to evaluate long term system expansion and water supply needs. A comparison shall be made of projected water demand compared to supply, including treatment capacity. Areas of potential future growth will also be designated. Issues regarding growth that will or may be affected by the choices made in building new water supply capacity will be highlighted, and resources cited. The goal will be to aid the City Council in making informed choices on interrelated growth and water supply matters. The issues examined regarding growth should include expected growth in county areas near the city, and county planning decisions or pending decisions on desired growth areas.

Task No. 5 – Inventory of Existing Facilities.

CEPI shall review the system and evaluate the need for transmission line rehabilitation and upgrades. The Consultant shall also evaluate pump station modifications and upgrades necessary for maintaining and improving the system. An evaluation of storage facilities shall be made and capacities defined. The condition of the various storage facilities shall also be documented. The Consultant shall review existing reports, plans and data, and shall interview key staff members in the completion of this task. In addition, a visual inspection of major facilities shall be made. The Consultant shall then produce a summary of existing water works facilities.

Task No. 6 – Hydraulic Modeling.

CEPI shall construct a hydraulic model of the City of Casper’s Water Supply System. The Consultant shall coordinate with the City in the completion of this task and shall only use software agreed to by City staff. The Consultant shall evaluate the adequacy of the water

transmission and distribution system to meet current and future pressure and flow requirements. The Consultant shall consider municipal, industrial and fire flow needs in the evaluation. The model shall be detailed enough to satisfy the needs of the project in evaluating the adequacy of the existing system to meet current demands as well as in the evaluation of future growth scenarios, considering, but not limited to storage, transmission, water quality, pressures, transient analyses, etc. The model shall be constructed as a base line, aid in the operations plan, and shall be able to be expanded upon as the system grows.

At the conclusion of this project, the Consultant shall deliver to the City Engineering staff the water model in appropriate software electronic files, including all associated data, information, assumptions, instructions, etc. to equip the City to modify, expand and operate the water model in-house. The Consultant shall report to City staff the number of elements, including all fire hydrants and fire hydrant lead pipelines, included in the model for the purpose of equipping the City to purchase appropriately sized software to run the model.

Task No. 7 – Identification of Rehabilitation and Expansion Needs.

Based on the work completed in Tasks 1 through 7, CEPI shall identify the rehabilitation and expansion needs of the system. The Consultant shall determine the adequacy of the existing water storage and pumping systems and provide a recommended Capital Improvements Plan to maintain and, where needed, improve current service levels. The plan should be prioritized by immediacy, i.e. those requiring immediate attention and/or action (2020), those needs that are required to serve the year 2025 demands, then the year 2030 demands, and lastly those expected to meet year 2040 requirements. The recommended improvements to the system in the latter three scenarios shall be tied to projected population growth and/or water demand rates identified in Task 4.

Task No. 8 – Recommended Alternatives.

CEPI shall identify the recommended alternatives to meet the needs identified in Task 8. The alternatives will include water source identification, ownership, existing water right, and modifications required for efficient utilization, system layout, pumping requirements, etc. to accurately describe the facilities proposed. Needed improvements should be prioritized for consideration by the City of Casper. Proposed system improvements shall be summarized and provided in the draft and final reports. Reconnaissance level designs shall be prepared for the improvements.

Task No. 9 – Preliminary Cost Analysis.

CEPI shall provide cost estimates, including all design and construction components for specific improvements. The cost to end user calculations shall include all identified and recommended improvements. The Consultant shall provide permitting cost estimates to include all permits, easements, and clearances necessary for the project. These cost estimates shall be based on the year 2020 design and construction costs (including water supply, land acquisition, construction, permitting, meter installation, etc.), including

construction engineering services and construction contingencies as outlined in the project requirements listed above.

Task No. 10 – Reports and Executive Summaries.

CEPI shall submit to the City of Casper Engineering Office ten (10) copies of the draft report describing the results of all work completed in this study no later than April 10, 2020.

After receipt and incorporation of City staff review comments, the Consultant shall submit the final report to the City on or before May 1, 2020. The final report shall consist of five (5) hard copies and on (1) unbound reproducible original of both the final report and executive summary, three (3) USB flash drives containing the final report, executive summary, and supplemental/notebook materials in both Microsoft Word and Adobe Acrobat (PDF) formats. The executive summary shall outline the purpose, findings, recommendations and configuration of the project, and shall include detailed cost estimates. The summary should not exceed ten (10) pages. All reports will be stamped and signed by a professional engineer licensed in the State of Wyoming.

SUBJECT: Authorizing an Agreement with the United States Department of the Interior –
Bureau of Reclamation (Reclamation) for Negotiation of a New Water Service
Contract

Meeting Type & Date

Regular Council Meeting
July 2, 2019

Action Type

Resolution

Recommendation:

That Council, by resolution, authorize an agreement with Reclamation for negotiation of a new water service contract to replace an existing water service contract (No. 2-07-70-W0534), referred to as the “Tri-Party Agreement”, which expires April 15, 2022.

Summary:

The City of Casper (City) entered into a 40-year Water Service Contract (No. 2-07-70-W0534) with the Bureau of Reclamation (Reclamation) and the Casper-Alcova Irrigation District (District) on April 15, 1982. In accordance with the contract, Reclamation and the District agreed to supply the City with up to 7,000 acre-feet of water annually from the Kendrick Project water supply. The water supply was developed through conservation measures by a system improvement program. In return for this water supply, the City paid the District’s repayment obligation to the United States and the City paid for the system improvement program.

The Tri-Party Agreement, Article 4, states that the contract may be renewed upon written request by the City. By letter dated October 30, 2018, the City notified Reclamation of its intent to renew the agreement. Since this time, the City and Reclamation have had preliminary discussions on moving forward with negotiations to define a new water service contract.

An agreement is now needed to start in depth contract negotiations with Reclamation. This agreement is to identify and define the roles, work, and funding responsibilities of Reclamation and the City to negotiate the new water service contract.

Financial Considerations

Per the agreement, the City will pay \$15,000 to Reclamation to negotiate the new water contract. Funding will be from the Water Fund.

**MEMORANDUM OF UNDERSTANDING
No. 19AG660031**

BETWEEN

**U.S. DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION**

AND THE

CITY OF CASPER

This Memorandum of Understanding (MOU) dated this 2nd day of July, 2019, is between the United States Department of the Interior, Bureau of Reclamation (Reclamation), and the City of Casper (hereinafter referred to as the “City”). The purpose of this MOU is to identify and define the roles, work and funding responsibilities of Reclamation and the City for the following request: to renew a water service contract for an amount not to exceed 7,000 acre-feet of supplemental water from the Kendrick Project.

I. AUTHORITY

Reclamation’s authority for the acceptance of non-federal funds identified in this MOU is provided through the following authorities: Reclamation Act of 1902 (Act of June 17, 1902; 32 Stat. 388), as amended and supplemented; Reclamation Extension Act (Act of August 13, 1914; 38 Stat. 686), Fact Finders Act of 1924, Subsection N (Act of December 5, 1924; 43 Stat. 704), The Omnibus Adjustment Act (Act of May 25, 1926; 44 Stat. 636), and Reclamation Project Act of 1939 (Act of August 4, 1939; 53 Stat. 1187).

II. PURPOSE

In 1982, the City entered into Contract No. 2-07-70-W0534 (Contract) with Reclamation and the Casper-Alcova Irrigation District (District). The term of the Contract ends on April 15, 2022, and under the terms of Article 4.a, the Contract “may be renewed upon written request by the City to the Secretary and the District on or before January 1 of the last year of the term of this Contract...”. The purpose of this MOU is for the United States to evaluate the City’s request to renew Contract 2-07-70-W0534. The contract will be between the City and Reclamation in order for the City to continue to receive a water supply of up to 7,000 acre-feet from the Kendrick Project.

III. ROLES AND RESPONSIBILTIES

Reclamation’s responsibilities will include the following:

1. Serve as the source of specific expertise in compliance with Federal laws and regulations.

2. Designate a point of contact(s) for all matters related to the contracting process, as well as compliance with National Environmental Protection Act (NEPA) and other applicable laws.
3. Participate in discussions with the City related to the work activities described herein.
4. Complete all internal documentation necessary to obtain authority to negotiate and execute the contract.
5. Participate in technical and/or negotiation sessions concerning the proposed contract action.
6. Prepare and have final approval of the environmental compliance documentation.
7. Draft the necessary documents for contract related actions.
8. Perform any other activity, or activities, that pertain to the purpose of this MOU.

The City's responsibilities will include the following:

1. Designate a point of contact(s) for all matters relating to the work activities described herein.
2. Participate in discussion with Reclamation related to the work activities described herein.
3. Provide information and documentation requested by Reclamation for the internal documentation and analysis.
4. Provide funds to Reclamation for work to be performed by Reclamation as described in this MOU.
5. Participate in technical and/or negotiation sessions concerning the proposed contract actions.

Common Responsibilities include:

1. Attend meetings as necessary.
2. Develop a schedule to accomplish the tasks identified in this MOU. The parties acknowledge and understand that the schedule developed is a target or a goal and that there are many influences outside the control of the signatories of the parties that could affect progress. The parties will work to resolve any issues that could delay the process and will meet periodically to update and revise the schedule as needed.

IV. FEDERAL FUNDING

There is no federal funding associated with the work covered by this MOU.

V. NON-FEDERAL FUNDING

The City will advance funds to Reclamation for the work associated with this MOU.

VI. ADVANCEMENT OF FUNDS

The City shall pay Reclamation for all its costs incurred as a result of activities performed through this MOU. In accordance with Anti-Deficiency Act (31 U.S.C. 1341 et seq.), funds must be provided to Reclamation in advance of activities performed by Reclamation personnel. The City shall advance to Reclamation its share of the funds necessary to accommodate Reclamation's expenditures for the work defined in section II, above. Payment of the City's share can be made in one lump sum, in partial payments prior to work being performed, or other methods as best conforms to the City's budgetary processes and fiscal year, as long as funds are received in advance of activities performed by Reclamation personnel.

Reclamation requests an initial payment of \$15,000.00 to begin performance of work under this MOU. This amount represents only an initial advance funding request, based on Reclamation's best estimate of costs at this time. It is understood that the estimated costs are preliminary and the actual cost may be more or less than estimated. A minimum balance of \$1,000.00 will be maintained in the MOU account to ensure a positive account balance. Whenever the balance falls below the minimum, Reclamation shall notify the City of the need for additional funds and the City shall promptly submit an additional advance. If the City fails to provide additional funds as requested, Reclamation will cease additional work until the additional funds are collected.

Any funds that have been advanced and not used shall be returned to the City without interest within 120 days of the completion of the work under this MOU or termination of the MOU.

SUBJECT: Authorizing a Sole Source Contract for Professional Services with Recykling Industrial Repairs, Inc., in an amount not to exceed \$270,116 for the Baler Extension of Ejection Ram System Project.

Meeting Type & Date
Regular Council Meeting
July 2, 2019

Action Type
Resolution

Recommendation:

That Council, by resolution, authorize a Professional Services Contract with Recykling Industrial Repairs, Inc. (RIR), in an amount not to exceed \$270,116, for Baler Extension of Ejection Ram System, Project No. 19-020.

Summary

Since replacing the balers in 2010, the City has raised safety issues with the operation of ejection rams on the balers in conjunction with the bagging system. The City balers are designed to operate with enough garbage in the ejection chamber to create two (2) bagged bales of garbage. When the ejection ram activates, one bale of garbage is ejected from the end of the chamber where it is bagged and received on a bagging conveyor. The garbage that remains serves as a spacer between the extended ejection ram and the end of the baler chamber.

The remaining garbage will be bagged after the next compaction cycle; however, at the end of a work shift the remaining garbage in the chamber must be removed to evacuate all garbage from the baler to prevent fires and maintain the baler in good working condition. The ejection ram length is not long enough to push the remaining garbage out; therefore, to remove the remaining garbage out of the baler at the end of the shift, an employee must enter the bale chamber, place a landscape timber or tires in the chamber to provide the additional space to eject the garbage onto the bagging conveyor. Prior to having the bagging system at the end of the ejection chamber, the garbage at the end of the day was dug out.

Employees entering the baler chamber is extremely dangerous and requires a lockout/tagout procedure where the baler is de-energized and the power to the baler is turned off, locked and tagged out. Because there is potential for human error and the consequence of making a lockout/tagout error is deadly, staff would like to eliminate the need for an employee to enter the ejection chamber.

To eliminate the need for an employee to enter the ejection chamber, the ejection ram needs to be long enough to eject the remaining garbage at the end of the day from the ejection chamber onto the bagging conveyor. To extend the ejection rams, a baler maintenance specialist is needed who is familiar with the City's balers, to acquire new ejection cylinders meeting current proprietary cylinder specifications and to modify the ejection chambers (referred to as Baler Ejector Platen).

Recykling Industrial Repairs, Inc. (RIR) are the only baler maintenance specialists familiar with the City's waste balers and who have an exclusive agreement with the proprietary cylinder manufacture; therefore, City Staff recommends awarding a sole source professional service contract to RIR.

Financial Considerations

Project funding is from Balefill Fund Reserves and included in the Balefill FY19 budget.

CONTRACT FOR PROFESSIONAL SERVICES

PART I - AGREEMENT

This Contract for Professional Services ("Contract") is entered into on this 2nd day of July, 2019, by and between the following parties:

1. The City of Casper, Wyoming, a Wyoming municipal corporation, 200 North David Street, Casper, Wyoming 82601 ("City").
2. Recykling Industrial Repairs, 50 W. Railroad Street, Milan, Georgia 31060 ("Contractor").

Throughout this document, the City and the Contractor may be collectively referred to as the "parties."

RECITALS

- A. The City is undertaking a project to extend the baler ejection rams.
- B. The project requires professional services for the ejection ram systems on each of the two (2) garbage balers to be modified so bales of garbage will be pushed out of the enviro baler system; Project 19-020.
- C. The Contractor represents that it is ready, willing, and able to provide the professional services to City as required by this Contract.
- D. The City desires to retain the Contractor for such services.

NOW, THEREFORE, in consideration of the covenants and conditions set forth herein to be performed, the parties agree as follows:

1. SCOPE OF SERVICES:

The Contractor shall perform the following services in connection with and respecting the project:

- A. Onsite Job Tasks.

Tasks shall be performed as set forth in Exhibit A.

B. Provide One (1) Year Manufacturer Warrantee on Eject Cylinders

Contractor shall perform cylinder performance testing as described herein (see Section 1. C below, titled "Eject Cylinder Performance Testing"). The City shall record performance parameters and conditions after 60 days of operation for each cylinder as described herein, Section 1.C.

Any failures of a drift test shall be reported to the Contractor within 24 hours of the test, and shall be accompanied by a written report of the circumstances of the claimed test failure. See Exhibit B for details of the one (1) year cylinder manufacturer warrantee.

C. Eject Cylinder Performance Testing

The Contractor and the City agree the eject cylinder performance testing shall be performed as follows:

1. The manufacturer shall provide written results of a cylinder bypass test (drift test) performed at the completion of manufacturing and before shipment. The drift test shall be performed in a manner using best practices for the industry and the drift test shall demonstrate each of the cylinders to be in good operating condition. The testing method used shall be described in the written results (Not just pass/fail). The results shall also contain a statement the cylinders were manufactured specifically for the City and all components were new and not repurposed in any manner.
2. The cylinders, upon arrival at the City Solid Waste Facility, shall be drift tested at Brake Supply, Inc. or another reputable hydraulic shop in the immediate area to further confirm the condition of the cylinders. The drift test shall be performed at a minimum of every six inches of cylinder travel, at 1000 pounds per square inch with oil at normal operating temperature (not cold) and held for no less than one minute. Rod movement during the drift test shall be considered a failure.
3. The cylinder rod end (pin end) shall be monitored by City staff during the drift test for a period of no less than an hour in different positions, and show no rotational movement indicative of a bent rod.
4. Once the cylinders are installed in the ejection system of the balers, the cylinders shall be monitored and data logged to compile a base line data set. The parameters and operating conditions shall be agreed to by the Contractor and City and shall include, at a minimum, the following: (a) Pressure, (b) Cycle time, (c) Consistent load (either pushing the head only or a load of equal weight), (d) Oil temperature, and (e) Identical programming and valve settings.

5. The base line data set shall demonstrate the performance of each new cylinder is performing satisfactorily under normal operating conditions.

6. After 60 hours of operation for each cylinder, the City shall monitor and data log the same parameters under the same conditions of the base line data set. Results will then be compared to the base line data set. Any change in the comparison of the base line data set and the after 60 hours of operation data set that is considered significant by the City shall require removal of the cylinder, and a second drift test to confirm or negate a problem.

D. Provide One (1) Year Contractor Warrantee on Ejector Platen

Contractor shall provide a one (1) year warrantee on the ejector platen to guarantee its performance as intended with no foreseeable issues (see Exhibit C). If the ejector platen fails to perform as intended, Contractor will repair as needed including required programming. It is only valid as a Contractor repair or a Contractor approved repair. The warrantee covers defects in material and faulty workmanship. No collateral damage to other components on the machine are covered. No freight cost or no lost production cost are covered under the warrantee.

E. Execute City Leasing Agreement

Exhibit D, a City leasing agreement shall be signed/executed on the day of arrival into the City of Casper. Contractor shall sign Exhibit D, a City lease, for five (5) Contractor employees to be housed for twenty-eight (28) days.

2. TIME OF PERFORMANCE:

The services of the Contractor shall be undertaken and completed on or before the 8th day of October, 2019.

3. COMPENSATION:

4. METHOD OF PAYMENT:

Payment will be made following completion of the terms set forth herein and receipt of an itemized invoice, certified under penalty of perjury, from the Contractor for services rendered in conformance with the Contract, and following approval by the Casper City

Council. The invoice for payment must specify the correct amount due; that the Contractor has performed the services rendered under this Contract, in conformance with the Contract, and that it is entitled to receive the amount requested under the terms of the Contract and that it is entitled to receive the amount requested under the terms of the Contract (see Exhibit A). Fifty percent (50%) of payment is due prior to arrival onsite in Casper, twenty five percent (25%) of payment after successfully completing drift tests for both eject cylinders in Casper, twenty percent (20%) of payment after one month of successful baling waste, and the remaining five percent (5%) of payment after 60-days of successful baling waste for each cylinder herein described in Section 1.C.

If amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other items or purpose remain unpaid beyond the City's general credit policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this Contract.

5. TERMS AND CONDITIONS:

This Contract is subject to and incorporates the provisions attached hereto as PART II -- GENERAL TERMS AND CONDITIONS.

6. EXTENT OF CONTRACT:

4. *Waiver of Subrogation*

Contractor hereby grants to City a waiver of any right to subrogation which any insurer of said Contractor may acquire against the City by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

5. *Deductibles and Self-Insured Retentions*

Contractor has two options regarding deductibles and self-insured retentions:

- a. *Option 1:* Any deductibles or self-insured retentions must be declared to and approved by the City. Unless otherwise approved by the City in writing, any deductible may not exceed Ten Thousand Dollars (\$10,000). Unless otherwise approved in writing by the City, self-insured retentions may not exceed Ten Thousand Dollars (\$10,000), and the City may require the Contractor to provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention.
- b. *Option 2:* Contractor shall carry insurance with terms that require its insurance company to pay the full value of a covered claim from the first dollar of coverage, even if the Contractor is unable to pay any deductible or self-insured retention amount(s) required by the insurance policy. - c. If coverage is canceled or non-renewed, and not *replaced with another claims-made policy form with a Retroactive Date* prior to the contract effective date, the Contractor must purchase "extended reporting"

coverage for a minimum of *three (3)* years after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Contractor shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subcontractors*

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that the City is an additional insured on insurance required from subcontractors.

10. *Special Risks or Circumstances*

City reserves the right to reasonably modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

E. Contractor agrees to indemnify the City, the City's employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Contractor and any subcontractor thereof.

Contractor represents that it has read and agrees to the terms of this Contract and further agrees that it is the intent of the parties that Contractor shall perform all of the services for the compensation set forth in this Contract. Contractor also agrees that it is the specific intent of the parties, and a material condition of this Contract, that it shall not be entitled to compensation for other services rendered unless specifically authorized by the City by Resolution of its governing body. Contractor agrees that it has carefully examined the Scope of Services, and that the compensation is adequate for performance of this Contract.

13. WYOMING GOVERNMENTAL CLAIMS ACT:

The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

The City of Casper, hereinafter referred to as Owner, hereby acknowledges receipt from, Mike Crumley, owner of Recykling Industrial Repairs, Inc. (RIR), hereinafter referred to as Tenant, the sum of Five Hundred Dollars (\$500.00) as damage, cleaning, and security deposit.

Tenant offers to rent from the Owner five (5) rooms of the Miller Street Dormitory, which is situated in the City of Casper, County of Natrona, State of Wyoming, at 4131 Miller Street. The amount of the first rental period for this Agreement will be Two Thousand Five Hundred Dollars (\$2,500.00) for a 28 day period for five (5) rooms, Five Hundred Dollars (\$500.00) per person.

1. **OWNER'S AGENT:** For the purposes of this Agreement, the Owner's Agent will be the Finance Director of the City of Casper, unless otherwise stated.
2. **TERM:** Tenancy will be on a month-to-month basis. Tenancy will begin on the move-in date as agreed to. Tenancy will end on the move-out date, which will be established as per Section 26 of this contract, which is titled "MOVE-OUT DATE".
3. **PRORATED RENT:** If the move-in date occurs on any date other than the first day of the month, then the first rental payment will be prorated to a proportion of the rent that is equal to the proportion of the month remaining after the move-in date. If the move-out date occurs on any date other than the last day of the month, then the last rental payment will be prorated to a proportion of the rent that is equal to the proportion of the month prior to the move-out date.
4. **RENT:** The first rent payment shall be due on the move-in date.
5. **PLACE OF PAYMENT:** Rent will be delivered, either in person or by mail, to the Customer Service Desk in the City Hall Building, City of Casper, at 200 North David Street, Casper, Wyoming, 82601.
6. **LATE PAYMENT:** In the event rent is not paid within five (5) days after the due date, Tenant agrees to pay a late charge of Twenty-Five Dollars (\$25.00). Tenant further agrees to pay Twenty-Five Dollars (\$25.00) for each dishonored bank check. The later charge period is not a grace period and Owner is entitled to make written demand for any rent if not paid when due (see Section 21. "DEFAULT"). Any unpaid balance, including late charges, will bear interest at ten percent (10%) per annum, or the maximum rate allowed by law, whichever is less.
7. **SINGLE OCCUPANCY:** It is expressly understood that this Agreement is between the Owner and each signatory jointly and severally. Each signatory will be responsible for timely payment of rent and performance of all other provisions of this Agreement.
8. **UTILITIES:** For Dormitory style units that consist of private sleeping areas but shared restroom and cooking facilities, the Owner will pay utility bills for natural gas, electric, sanitation, water service, and sewer service associated with the property.
9. **USE:** Each room of the Miller Street Dormitory will be used exclusively as a residence for

no more than one (1) person. Guests staying more than a total of seven (7) days in a month without written consent of Owner will constitute a violation of this Agreement.

10. **ANIMALS AND SMOKING:** No animals will be brought on the premises without the prior consent of the Owner, which will be in writing in an addendum to this lease and an additional deposit may be required. Smoking is not allowed on the premises or within ten (10) feet of any door to the premise at any time. If it is apparent that smoking occurred during tenancy, the cost of cleaning will be deducted from the deposit.
11. **HOUSE RULES:** Tenant agrees to abide by all house rules, whether adopted before or after the date of this Agreement, including rules with respect to noise, odors, disposal of refuse, animals, parking, and use of common areas.
12. **ORDINANCES AND STATUTES:** Tenant will comply with all statutes, ordinances, and requirements of all municipal, state and federal authorities now in force, or which may later be in force, regarding the use of the premises.
13. **ASSIGNMENT AND SUBLETTING:** Tenant will not assign this Agreement or sublet any portion of the premises.
14. **MAINTENANCE, REPAIRS OR ALTERATIONS:** Tenant acknowledges that the premises are in good order and repair, unless otherwise indicated. Tenant will, at his/her own expense, maintain the premises in a clean and sanitary manner and will surrender the same, at termination, in as good condition as received, normal wear and tear expected. Tenant will be responsible for damages caused by his/her negligence and that of his/her family, invitees, and guests. Tenant will not paint, paper or otherwise redecorate or make alterations to the premises without prior written consent of the Owner. Tenant will not commit any waste upon the premises, or any nuisance or act which may disturb the quiet enjoyment of any Tenant in the building. Owner will be responsible for the cost of any retrofitting required by government agencies.
15. **INVENTORY:** Any furnishings and/or equipment to be furnished by Owner will be listed in a special inventory. The inventory will be signed by both Tenant and Owner concurrently with this Lease. Tenant will keep the furnishings and equipment in good condition and repair, and will be responsible for any damage to them other than normal wear and tear.
16. **DAMAGES TO PREMISES:** If the premises are damaged by fire or from any other cause which renders the premises untenable, either party will have the right to terminate this Agreement as of the date on which the damage occurs. Written notice of termination will be given to the other party within fifteen (15) days after occurrence of such damage. Should such damage or destruction occur as the result of the negligence of Tenant, or his/her invitees, then only the Owner will have the right to terminate. Should this right be exercised by either Owner or Tenant, then rent for the current month will be prorated between the parties as of the date the damage occurred. Any prepaid rent and unused security deposit will be refunded to Tenant. If this Agreement is not terminated, the Owner will promptly repair the premises and there will be a proportionate reduction of rent until the premises are repaired and ready for Tenant's occupancy. The proportionate reduction will be based on the time during which the repairs prevent Tenant's reasonable use of the premises.
17. **TERMINATION:** Owner reserves the right to immediately terminate this Agreement if Tenant or his/her invitees, in the judgment of the Owner, damages the property or its contents or violates any rule, regulation, ordinance, or statute relating to his or her use of the premises. Tenant agrees to peacefully surrender occupancy of the premises, and

remove personal belongings.

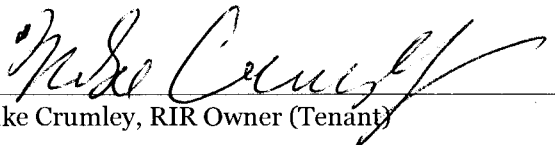

18. **ENTRY AND INSPECTION:** Owner will have the right to enter the premises at any time.
19. **INDEMNIFICATION:** Owner will not be liable for any damage or injury to Tenant, or any other person, or to any property, occurring on the premises, or in common areas. Tenant agrees to hold Owner harmless from any claims for damages, no matter how caused. It is understood that Owner's insurance does not cover Tenant's personal property or improvements.
20. **PHYSICAL POSSESSION:** If Owner is unable to deliver possession of the premises at the commencement date set forth above, Owner will not be liable for any damage caused, nor will this Agreement be voidable; but, Tenant will not be liable for any rent until possession is delivered. Tenant may terminate this Agreement if possession is not delivered within (five) 5 days of the established move-in date.
21. **DEFAULT:** If Tenant fails to pay rent when due, or perform any provision of this Agreement, after not less than three (3) days written notice of such default given in the manner required by law, the Owner, at his/her option, may terminate all rights of Tenant unless Tenant, within said time, cures such default. If Tenant abandons or vacates the property while in default of the payment of rent, Owner may consider any property left on premises to be abandoned and may dispose of the same in any manner allowed by law. In the event the Owner reasonably believes that such abandoned property has no value, it may be discarded. All property on the premises will be subject to a lien for the benefit of Owner securing the payment of all sums due, to the maximum extent allowed by law. Owner likewise reserves the right to seek a legal judgment to garnish Tenant's wages in order to cure the default.

In the event of a default by Tenant, Owner may elect to: (a) continue to lease in effect and enforce all its rights and remedies, including the right to recover the rent as it becomes due, or (b) at any time, terminate all of Tenant's rights and recover from Tenant all damages Owner may incur by reason of the breach of the lease, including the cost of recovering the premises, and including the rental payments due for the original duration of the lease.

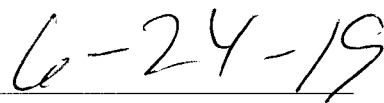

22. **SECURITY:** The \$500 cleaning, damage and security deposit will secure the performance of Tenant's obligations. Owner may, but will not be obligated to, apply all portions of said deposit on account of Tenant's obligations. Any balance remaining upon termination will be returned to Tenant as described in section 23, DEPOSIT REFUNDS. Tenant will not have the right to apply the security deposit to the payment of the last month's rent. Security deposit will be held by the City of Casper, Support Services Department.
23. **DEPOSIT REFUNDS:** The balance of all deposits will be refunded within thirty (30) days (or as otherwise required by law), from the move out date, together with a statement showing any charges made against such deposits.
24. **WAIVER:** Failure of Owner to enforce any provision of this Agreement will not be deemed a waiver. The acceptance of rent by Owner will not waive his/her right to enforce any provision of this Agreement.
25. **NOTICES:** Unless otherwise provided, any notice which either party may give or is required to give, may be given personally or by mailing the same, postage prepaid, to Tenant at the premises, to Owner at the address shown in the signature block, or at such

other places as may be designated in writing and attached hereto by the parties from time to time. Notice will be deemed effective five (5) days after mailing, or on personal delivery.

26. **MOVE-OUT DATE:** Unless otherwise terminated, the rental will end on a move-out date that is selected by the Tenant.
27. **TIME:** Time is of the essence of this Agreement.
28. **ATTORNEY'S FEES:** In any action or proceeding involving a dispute between Owner and Tenant arising out of this Agreement, each party shall be responsible for their own legal costs, fees, and expenses.
29. **FAIR HOUSING:** Owner and Tenant understand that the state and federal housing laws prohibit discrimination in the sale, rental, appraisal, financing or advertising of housing on the basis of race, religion, color, sex, family status, sexual preference, handicap, or national origin.
30. **CITY EMPLOYEE HOUSING POLICY:** By accepting this Agreement, the Tenant also acknowledges that they have read and will abide by all of the provisions in the City of Casper Employee Housing Policy (see Attachment "A").
31. **INSURANCE:** The Owner has insurance on the property, but not on the Tenant's possessions. Tenants are aware that they should make arrangement for insurance on their personal property.
32. **GOVERNMENTAL CLAIMS ACT:** The Owner does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statute Sections 1-39-101, *et seq.* The City specifically reserves the right to assert any and all immunities, rights and defenses it may have pursuant to the Wyoming Governmental Claims Act.
33. **ENTIRE AGREEMENT:** The foregoing constitutes the entire Agreement between parties and may be modified only in writing signed by all parties.

City of Casper Miller Dormitory Housing Policy

I) Intent of this Program

It is understood there is a lack of affordable temporary housing within the City of Casper, and this has impacted the City's cost to house out-of-town City contractors. For that reason, the City hereby enacts this program for the purpose of facilitating reduced contractor housing costs by providing adequate short term housing for its current and potential contractors.

II) Tenant Application and Selection

- 1)** Housing is not guaranteed. The City's stock of dormitory style housing is extremely limited, and it is expected that housing will not be available for all qualified applicants.
- 2)** New City contractors who began work within the last thirty (30) days and incoming contractors who have not yet started working, but who have signed a City contract, will be eligible to file an application for the Miller Dormitory. The term "contractor" includes employees of a City contracted organization, as the terms are defined by the City of Casper Finance Services Department.
- 3)** Prospective tenants must submit a **Tenancy Application** to the Finance Services Director. Forms for the Tenancy Application will be available on the City's website and at the Finance Division office in City Hall. The Tenancy Application will include such information as the tenant's name, position, and current housing situation.
- 4)** When housing units become available, qualifying City employees will receive preference over City contractors. Housing units will be offered to qualifying contractors on a first come, first served basis.
- 5)** The contractor will be required to sign a Rental Agreement before moving into a City-owned housing facility.

III) Rent

- 1)** Rent at the **Miller Street Dormitory** will be set at upon approval of eligibility or within a City contract.
- 2)** Rent is due on the first day of the month. If the tenant begins their residency in the building on a day other than the first of the month, then the first month's rent will be prorated and will be due on the first day of residency. A partial month of less than 15 nights will not be counted for the purposes of escalating the rent.
- 3)** Rent will be payable at the Municipal Utility Customer Service Desk of the City Hall Building at 200 North David Street, Casper, Wyoming.
 - A)** Failure to pay rent on time may incur late charges, interest charges, and/or eviction as per the rental Agreement.
- 4)** If the tenant's last day of tenancy does not occur on the last day of the month, then a refund for the last month's rent will be issued to the tenant on a prorated basis. The refund, if any, will be sent to the contractor within thirty (30) days of their move-out date.
- 5)** All rent collected will be deposited in the City's Housing Account. The City Housing Account will be used to pay for routine expenses associated with the Housing Program.

v) Utilities

- 1)** For Dormitory style units that consist of private sleeping areas but shared restroom and cooking facilities, the city will pay utility bills for natural gas, electric, sanitation, water service, and sewer service associated with the property.
- 2)** The City's utility expenses will be paid from the City Housing Account.

V) Security Deposit

- 1) Security deposits will vary depending on the residential unit.
 - A) Residents at the Miller Street Dormitory will be required to pay a \$500 security deposit on or before their move-in date.
- 2) Security deposits will be used for repairs and replacements at the residence that can be attributable to misuse. Residents will not be responsible for damages that occur through normal wear and tear.
- 3) If damages occur to the facility as a result of misuse, the Buildings and Structures Superintendent will attempt to determine which individual tenant was responsible for the damage. If a single responsible tenant can be identified, to a reasonable degree of certainty, as the responsible party, then the damages will be deducted from that tenant's security deposit. If the damages cannot be clearly attributed to one particular tenant, then the security deposit from each of that facility's residents will be drawn upon equally to cover the damages.
- 4) Any remaining balance of the security deposit will be refunded to the Tenant within thirty (30) days of their move-out date.
- 5) In the event that one or several tenants negligently or deliberately caused damages in excess of the security deposit(s), the city reserves the right to take legal action in order to recover the unmet balance.

VI) Resident Responsibilities

- 1) In order to best promote housing units as a safe and pleasant place to live, Tenants will be responsible for keeping their units **clean and orderly**. This includes both private and common areas.
 - A) The city will have the right to perform **inspections** of the housing facility upon twenty-four (24) hours' notice prior to the inspection. Inspections can be made of both private and public areas of the facility.
 - B) Inspections may also be conducted without notice upon verbal permission of the Tenant. For common areas, permission from any tenant of the facility will be sufficient to allow inspection access to the facility. For private areas, only the Tenant who resides in that private area will be allowed to grant permission for an inspection without prior notice.

- c)** The city may enter the facility, including both private and public areas, without permission in the event of an emergency situation or to make necessary repairs.
- 1) Single Occupancy:** The Miller Street Dormitory can provide housing for up to five (5) contractor personnel simultaneously. Each resident will be allowed one private room and rights to share the public areas of the dormitory. Multiple occupants residing in one room will not be allowed without prior written approval from the City Manager or his or her designee.
- 2)** The City will not be liable for any damaged or missing personal items kept in any of the city-owned Housing facilities. Tenants are encouraged to purchase a renter's insurance policy.
- 3)** Tenants will not paint or alter their residence without the express written permission of the Buildings and Structures Superintendent. Up to six nails (or hangars of similar size) may be used in the Tenant's private room for the purposes of hanging pictures or decorations.
- 4) Complaints Against Other Tenants:** All tenants are strongly encouraged to work out their own disputes with their co-tenants. As co-tenants and co-workers, it is expected that the persons living in City housing will demonstrate the mutual respect and communication skills necessary to resolve their own disputes.
- 5) Tenants who fail to meet their responsibilities** as detailed in this document and the housing Agreement may be subject to eviction.

VII) Maintenance and Repairs

- 1)** Repairs will generally be conducted by Buildings and Structures employees (Admin Services Dept.) or by a private contractor that has been retained for this duty. Repairs and maintenance to these residential facilities will be conducted expeditiously so as to minimize the inconvenience of the tenants.
 - A)** Repair and maintenance expenses will be paid for from the City Housing Account.
- 2)** Buildings and Structures will supply facilities with basic maintenance items such as snow salts, shovels, brooms, cleaning products, and other items as deemed necessary for that facility. These items and supplies will be purchased with funds from the City Housing Account.

VIII) Termination of Agreement

- 1)** Tenants who wish to move out of City owned housing may do so upon two (2) days written notice.
- 2)** On or about the last day of residency, the Building and Structures Superintendent (or his/her designee), will inspect the premises to check for damages, to ensure that all personal items have been removed, and to verify that the Tenant's private residential areas have been thoroughly cleaned. Costs for additional cleaning, for storage of personal items, repairs and/or replacements will be charged against the damage deposit.
- 3)** If a residential facility is damaged by fire or from any other cause which renders the premises untenable, either the City Manager or the tenant will have the right to terminate this Agreement as of the date on which the damage occurs. Written notice of termination will be given to the other party within fifteen (15) days after the occurrence of such damage.
- 4) Termination of City Employment:** Upon termination of contractor's contract with the City, tenant will have two (2) days to vacate the property. Rules regarding damage deposit refunds and the last month's rent will be in effect as normal.

Recommendation

That Council, by resolution, authorize the submission of an Application for a Transportation Alternatives Program (TAP) Grant from the Wyoming Department of Transportation (WYDOT), in the amount of \$210,364.00, to fund the construction of the Midwest Avenue Bike Lane and Pedestrian Development.

Summary

The City of Casper is currently designing and constructing the multi-phase Midwest Avenue Reconstruction Project. As a part of this project, the City of Casper is preparing a WYDOT TAP grant application to complete a separated bike lane, new sidewalks, and ADA upgrades. The TAP program is a source of federal funding that provides monies to state and local governments for transportation projects. The program emphasizes projects that support walkability and pedestrian safety. TAP grants require a 20% local match.

The project will include construction a new separated bike lane along the southern side of Midwest Avenue between South Oak Street and South Walnut Street. Additionally, new ten foot (10') wide concrete sidewalks and upgrades to the ADA facilities will be constructed along Midwest Avenue between South Elm Street and South Walnut Street. The project will provide a safe route for non-drivers to access the downtown area and the business districts of central Casper.

Financial Considerations

The total budget for the project is \$262,955.00. \$210,364.00 is expected to come from the TAP grant. The City will be supplying its match in the amount of \$52,591.00 from the budgeted Capital Fund Reserves, One Cent #14 Optional Sales Tax Fund, and One Cent #15 Optional Sales Tax Fund.

Brief Project Summary:

Outline the need for the project and the benefits of the project:

The proposed project is a small portion of the much larger Midwest Avenue Reconstructon project, which is being constructed in three phases. The larger project includes upgrading public infrastructure, resurfacing of Midwest Avenue, installation of streetscaping, installation of pedestrian and roadway lighting, and upgrading of pedestrian and bicycle facilites including ADA upgrades. Phase I, which is from South David Street to South Elm Street, is currently under construction. The proposed project will be a part of Phase II, and will improve walkability and bicycle access to the business districts in central Casper by constructing new 10-foot wide concrete sidewalks and ADA upgrades on both sides of Midwest Avenue, and constructing a new separated bike lane on the south side of Midwest Avenue. The project will create a safe, comfortable experience within the district and the downtown area and provide connectivity to the City's Rails to Trails system within downtown Casper. Additionally, it will provide a safe route for non-drivers to access the new State Office Building hosting the Department of Workforce Services, Department of Family Services, Department of Health, and several other social service agencies of the State of Wyoming.

Has the organization as a whole (Re: Personnel) remained unchanged during the previous year? Yes No

Has the accounting/financial system remained the same as last year? Yes No

If No, explain: The City of Casper has converted from the Gemstone accounting/financial system to the Tyler Munis accounting/financial system.

Does your entity receive federal grant money **directly** from any federal awarding agencies (FTA, FHWA, NHTSA, etc.)? These monies do not have any WYDOT involvement for applications, payments, etc. [2 CFR 200.331(a)(6)(4)]. Yes No

Has a federal agency monitored, inquired or been directly involved in outstanding award(s)? Yes No

Has a federal agency ever performed a review or audit of outstanding award(s)? Yes No

If Yes, did the federal agency determine that there were no financial or compliance issues? Yes No

If No, provide a description of the financial and/or compliance issues as detailed by the federal agency: A single audit finding stated that one employee who performs activities under the grant also works on activities which are not related to the Federal award. A time log was maintained by this employee; however, 100% of the employee's time was inadvertently charged by the payroll system to this federal award. The City of Casper's corrective action is to educate MPO staff on the procedures for personnel cost allocation between grant funded and non-grant funded lines. The City communicated with the federal funding authority to ensure that the the previous overpayments have been dealt with appropriately so that the grant can be brought back into compliance. The City will institute ongoing monitoring to ensure continued compliance with grant regulations.

The Wyoming Department of Transportation's Internal Review agreed with the City's audit response and no further information was requested in a letter to Pete Meyers, Assistant Financial Services Director, dated August 9, 2017.

Attachment K: Consultant Services Policy

Updated 09-20-17

CONSULTANT SERVICES POLICY

City of Casper
June 13, 2019

SECTION I. INTRODUCTION

This policy establishes procedures of the City of Casper for the procurement, management, and administration of consultant services required for a project using federal or non-federal funds obtained through the Wyoming Department of Transportation (WYDOT). This policy and procedures will be followed when hiring consultants to supplement the City of Casper personnel or to provide other professional services that the City of Casper determines can be best completed by qualified private-sector firms.

Consultant, as used in this document, means engineering firms, architectural firms, survey firms, educational institutions, and other firms or individuals engaged in providing consulting or other professional services. *Subconsultant*, as used in this document, means an individual or firm contracted by the consultant to provide related services.

Simplified Acquisition Threshold (SAT), as used in this document, means the dollar amount at or below which a government entity may purchase services using small agreement/purchase methods. The SAT is currently \$150,000, but this threshold is periodically adjusted for inflation. (48 CFR 2.101)

Architectural and Engineering (A & E) services are defined to mean:

1. Professional services of an architectural or engineering nature, as defined by state statute, which are required to or may logically or justifiably be performed or approved by a person licensed, registered, or certified to provide related services.
2. Professional services of an architectural or engineering nature, performed by consultant agreement, and associated with research, planning, development, design, construction, alteration, or repair of real property.
3. Professional services of an architectural or engineering nature, which a firm or individual within the engineering or architectural professions would perform, such as studies, investigations, survey and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.

Architectural and Engineering services that directly lead to development of a construction project are defined and limited to:

1. Preparation of roadway/bridge contract documents including preliminary through final design, contract plans, specifications, and incorporated engineering drawings, details, and estimates.
2. Completion of surveys and mapping necessary for preparation of roadway/bridge contract documents.
3. Completion of architectural services directly leading to facility construction.
4. Completion of feasibility studies when used for project planning leading to project construction.
5. Construction project management including contract administration and construction engineering.
6. Completion of consultant services not clearly within (1) thru (5) above, which must be performed or approved in accordance with state law by a registered professional (i.e. engineer, land surveyor, architect, geologist, etc.).
7. The final cost of these services, including the original agreement cost and subsequent agreement modifications, must exceed the SAT.

SECTION II. CONSULTANT PROCUREMENT – GENERAL

Two methods for procuring consultant services are available for use depending on administrative controls which consider the estimated cost of the proposed services.

Consultant services with an estimated cost at or less than the SAT (Small Agreement) will be procured using a simplified procurement process presented in SECTION IV(A) – Small Agreement – Estimated Cost at or less than the SAT.

Consultant services with an estimated cost exceeding the SAT (Large Agreement) will be procured using a formal request for proposal (RFP) process as presented in SECTION IV(B) – Large Agreement – Cost greater than the SAT.

SECTION III. CONSULTANT NEED AND OTHER SUPPORTING INFORMATION

The City of Casper will develop supporting information to establish the need for consultant services and identify the procurement method, selecting one of the procurement methods outlined in SECTION IV – CONSULTANT PROCUREMENT PROCESSES. Supporting information should be tailored to the procurement method and include the following:

A. Small Agreement – Estimated Cost at or less than the SAT

Small agreements, developed consistent with SECTION IV(A) – Small Agreement – Estimated Cost at or less than the SAT, should include the following supporting information:

1. A statement supporting the use of a consultant to perform work due to unique capabilities not readily available within the City of Casper or that City of Casper personnel are not available to complete the necessary work or meet proposed schedules.
2. A preliminary scope of work for the proposed services.
3. A schedule for completion of work to be performed by the consultant.
4. A funding source for the required consultant services.
5. A preliminary cost estimate.
6. The agreement type to be used as the basis of compensation (See SECTION VI – AGREEMENT TYPE, BASIS FOR COMPENSATION, PAYMENT).

B. Large Agreement – Cost greater than the SAT

Large agreements, developed consistent with SECTION IV(B) – Large Agreement – Cost greater than the SAT, require that consultant services be procured through a request for proposal. The supporting information for these services should include the following:

1. A statement supporting the use of a consultant to perform work due to unique capabilities not readily available within the City of Casper or that City of Casper personnel are not available to complete the necessary work or meet proposed schedules.
2. A preliminary scope of work for the proposed services.
3. A schedule for completion of work to be performed by the consultant.
4. A funding source for the required consultant services.
5. A preliminary cost estimate. See SECTION IV(B) – Large Agreement – Cost greater than the SAT.
6. The agreement type to be used as the basis of compensation (See SECTION VI – AGREEMENT TYPE, BASIS FOR COMPENSATION, PAYMENT).

7. Consultant selection by the selection committee. Selection committee members should be identified by name and title.
8. A listing of evaluation factors and weighting factors for the ranking and selection of a qualified consultant firm. The use of evaluation factors and weighting factors should be tailored to the procurement process; the number of evaluation factors can be limited and the use of weighting factors can be limited or eliminated. The selected factors should assess the consultant's qualifications and competency, tailored to the proposed type/scope of work and any anticipated work types. Evaluation factors **may** consider:
 - a. Established expertise;
 - b. Related work experience in a responsible role;
 - c. Qualifications of the firm's personnel;
 - d. Previous performance on City of Casper projects;
 - e. Project understanding/knowledge, including proposed approach to completing project work;
 - f. Workload capacity;
 - g. Ability to meet project schedule;
 - h. Specialized expertise or product delivery requirements (such as computer hardware or software);
 - i. Other evaluation factors relating to the specific project may be used.

Evaluation factors that cannot be used on federal funded A & E services include:

- a. Cost components – consultant fee proposal, direct salaries/wages, other direct costs, or indirect cost rates;
- b. In-state or local preferences.

Cost, as one evaluation factor, may be used on federal funded non-A & E services.

The selection committee should note that two specific non-qualification-based evaluation factors may be used, if appropriate, but together cannot exceed 10% of the total weighted evaluation. These two factors, directed to an individual proposed project, are:

- a. A local presence, where that presence will add value to the quality or efficiency of project delivery, but will still allow for the consideration of a sufficient number of qualified firms;
- b. The participation of qualified and WYDOT-certified Disadvantaged Business Enterprise (DBE) consultants or subconsultants. The City of Casper should coordinate with the WYDOT Civil Rights Office to obtain a current listing of DBE consultants.

The need/use of a consultant firm in a management role for the City of Casper will require approval by WYDOT and FHWA before consultant solicitation. (23 CFR 172.7(b)(5))

SECTION IV. CONSULTANT PROCUREMENT PROCESSES

Two methods for procuring consultant services are available for the City of Casper use. The use of each method is limited depending on the estimated cost of the proposed services; these administrative controls are presented as an introductory paragraph to each procurement method/agreement type.

A. Small Agreement – Estimated Cost at or less than the SAT

The use by the City of Casper of a small agreement is limited to consultant services with an estimated cost at or less than the SAT, including the original agreement cost and subsequent agreement modifications. Small agreements can be used for non-federal and federal funded services, and for A & E and non-A & E services.

A preliminary cost estimate will be prepared for use as required in SECTION VIII – NEGOTIATING THE FINAL AGREEMENT AND COST PROPOSAL.

The City of Casper will make an informal consultant selection utilizing a consultant list obtained from WYDOT Engineering Services or a list generated by the City of Casper. A minimum of three consultants must be evaluated leading to a qualification-based selection. The evaluation should use information available from the consultant's Statement of Interest, and if needed, that information can be supplemented with interviews, or written or oral discussion with each firm.

If less than three qualified consultants are available, the City of Casper will proceed with evaluation and selection when assured that the selected consultant has the minimum qualifications to complete the agreement type of services and has the experience necessary to satisfactorily perform the required services.

The basis for selection will be documented. The following items should always remain under consideration to conclude that a consultant firm has the minimum qualifications to complete the proposed project scope of work:

1. The consultant shall have an exemplary ethical and professional reputation.

2. The consultant's employees shall have levels of education, training, and experience necessary to perform the required services satisfactorily.
3. Professional services provided to the City of Casper require that the consultant employee overseeing the work and the consulting firm be licensed, if required by the applicable State Board.
4. The consultant shall be established in the area of expertise for which the firm is being considered, with recent work experience in a responsible role.

After the consultant selection, the City of Casper shall follow procedures outlined in SECTION V – APPROVAL OF CONSULTANT prior to proceeding with the process of negotiating the agreement with the selected consultant.

A detailed scope of work shall be prepared, often by the selected consultant. The consultant shall submit a fee proposal including proposed billing rates, estimated units of work, and the total proposed fee. The City of Casper will negotiate and prepare an agreement for execution.

Execution of the agreement will follow procedures outlined in SECTION X – EXECUTION OF THE AGREEMENT.

B. Large Agreement – Cost greater than the SAT

The use by the City of Casper of a large agreement is required for consultant services with an estimated cost greater than the SAT, including the original agreement cost and subsequent agreement modifications. Large agreements can be used for non-federal and federal funded services, and for A & E and non-A & E services.

When the City of Casper requires consultant services and proposes to use this large agreement, the following requirements apply.

A preliminary cost estimate will be prepared for use as required in SECTION VIII – NEGOTIATING THE FINAL AGREEMENT AND COST PROPOSAL. For architectural and engineering services directly leading to construction, as defined in SECTION I – INTRODUCTION, the cost estimate must establish major elements of agreement costs: labor hours by work type and classifications of labor, direct salaries by labor classifications, other direct costs, anticipated indirect cost rates, and anticipated fixed fees (profit). This estimate will be used as the basis for negotiation. For all other services, the preliminary cost estimate can be less formal.

The City of Casper will direct the procurement process in coordination with the WYDOT Local Government Office and an appointed selection committee.

An early action will be to appoint participants to a selection committee. The committee should consist of at least three members, but generally not more than five members. The City of Casper should select committee members who can best evaluate consultant qualifications, but without previous experiences that could potentially influence their actions leading to a conflict of interest. Each committee member will ensure that he or she has no possible conflict of interest that may influence the evaluation, ranking, and selection process. If a conflict of interest may exist, the committee member will be excused from serving on the committee.

A pre-selection meeting will be conducted to establish the requirements of the RFP and the public announcement/advertisement to be used to assure that consultants have fair opportunity to be considered for award of the agreement.

The City of Casper may solicit project-specific letters of interest through a public announcement, public advertisement, or any other public forum or method (such as soliciting firms on a consultant list obtained from WYDOT Engineering Services) that assures qualified in-State and out-of-State consultants are given a fair opportunity to be considered. A minimum seven day announcement period is required.

The selection committee will determine a short list of firms from the respondents to the public announcement/advertisement to receive the RFP. If enough firms respond, a minimum of five firms should be short-listed.

Alternatively, the City of Casper may go directly to the RFP process and consider all the proposals submitted.

The RFP will include the following requirements and information to provide direction for the content of consultant proposals. The RFP requirements and information will not include any condition that would limit competition and the resulting number of proposals.

1. Detailed scope of work, including a preliminary project purpose and description.
2. Technical requirements: specific services; deliverables; applicable policies and guides; proposed standards, criteria, specifications, or contracting requirements; proposed schedule for completion of agreement work.
3. Evaluation and weighting factors to be used for the ranking and selection based on consultant competency and qualifications.
4. The anticipated schedule leading to consultant selection. The schedule should identify consultant submittal dates using a minimum of 14 calendar days from issuance of the RFP, but set to assure that interested firms have sufficient time to receive the RFP, and prepare and submit a proposal.
5. The type of agreement to be used and the basis for compensation.

6. Address potential discussions with interested firms after submittal of their proposal, if any, directed to clarification of technical requirements or approach, qualifications, or capability. Based on the size and complexity of the project, it may be beneficial to the selection committee to have one-on-one discussions with all or some of the qualified firms (minimum of three). The intent and structure of these discussions, if needed, should be outlined in the RFP.
7. Consultant proposal shall include additional submittals concerning proposed subconsultants.
8. Consultant cost proposals, if requested, should be included in a concealed format that is clearly separate from the technical proposal.

The RFP should provide an adequate number of consultant proposals. When three or more qualified firms respond, the City of Casper will proceed with consultant ranking and selection. If less than three firms respond, the City of Casper may proceed with ranking and selection of a qualified firm or may elect to re-distribute the RFP in an attempt to gain additional proposals. In the event the response to an RFP does not result in either qualified or competitive firms, the City of Casper may pursue other contracting options, including non-competitive, to procure professional services. The City of Casper will coordinate with the WYDOT grant administrator prior to non-competitive selection of a consultant.

After receipt of consultant responses to the RFP, the final selection meeting will be held. The selection process will include a series of actions taken by the City of Casper.

1. Review RFP proposals to assure they are complete.
2. Distribute the supporting information outlined in SECTION III(B) – Large Agreement – Cost greater than the SAT, to include the RFP, all consultant proposals, and each consultant’s Letter of Interest, if applicable.
3. Assist the selection committee, as needed, to complete the evaluation, ranking, and selection process.
4. Notify, subsequent to consultant selection, all consultants responding to an RFP of the final ranking of the three most highly qualified consultants.
5. Properly dispose as necessary, subsequent to consultant selection, the concealed cost proposals of the unsuccessful consultant firms.
6. Retain documentation supporting the solicitation, RFP, proposals, evaluation, and selection of the consultant firm.

The selection committee completes the evaluation and selection process by using the supporting information for each evaluation factor and then developing an overall score and subsequent ranking. The committee must rank in order of preference at least the three most highly qualified firms, leading to final selection. If less than three qualified firms respond to the RFP and it is concluded that the responding firms represent those firms available to meet the requirements of the RFP, the evaluation and selection will be completed.

The selection committee may not use a consultant's cost components – consultant fee proposal, direct salaries, direct costs, and indirect cost rates – as a factor in the evaluation, ranking, or selection process for federal funded A & E services. Federal funded non-A & E services may, or may not, use cost as an evaluation factor.

The following items should always remain under consideration to conclude that a consultant firm has the minimum qualifications to complete the proposed project scope of work:

1. The consultant shall have an exemplary ethical and professional reputation.
2. The consultant's and subconsultant's employees shall have levels of education, training, and experience necessary to perform the required services satisfactorily.
3. Professional services provided to the City of Casper require that the consultant employee overseeing the work and the consulting firm be licensed, if required by the applicable State Board.
4. The consultant shall be established in the area of expertise for which the firm is being considered, with recent work experience in a responsible role.

During this process, an unqualified consultant firm may be dismissed from further consideration.

After the consultant selection, the City of Casper shall follow procedures outlined in SECTION V – APPROVAL OF CONSULTANT prior to proceeding with the process of negotiating the agreement with the selected consultant.

The final scope of work may be refined through negotiations with the selected consultant. The consultant shall submit a fee proposal including proposed billing rates, estimated units of work, and the total proposed fee. The City of Casper will negotiate and prepare an agreement for execution.

Execution of the agreement will follow procedures outlined in SECTION X – EXECUTION OF THE AGREEMENT.

SECTION V. APPROVAL OF CONSULTANT

After the selection committee or the City of Casper authorized representative has completed the procurement process, the City of Casper shall submit, in writing, the selected consultant's name to the WYDOT grant administrator for approval. The WYDOT grant administrator's approval authorizes the process of negotiating the agreement with the selected consultant.

The WYDOT grant administrator will initiate a pre-negotiation audit, if necessary (see SECTION VII – PRE-NEGOTIATION AUDIT EVALUATION).

The City of Casper will maintain a correspondence file for each consultant services agreement documenting all aspects of the selection and approval process.

SECTION VI. AGREEMENT TYPE, BASIS FOR COMPENSATION, PAYMENT

Contractual requirements and the method of payment to direct and compensate the consultant will be established by agreement. An agreement type and basis for compensation will be selected as the need for consultant services is developed, as presented in SECTION III – CONSULTANT NEED AND OTHER SUPPORTING INFORMATION.

- A. Agreement Types.** An agreement type will be selected by the City of Casper.
1. **Project Specific.** This will be used with a defined scope of work and the related consultant services when these services are directed to one or more specific projects.
 2. **Multi-Phase.** This can be used, similar to Project Specific, when the City of Casper determines that a consultant's services should be divided into defined phases to gain better definition of the scope of work and related consultant services. Each phase would require a separate cost estimate.
- B. Basis for Compensation.** The method of payment to compensate the consultant will be specified in the agreement. It may establish a single method for all work or may be better administered with different methods for different elements of work.
1. **Cost Plus Fixed Fee.** Cost reimbursement includes actual costs payable for direct labor and indirect labor (overhead) as established in the agreement, plus direct reimbursable expenses. Cost reimbursement also includes a negotiated fixed fee, established in the agreement, and is calculated to cover the consultant's profit. Billing rates established in the agreement shall be used for all billings and a maximum amount payable will be established.

Cost plus percentage of cost and percentage of construction cost cannot be used as a basis for compensation.

2. **Lump Sum.** May only be used when the scope of work and the duration of work can be accurately established, and an estimate of cost, including fixed fee, can be calculated with reasonable accuracy at the time of negotiation with the selected consultant.
3. **Unit of Work.** May be used when a unit cost of work can be determined in advance with reasonable accuracy, but the extent of work is indefinite. Quantities and characteristics of each unit should be uniform, and a maximum amount payable will be established.
4. **Specific Rates for Compensation.** The specific rates for compensation will provide for reimbursement on the basis of direct labor hours at specified fixed hourly rates, including direct labor costs, indirect costs, and profit, plus any other direct expenses or costs. This method of payment will be used for those types of services and agreements that establish a maximum amount payable and provide the City of Casper direct control of the number of consultant labor hours and resultant cost.

Specific Rates may also be used when a consultant's services are required to perform work that cannot be estimated for extent, duration, or cost.

Consistent with all consultant agreements, a City of Casper representative will monitor the consultant's performance of services to include labor hours, and classification/pay rate of consultant employees used to perform agreement services.

- C. Consultant Payments and Retainage:** Periodic progress payments will be made for work satisfactorily completed based on invoice submittals to the City of Casper.

All agreements shall include provisions that require the consultant to make prompt payment to subconsultants within 30 calendar days from receipt of payment from the City of Casper (49 CFR 26.29). These provisions will advise the consultant to be prepared, if requested, to provide documentation that payment has been made for work satisfactorily completed by a subconsultant. These provisions will also notify the consultant that failure to make prompt payment may be addressed by the City of Casper as presented in the written procedures in ATTACHMENT 2 – BREACH OF AGREEMENT.

The City of Casper may withhold retainage from payments, including final payment, if specified in the agreement.

SECTION VII. PRE-NEGOTIATION AUDIT EVALUATION

Pre-negotiation audits are generally performed on first-time consultants, consultants with outdated audits, or as required by WYDOT Internal Review Services. A risk assessment will be performed by WYDOT Internal Review Services to determine if an audit is required and, if so, the type of

audit required. An audit report or comparable correspondence will be provided by WYDOT Internal Review Services to the City of Casper for use in negotiating the consultant agreement.

SECTION VIII. NEGOTIATING THE FINAL AGREEMENT AND COST PROPOSAL

Approval of the selected consultant in accordance with SECTION V – APPROVAL OF CONSULTANT authorizes the process of negotiating the agreement and cost proposal with the selected consultant.

The City of Casper will work with the consultant to finalize the scope of work, if needed, and initiate negotiations with the consultant for a final cost proposal. A draft agreement, including the scope of work, is provided to the consultant with instructions for preparing the cost proposal. The consultant is advised at the beginning of negotiations that selection is subject to arriving at a satisfactory agreement for terms and fees, and that the City of Casper assumes no obligation to the consultant until the agreement is executed.

The consultant's use of subconsultants is allowed only with written approval from the City of Casper of the proposed subconsultants. The consultant shall describe the work to be done by the subconsultant in the fee proposal, assure incorporation of required agreement provisions into the subconsultant agreement (SECTION IX – AGREEMENT PROVISIONS) and include a cost for the subconsultant's proposed work. The City of Casper may request a detailed proposal for subconsultant work to include proposed labor rates and direct costs. The cost proposal and included rates will be evaluated for reasonableness. If the subconsultant has a WYDOT-approved audit or approved billing rates, those rates shall be used.

A consultant's fee proposal will be compared to the cost estimate done by the City of Casper, including careful attention to proposal details. The consultant's fixed fee (profit) will be negotiated separate from other negotiations.

The consultant's or subconsultant's proposed indirect cost rate shall be certified by each firm's chief executive or financial officer as being allowable in accordance with federal cost principles. Each firm's certification shall read as required by WYDOT Internal Review Services.

A consultant's schedule for completing the work, if different from the schedule proposed by the City of Casper, will be reviewed to assure that the established duration of the agreement permits completing the work in a time frame acceptable to the City of Casper. When the consultant's fee proposal and the duration of the agreement are acceptable, the agreement is finalized and executed.

If the consultant's proposed fee or schedule varies substantially from the estimate or schedule of the City of Casper, the items of variance are identified and discussed to resolution. After agreeing on the agreement terms and fees, the consultant submits a final cost proposal.

The City of Casper will maintain documentation of the negotiation process.

If the selected consultant and the City of Casper cannot reach a satisfactory agreement, the City of Casper will cease negotiations and notify the consultant and the WYDOT grant administrator. The

City of Casper will then initiate negotiations with the next highest ranked consultant or, at its option, initiate a new procurement process.

SECTION IX. AGREEMENT PROVISIONS

The City of Casper will determine the consultant agreement type, the basis for compensation, terms of the agreement, and the required provisions, clauses, assurances, and/or certifications to ensure compliance with state and federal laws, regulations and requirements.

Each agreement will:

1. Name the authorized representative of the City of Casper.
2. Outline the representative's administrative responsibilities.
3. Identify the project location.
4. Present the scope of work and consultant deliverables.
5. Provide for applicable plans and specifications.
6. Authorize commencement of work.
7. Specify fees and payments based on consultant's progress reports.
8. Specify completion of work by number of calendar days or the calendar date by which all required services shall be completed.

Each agreement will outline data, services, and obligations of the City of Casper as related to the consultant's performance of required services.

Federal General Provisions will be physically incorporated or incorporated by reference into consultant agreements funded with federal funds. These Provisions will apply to the consultant and all subconsultants engaged by the consultant. ATTACHMENT 1 – FEDERAL GENERAL PROVISIONS presents applicable Federal General Provisions and administrative procedures.

ATTACHMENT 2 – BREACH OF AGREEMENT presents written procedures to administer breach of the agreement.

The City of Casper reserves the right to terminate any agreement, as described in the agreement. In this event, compensation is made to the consultant based upon the progress of the work performed prior to termination. Work performed shall be defined as the deliverables specified in the agreement and accepted by the City of Casper, and not the labor hours billed. The City of Casper will notify the consultant, in writing, of agreement termination.

SECTION X. EXECUTION OF THE AGREEMENT

The City of Casper will prepare the final agreement for execution by all parties.

Agreements will conform to the state contract requirements as published by the Wyoming Attorney General's office, or as directed by the senior assistant attorney general assigned to WYDOT.

All agreements shall be forwarded to the WYDOT grant administrator for approval before execution.

Agreements subsidized with federal funds will be made available to the appropriate federal agency upon request. The Federal Highway Administration (FHWA) and the Federal Aviation Administration (FAA) have currently delegated their approval authority to WYDOT.

Agreements shall be executed by the consultant and the City of Casper.

SECTION XI. AUTHORIZATION TO PROCEED

Once the consultant agreement is finalized and executed, the City of Casper will notify the consultant using a written "Authorization to Proceed" to commence work.

Consultant services cannot proceed before the "Authorization to Proceed" is issued.

SECTION XII. AGREEMENT MODIFICATIONS

The City of Casper or the consultant may, during performance of the agreement, propose agreement modifications within the type of services under which the original agreement was procured. Changes in the scope, complexity or quantity of the work, or if changes causing an increase or decrease in agreement fees or time for performance are required, an equitable adjustment in fees and/or contract time will be negotiated with the consultant. Any additional services outside of the original agreement type of work will be procured under a new procurement process.

If changes are required in the agreement, a written request shall be made by the consultant to the City of Casper and negotiated between the consultant and the City of Casper. The agreement will then be amended using documentation issued by the City of Casper. Agreement modifications must define and document the changes made to the agreement, establish any adjustment in agreement fees and payment, establish any adjustment in completion date, and be in compliance with terms and conditions of the original agreement. An adjustment in agreement fees and payments will be negotiated, as outlined in SECTION VIII – NEGOTIATING THE FINAL AGREEMENT AND COST PROPOSAL, including the fixed fee, if warranted.

If the consultant is unable to complete the work within the number of calendar days or the calendar date required by the agreement, the City of Casper may authorize a schedule modification after receiving the consultant's written request showing sufficient justification for an extension in time to complete agreement required services. In some cases, the City of Casper may initiate the schedule modification, especially when the City of Casper has delayed progress. If the schedule

modification is significant, the agreement will then be amended to specify an additional number of days or revised calendar date, and the City of Casper will document the approval action with a formal change order. Minor changes in schedule, without adjustment in agreement cost, can be accepted by the City of Casper with informal documentation.

All agreement modifications shall be forwarded to the WYDOT grant administrator for approval before execution.

Consultant work shall not begin on any change in services until the agreement modification describing those services and fee has been executed. Services performed without prior request and authorization are deemed to be covered in the compensation and time provided in the original agreement and previously executed change orders.

For those agreements processed consistent with SECTION IV(A) – Small Agreement – Estimated Cost at or less than the SAT, in no case will subsequent change orders be permitted to cause the total fee to exceed the SAT if federal funds are involved. Exceeding the SAT limitation may jeopardize federal participation in the change order or the entire agreement amount. If federal funds are not involved, the City of Casper should contact the WYDOT grant administrator, and they will review the circumstances and make a determination regarding escalation of the agreement above the SAT.

SECTION XIII. AGREEMENT ADMINISTRATION

The agreement for consultant services will identify the representative for the City of Casper as the primary contact through which the consultant will coordinate all phases of agreement work, terms and conditions. The City of Casper representative will:

1. Monitor the consultant's work and acceptability of work, in compliance with the agreement.
2. Monitor the consultant's work progress – work performed versus agreement completion date – in compliance with the agreement.
3. Ensure the consultant's labor hours and fees are in accordance with the agreement and the percent of the contract total being invoiced is commensurate with the progress of the work.
4. Address consultant correspondence and resolve administrative issues.
5. Monitor the consultant and subconsultant(s) for compliance with ATTACHMENT 1 – FEDERAL GENERAL PROVISIONS, if required by the Agreement.
6. Administer breach of agreement, when required, consistent with procedures presented in ATTACHMENT 2 – BREACH OF AGREEMENT. Consult with the WYDOT grant administrator before initiating procedures leading to breach of agreement.

7. Close-out agreement when all work deliverables have been accepted and all consultant billings have been accepted.

The City of Casper will maintain a correspondence file for each consultant services agreement, documenting all aspects of the selection, negotiation, and administration processes. The City of Casper will retain such records for at least three (3) years following agreement completion or termination.

SECTION XIV. FINAL PERFORMANCE EVALUATION

When the consultant services specified in the agreement are completed and accepted, the City of Casper will evaluate the consultant's performance. This evaluation should consider such factors as the consultant's performance on specific elements of work, promptness in meeting schedules and deadlines, cooperation with the City of Casper, and overall performance in delivery of the agreement terms and conditions. Documentation will be prepared and provided to the consultant, and request consultant comments on the evaluation. Subsequently, a copy of the final evaluation documentation will be provided to the WYDOT grant administrator.

SECTION XV. ADMINISTRATION, COST PRINCIPLES, AUDIT REQUIREMENTS

The administrative policies and procedures of the City of Casper for the consultant selection process are presented throughout this document. The City of Casper is responsible for the oversight and administration of these policies and procedures. The WYDOT Internal Review Services program is responsible for the audit requirements.

FEDERAL GENERAL PROVISIONS

The below General Provisions shall also apply to all subconsultants engaged by the Consultant.

SECTION A. ASSUMPTION OF RISK

The Consultant shall assume the risk of any loss of state or federal funding, either administrative or program dollars, due to its failure to comply with state or federal requirements. The City of Casper will notify the Consultant of any state or federal determination of noncompliance.

SECTION B. AUDITING AND ACCOUNTING

The Consultant shall make available to the City of Casper their accounting records for progress and post-performance audits when deemed necessary by the City of Casper.

SECTION C. BREACH OF AGREEMENT

The Consultant agrees to provide all professional services as required by the terms, conditions, provisions, and obligations of this Agreement. Failure by the Consultant to perform as required by the terms, conditions, provisions, or obligations of this Agreement shall constitute a breach of agreement. The City of Casper will consider a Consultant's failure to perform as a material breach of agreement when it can be determined that the terms, conditions, provisions, or obligations of the Agreement cannot be completed and the City of Casper will incur additional cost, lost opportunity, or additional time to obtain the same or equal Agreement deliverables. A material breach may result in remedies as the City of Casper deems appropriate, which may include, but are not limited to:

1. Termination as provided in SECTION T – TERMINATION OF AGREEMENT;
2. Withholding monthly progress payments;
3. Assessing damages/sanctions;
4. Disqualifying the Consultant from future solicitations; and/or
5. Legal remedy.

SECTION D. CERTIFICATION FOR LIMITATIONS ON LOBBYING ACTIVITIES

This provision is applicable to all Agreements exceeding One Hundred Thousand dollars (\$100,000). By signing this Agreement, the Consultant certifies and agrees that, to the best of their knowledge:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of the Consultant, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of

any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the Consultant shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this Agreement was made or entered into. Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION E. COMPLIANCE WITH LAWS

The Consultant shall keep informed of and comply with all applicable federal, state, and local laws and regulations in the performance of this Agreement.

SECTION F. CONFLICTS OF INTEREST

The Consultant shall not engage in providing consultation or representation of clients, agencies, or firms which may constitute a conflict of interest which results in a disadvantage to the City of Casper, or a disclosure which would adversely affect the interests of the City of Casper. This does not prohibit or affect the Consultant's ability to engage in consultations, evaluations or representation under agreement with other agencies, firms, facilities, or attorneys so long as no conflict exists.

A conflict of interest may be considered a material breach of this Agreement. A material breach under this section may result in remedies as provided in SECTION C – BREACH OF AGREEMENT. In the event the Agreement is terminated under this provision, the Consultant shall take steps to insure that the file, evidence, evaluation and data are provided to the City of Casper or its designee.

The Consultant shall disclose, in writing, any potential or actual conflict of interest to the City of Casper, including financial or other personal interests.

SECTION G. DETERMINATION OF ALLOWABLE COSTS

The Consultant shall assure, prior to submittal of periodic progress payments, that all costs are in accordance with federal cost principals as provided in 48 CFR 31. Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION H. DISADVANTAGED BUSINESS ENTERPRISE ASSURANCE

The Consultant or subconsultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Agreement. The Consultant shall carry out applicable requirements of 49 CFR 26 in all subconsultant contract documents.

Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION I. ENVIRONMENTAL POLICY ACTS

The Consultant agrees all activities under this Agreement shall comply with the Clean Air Act, the Clean Water Act, the National Environmental Policy Act, and other related provisions of federal environmental protection laws, rules or regulations.

SECTION J. ERRORS AND OMISSIONS

The Consultant shall be responsible for assuring that professional services provided under this Agreement are accurate and without mistakes or omissions. The Consultant shall endeavor to perform services in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances (Standard/Duty of Care). The City of Casper will notify the Consultant at the earliest possible time of the professional services which require corrective action and the Consultant, by mutual agreement with the City of Casper and without additional compensation, shall correct those services. Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION K. HUMAN TRAFFICKING

As required by 22 USC 7104(g), 2 CFR 175, and 48 CFR 52.222-50 (Amended March 2015), severe forms of human trafficking, procurement of commercial sex acts, and the use of forced labor are prohibited. The March 2015 amendments expand the original requirements and introduce a list of specific types of conduct that are prohibited. The amendments modify mandatory disclosure obligations and specify the minimum level of cooperation required of consultants responding to a trafficking investigation. Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION L. KICKBACKS

The Consultant certifies and warrants that no gratuities, kickbacks, or contingency fees were paid in connection with this Agreement, nor were any fees, commissions, gifts, or other considerations made contingent upon the award of this Agreement. If the Consultant breaches or violates this warranty, the City of Casper may, at its discretion, terminate this Agreement without liability to

the City of Casper, or deduct from the agreed upon price or consideration, or otherwise recover, the full amount of any commission, percentage, brokerage, or contingency fee.

SECTION M. MANDATORY DISCLOSURES

The Consultant shall disclose, in a timely manner, in writing, to the City of Casper all violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting this award. Failure to make required disclosures can result in remedies for non-compliance including suspension or debarment.

SECTION N. MONITORING ACTIVITIES

The City of Casper shall have the right to monitor all activities related to this Agreement that are performed by the Consultant or its subconsultants. This shall include, but not be limited to, the right to make site inspections at any time and with reasonable notice; to bring experts and consultants on site to examine or evaluate completed work or work in progress; to examine the books, ledgers, documents, papers, and records pertinent to this Agreement; and to observe personnel in every phase of performance of the related work.

SECTION O. OWNERSHIP OF DOCUMENTS/WORK PRODUCT

All documents, reports, records, field notes, materials and data of any kind resulting from performance of this Agreement are at all times the property of the City of Casper. Said documents and/or work products shall be delivered to the City of Casper upon suspension, termination or completion of the services by the Consultant.

SECTION P. PATENT OR COPYRIGHT PROTECTION, AND RIGHTS IN DATA

The Consultant recognizes that certain proprietary matters or techniques may be subject to patent, trademark, copyright, license, or other similar restrictions, and warrants that no work performed by the Consultant or its subconsultants shall violate any such restriction. The Consultant shall defend and indemnify the City of Casper for any violation or alleged violation of such patent, trademark, copyright, license, or other restrictions.

Copyrighting or other exclusions placed on any documents or materials developed by the Consultant, its sublets, agents or assigns under this Agreement are prohibited.

Data produced, furnished, acquired, or used in meeting the terms and conditions of this Agreement are available to the City of Casper, WYDOT and/or the federal funding agency with unlimited rights. Data means all recorded information, regardless of form, to include both technical – scientific or technical nature - and computer software information. It does not include information related to administration of the Agreement such as financial, cost or pricing, or management information. Unlimited rights means that the City of Casper, State or federal agency has the right to use, disclose, reproduce, and distribute the data in any manner and for any purpose, and to permit others to also have unlimited rights. Meanings and uses described in this General Provision are superseded and/or supplemented by 48 CFR 52.227-14.

SECTION Q. PROFESSIONAL REGISTRATION

The Consultant shall endorse, if required by law, plans and reports prepared under this Agreement, and shall affix thereto his or her seal of professional registration, showing that he or she is licensed to practice in the State of Wyoming.

SECTION R. PUBLICITY

Any publicity given to the program or services provided herein, including, but not limited to, notices, information, pamphlets, press releases, research, reports, signs, and similar public notices prepared by or for the Consultant and related to the services and work to be performed under this Agreement, shall identify the City of Casper, WYDOT and the federal funding agency as the sponsoring agencies and shall not be released without prior written approval of the City of Casper.

SECTION S. SUSPENSION AND DEBARMENT

By signing this Agreement, the Consultant certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction nor from federal financial or non-financial assistance, nor are any of the participants involved in the execution of this Agreement suspended, debarred, or voluntarily excluded by any federal department or agency in accordance with the Office of Management and Budget guidelines at 2 CFR 180 and supplemented by 2 CFR 1200, or are on the debarred vendors list at www.sam.gov/portal/public/SAM/. Further, the Consultant agrees to notify the City of Casper by certified mail should it or any of its agents become debarred, suspended, or voluntarily excluded during the term of this Agreement. Failure by the Consultant to carry out these requirements may be a material breach of this Agreement, which may result in remedies as provided in SECTION C – BREACH OF AGREEMENT.

SECTION T. TERMINATION OF AGREEMENT

The City of Casper may at any time, by written notice, terminate all or part of the Agreement when the City of Casper determines that the Consultant has failed to perform as required by the terms, conditions, provisions, or obligations of the Agreement – Termination for Cause or Breach – or the City of Casper determines that termination is in the public’s best interest – Termination on Public’s Behalf/Convenience. In this event, compensation will be made to the Consultant based upon the progress of the work performed prior to termination. Work performed shall be defined as the deliverables specified in the Agreement and accepted by the City of Casper, and not the labor hours billed. The City of Casper will notify the Consultant, in writing, of Agreement termination.

SECTION U. TITLE VI ASSURANCES FOR NON-DISCRIMINATION

The Consultant agrees to comply with the requirements of the nondiscrimination clauses as described in the U.S. Department of Transportation (DOT) Order 1050.2.

(In addition to the Federal General Provisions listed above, additional provisions available from

WYDOT shall be used in all consultant contracts which utilize Federal Transit Administration funding.)

ATTACHMENT 2

BREACH OF AGREEMENT (Administrative Written Procedures)

Consultant agreements will incorporate Federal General Provisions regarding breach of agreement consistent with 23 CFR 172 and 2 CFR 200. These Regulations require written procedures to address contractual, legal, and administrative remedies including sanctions and penalties where consultants breach agreement terms, conditions, provisions, or obligations. For purposes of these written procedures, the Agreement terms, conditions, provisions, or obligations will be referred to as Agreement Services.

Numerous Federal General Provisions will be administered using these written procedures. For purposes of administering consultant agreements, breach of agreement may result when analyzing a consultant's professional services under any of the following Federal General Provisions:

ATTACHMENT 1, FEDERAL GENERAL PROVISIONS

- SECTION C. BREACH OF AGREEMENT
- SECTION D. CERTIFICATION FOR LIMITATIONS ON LOBBYING ACTIVITIES
- SECTION F. CONFLICTS OF INTEREST
- SECTION G. DETERMINATION OF ALLOWABLE COSTS
- SECTION H. DISADVANTAGED BUSINESS ENTERPRISE ASSURANCE
- SECTION J. ERRORS AND OMISSIONS
- SECTION K. HUMAN TRAFFICKING
- SECTION S. SUSPENSION AND DEBARMENT

The consultant's responsibility to make prompt payment to subconsultants will be administered through these written procedures, as required by SECTION VI(C) – Consultant Payments and Retainage and the consultant agreement.

Contractual Remedy

Contractual remedy is provided when the above provisions are physically incorporated, or incorporated by reference, into an executed Agreement. Additionally, contractual remedy requires the physical incorporation of ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION T – TERMINATION OF AGREEMENT.

Legal Remedy

Legal remedy is provided by the physical incorporation of ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION E – COMPLIANCE WITH LAWS and enforcement of the Agreement as governed by the laws of the State of Wyoming.

Administrative Procedures, Sanctions, and Penalties

City of Casper concerns with consultant performance and/or adherence to Agreement Services will most often be resolved through the coordination and resolution efforts as outline in SECTION XIII – AGREEMENT ADMINISTRATION of this document. The authorized representative/ primary contact of the City of Casper should document all administrative issues and subsequent resolutions, from start to completion of the Agreement.

There may be an occurrence when a cooperative and acceptable resolution cannot be reached between the City of Casper and the Consultant. At those occurrences, the City of Casper will typically make the determination that the Consultant has failed to perform Agreement-required acceptable work, has failed to progress in the performance of Agreement Services, or has not and will not comply with General Provisions. When that determination concludes that the Agreement Services cannot be completed and the City of Casper will incur additional cost, lost opportunity, or additional time to obtain the same or equal Agreement deliverables, the threshold for a material breach of agreement has been reached and will invoke ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION C – BREACH OF AGREEMENT and the resultant remedies, including ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION T – TERMINATION OF AGREEMENT.

A City of Casper determination that the Consultant has failed to perform Agreement-required acceptable work, has failed to progress in the performance of Agreement Services, or has not and will not comply with General Provisions will need to be supported by the City of Casper documentation of monitoring activities as allowed by ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION N – MONITORING ACTIVITIES. Issues concerning the Consultant's billing of allowable costs should be evaluated in accordance with ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION B – AUDITING AND ACCOUNTING.

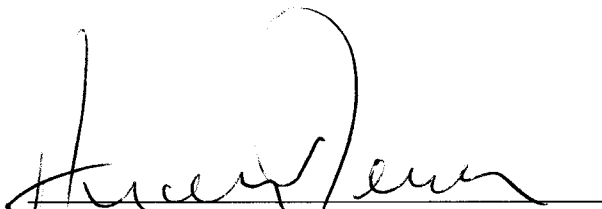

The threshold for a material breach of agreement requires that the Consultant has failed to perform Agreement Services and that the City of Casper has or will incur additional cost, lost opportunity, or additional time to obtain the same or equal Agreement deliverables. Both represent a high threshold to assure an acceptable outcome and, as a result, the City of Casper representative through monitoring activities must identify and document unresolved issues early in the Agreement, before either the Consultant or the City of Casper has incurred substantial cost or time. All unresolved issues should be promptly addressed, either reaching resolution, arriving at reasonable penalties/sanctions, or concluding breach of agreement with the resultant remedies, including ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION T – TERMINATION OF AGREEMENT.

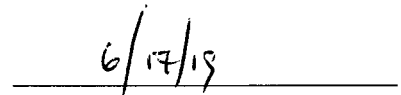

Penalties and/or sanctions typically available to the City of Casper would be structured as 1) compensatory damages, 2) specific performance, or 3) termination.

Damages, based on additional cost or time incurred by the City of Casper, could be quantified and pursued. Damages, based on lost opportunity incurred by the City of Casper, may be more difficult to quantify. Lost opportunity could include City of Casper delays in the delivery of supplemental work or successor agreements for work, or delay in the year of project construction and the related increased construction costs. Other lost opportunities may be identified and quantified.

Specific performance would require the Consultant to pursue Agreement Services, with adjustment to allowable costs. Specific performance would be used as a remedy, either prior to or for breach of agreement, if the work required by the Agreement required special expertise, is an emergency, or is only available from a single or restricted number of firms. In those cases, damages would not suffice to place the City of Casper in as good a position as it would have been had the breach not occurred.

Termination of the Agreement is presented in ATTACHMENT 1, FEDERAL GENERAL PROVISIONS, SECTION T – TERMINATION OF AGREEMENT. The City of Casper may terminate the Agreement, and either pursue restitution or not pursue restitution. Restitution, as a remedy, means that the City of Casper is put back in the position it was in prior to the breach; without restitution, the Agreement is terminated with both the Consultant and the City of Casper no longer under any Agreement obligation.

Modal Operating Administration may include additional General Assurances in this section, or reference an addendum here.

Specific Assurances

6. That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property;
7. That the Recipient will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:

 - a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. the period during which the Recipient retains ownership or possession of the property.

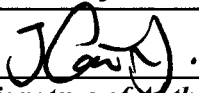

9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

Summary:

The Plains Properties were the subject of a Request for Proposal and the subsequent addenda all of which required that responsive proposals be submitted on or before the 14th day of February, 2019. There were two proposals in response to RFP#1, however, neither were accepted.

The Plains Properties were again the subject of a modified RFP, with responses due on or before the 3rd day of May, 2019. Only one proposal was submitted by FLAG Development, LLC (FLAG). Upon review of the FLAG Proposal, the \$1,000,000 offer for all the properties was subject to multiple requests and conditions which were part of the proposals confidential submission.

An initial review by City staff and two Council members of the confidential conditions and the structure of the proposal resulted in many questions and concerns. There were particular concerns about potential risks for the City and potential obligations required of the City, resulting in significant questions and ambiguities about the net amount of dollars that the City would derive.

Based upon those questions and concerns, discussions by staff with FLAG's representatives were held to try to limit or remove certain conditions and to provide more certainty, both as to the amount of dollars to be received by the City and to limit the potential development entanglement between the Parties.

As a result of the discussions, conditions were withdrawn and the guaranty of a firm purchase price was started making the proposal ready for the Casper City Council's consideration, pursuant to the terms of the proposal and this MOU, all of which are to be memorialized in a Purchase

Agreement between the City of Casper and FLAG Development, LLC, the Parties, should the Council agree to move forward.

Financial Considerations

FLAG shall pay Five Hundred Thousand Dollars (500,000) for the properties.

MEMORANDUM OF UNDERSTANDING

THIS MEMORANDUM OF UNDERSTANDING, entered into as of this ____ day of _____, 2019, by and between the City of Casper, a Municipal Corporation, 200 North David Street, Casper, Wyoming 82601, and FLAG Development, LLC, 2302 West 39th Street, Casper, Wyoming 82604.

WITNESSETH:

The City of Casper, Wyoming, is the owner of real property generally described as the “Former Plains Furniture Properties” – See Exhibit 1 (hereafter referred to as “the Properties”).

The Properties were the subject of a Request for Proposal (RFP #1) and the RFP#1’s subsequent addenda all of which required that responsive proposals be submitted on or before the 14th day of February, 2019. There were two proposals in response to RFP#1, neither were accepted.

The Properties were again the subject of a modified RFP, RFP#2, with responses due on or before the 3rd day of May, 2019. Only one proposal to RFP#2 was submitted; the proposal was submitted by FLAG Development, LLC. (FLAG Proposal).

Upon review of the FLAG Proposal, the \$1,000,000 offer for all the properties was subject to multiple requests and conditions which were part of the RFP#2’s confidential submission.

An initial review by City staff and two Council members of the confidential conditions and the structure of the proposal resulted in many questions and concerns. There were particular concerns about potential risks for the City and potential obligations required of the City, resulting in significant questions and ambiguities about the net amount of dollars that the City would derive.

Based upon those questions and concerns, discussions by staff with FLAG’s representatives were held to try to limit or remove certain conditions and to provide more certainty, both as to the amount of dollars to be received by the City and to limit the potential development entanglement between the Parties.

As a result of the discussions, conditions were withdrawn and the guaranty of a firm purchase price was stated making the proposal ready for the Casper City Council’s consideration, pursuant to the terms of the RFP#2 and this MOU, all of which are to be memorialized in a Purchase Agreement between the City of Casper and FLAG Development, LLC, the Parties, should the Council agree to move forward.

IN CONSIDERATION of the covenants and conditions set forth herein to be performed, the Parties agree as follows:

FLAG Development, LLC shall pay Five Hundred Thousand Dollars (\$500,000.00) for the Properties.

FLAG Development, LLC shall take the Properties where is, as is, except as expressly listed herein.

FLAG Development, LLC shall develop and construct its proposal as specified in RFP#2, which will include both market-rate housing and commercial space; the historic features of the Properties as reflected in RFP#2 shall be incorporated and preserved.

The City of Casper shall provide appropriately sized water services and sewer services to the development site within the public right-of-way. FLAG Development and The Nolan, LLC shall advise the City of Casper on or before September 15, 2019 of the appropriate sized water and sewer services required; the utilities will be installed and ready for FLAG to connect to on or before March 1, 2020. FLAG Development, LLC will pay all appropriate System Investment Charges related to water and sewer service connection fees.

The City of Casper shall waive, *except for hazardous materials*, all associated land fill tipping fees associated with the demolition of the livery stable, the north eastern pre-engineered metal building, and construction debris generated during the construction of the renovations and new structures to be built on the site, for the duration - until substantial completion - of this project. General trash and debris are not to be added to the construction and demolition dumpster.

FLAG Development, LLC has formed a separate holding company registered with the State of Wyoming named "The Nolan, LLC." The Nolan, LLC shall be listed as the purchasing company on the contract for the sale of the property and is expressly permitted for assignment of rights by FLAG. However, both FLAG Development, LLC and The Nolan, LLC shall be responsible jointly and severally for all obligations contained within this MOU and both entities shall be signatories to the final purchase agreement.

The City of Casper shall provide assistance and recommend the replat of the development to allow for the fee simple sale of market-rate residential and/or commercial units, as referred in RFP#2. FLAG Development, LLC, shall submit the plat to The City of Casper for review and approval on or before September 1, 2019; the City of Casper shall complete the plat approval process no later than November 1, 2019. FLAG Development shall formally begin the OYD architectural design review no later than August 1, 2019.

The City of Casper shall agree to a five (5) year restriction on the existing 48-stall parking lot North of the former KaLark's building, ensuring that this lot shall remain a public parking lot; the City of Casper may upgrade and manage such lot for public parking purposes, which may result in temporary closures or some limitations in parking.

The City of Casper shall, as part of the official process of this sale, hold a public hearing to approve, as a term of the Purchase Agreement, that FLAG shall have the right of first refusal to purchase the existing 48-stall parking lot North of the former KaLark's, should the City attempt to sell the same, for a period of five (5) years for the sum of Two Hundred Fifty Thousand Dollars (\$250,000.00).

The City of Casper shall enforce the no overnight parking ordinance on any adjacent City-owned parking lot.

The City of Casper agrees that no additional *offsite* infrastructure improvements such as off-site lighting, curb cuts, utility upgrades, traffic lights, visual screening or other similar improvements will be required that has not already expressly been referenced. However screening of the FLAG/Nolan parking lot and potentially other onsite construction or architectural modifications or improvements may be required and the City of Casper makes no commitments regarding such on site improvements.

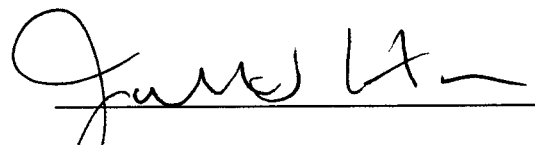

FLAG shall have seventy-five (75) days from the date hereof to complete its due diligence with respect to any Phase I and/or Phase II environmental studies and other inspections of the properties. In addition, FLAG will pursue the acceptance of the motor pool and historic garage into Casper Registered Historic District or getting the building registered on the National Register of Historic Places in order for the project to be eligible for the Federal Historic Preservation Tax Incentives Program. Should the formal acceptance into the Federal Historic Preservation Tax Incentives Program be delayed through no fault of FLAG, an extension until noon September 13, 2019 (the Friday prior to the scheduled closing date – September 17, 2019) will be granted under terms agreed upon by all parties to accommodate the award of the Historic Tax Credits, if any. Should a Phase II study be required, a reasonable extension of time, dependent upon when the study can be completed, is agreed upon by the parties and will be granted to FLAG in order to perform that study; however, the extension expires as of noon September 13, 2019 (the Friday prior to the September, 17 closing date).

If FLAG determines, based upon written response to its inquiries and/or application for admission to the Casper Residential Historic District or on the National Register of Historic Places (non-acceptance of either is sufficient to make this voidable by FLAG) and failure to gain acceptance into the Federal Historic Preservation Tax Incentive Program will render this Agreement voidable by FLAG if it elects in writing voidability, and such election to void the agreement is made in writing and delivered to the City Manager's office, on or before noon, September 13, 2019. FLAG has identified an objective amount of cost that they plan to incur for the removal of hazardous materials, structural modifications, and demolition on the site. The budgeted costs for abatement, structural modifications, and demolition is \$230,000. FLAG agrees to move forward with the closing if the bids received during the due diligence period are determined to be within 10% of that budgeted number, plus \$10,000 for the estimated tipping fee waiver or up to an amount that does not exceed \$263,000. However, if the amount of the bids exceeds \$263,000, this Agreement shall be voidable by FLAG if it elects in writing voidability within seventy-five days of learning that the bids exceed \$263,000 or by noon September 13, 2019. Failure to timely make the voidability election is a waiver of any right FLAG Development, LLC may have to assert that the Agreement is void.

FLAG has provided an updated Letter of Credit, dated May 24, 2019, showing its financial ability to compete this Project, and that letter of credit is expressly relied upon by the City of Casper in entering into this agreement and the purchase agreement contemplated by the parties.

IN WITNESS WHEREOF, the City of Casper, Wyoming and FLAG Development, LLC, have executed this Memorandum of Understanding as of the date first above written.

The Honorable Charlie Powell
Mayor of the City of Casper
The Honorable Members of the City Council
The City of Casper
200 N. David Street
Casper, WY 82601

Dear Mayor Powell and Members of the City Council:

The Downtown Development Authority (DDA) respectfully requests Council to appoint new members, Mr. Ryan McIntyre and Mr. Tony Hager, to the Board of Directors. A letter of interest and application is also attached for your consideration for Mr. McIntyre and Mr. Hager.

The DDA began accepting applications for this position on April 1, 2017 with an email newsletter to downtown property owners, merchants, and community subscribers. The request for applicants was followed by two publications in the Casper Star Tribune on April 7th and April 17th. The publicized due date for applications was May 15, 2019. On Wednesday, June 5, the DDA Board met and formally voted to recommend these applicants to the Mayor and City Council for appointment.

A full term, effective July 1, 2019 is for four years, per State Statute 15-9-205 and local City Ordinance No. 21-15, passed, approved and adopted on September 15, 2015. The four year term also matches our mill-levy election and funding cycle and helps create institutional knowledge for critical elements of our organization.

We request Mr. McIntyre and Mr. Hager be appointed to a full term, effective July 1, 2019 and expiring June 30, 2023.

In lieu of the recent resignation of Ms. Holthouse, the board respectfully requests a few months to determine the best course of action forward. Hopefully, this time will allow the new board to settle and determine shortcomings and needs to move downtown forward in a positive and effective manner.

The board extends its sincere appreciation to you and the council for your consideration of these great community leaders.

Respectfully submitted,

Dear Board of Directors,

Please accept this letter and application as my formal submission for the Board of Directors of the Casper Downtown Development Authority. I have been a downtown business operator for 13+ years. After years of renting and with the recent growth and energy downtown, I recently made the decision to purchase and renovate a historic building on Center Street, in the heart of downtown Casper. It was a large undertaking and certainly a labor of love, but I couldn't be more proud of the results.

Now, I believe I have been in every stage of downtown business and have come full circle with owning, renovating, and operating my business out of my new building. I am extremely proud of our property and excited to get more involved in downtown and offer my thoughts and ideas to help continue moving it forward. I look forward to the opportunity to meet with you and discuss ideas for the future growth, development, and betterment of downtown.

Truly,

Minute Action

Recommendation

That Council, by minute action, reject the bid submitted for the WWTP Digester Boiler Installation, Project No. 17-068.

Summary

On Thursday, May 30, 2019, one (1) bid was received for the installation of a new boiler and HVAC equipment at the WWTP digester building. The bid received for this work is as follows:

<u>CONTRACTOR</u>	<u>BUISNESS LOCATION</u>	<u>BID AMOUNT</u>
GW MECHANICAL	MILLS, WY	\$834,200.00

The budget for this project was originally \$300,000.00 for the installation of the boiler. During design it was found that there were fire code compliance issues. To address the fire code concerns additional HVAC work was required and included in the project scope. The Engineer's estimate for the boiler installation and HVAC work was \$450,000.00. The Consultant has discussed the bid with city staff and recommends rejection of this bid. The Consultant believes that some minor scope adjustments and an increase in contract time could increase interest in the project and lead to more competitive bids.

Financial Considerations

Funds available for this project are from 1%#15 funds allocated to the WWTP.
