MUNICIPAL CODE.

Councilmember Pacheco presented the foregoing ordinance for approval, on second reading. Seconded by Councilmember Huber. Alaina Stedillie, representing Blackbird Pizza, came forward. Councilmembers and Mayor Powell discussed the matter and had questions for Mr. Stedillie, which she addressed. Mayor Powell indicated that the key things he felt Council was concerned about are the truck and trailer standards, exceptions for unique situations, and a process to allow for appeals. City Attorney Henley shared his research and that the State Fire Marshall could be an appellate body and that locally the **contractors’** licensing board would be as well. City Attorney Henley also shared that this information could be added to the ordinance in some manner for clarification purposes.

Councilmembers discussed the process for appeals, the particulars of having a wood fired oven in a trailer, the perception of Casper being unfriendly to food truck businesses, and the International Fire Code.

Mayor Powell offered that Council had several options including tabling the ordinance and amending the ordinance at a later time.

Moved by Councilmember Hopkins, seconded by Councilmember Bates, to table the ordinance to a date uncertain. Councilmember Huber asked if too many amendments might make the ordinance invalid. City Attorney Henley indicated that it could, but would not necessarily. Councilmember Hopkins withdrew his motion and moved to table the second reading until June 4, 2019. Seconded by Councilmember Bates. Councilmembers Bates, Freel, Johnson, and Hopkins voted aye. Motion to table failed.

Moved by Councilmember Walsh to include language for Council to be the local appellate body, which City Attorney Henley could finalize. Seconded by Councilmember Johnson. Councilmember Huber and Johnson addressed the matter. City Attorney Henley read language for the amendment. Mayor Powell and Councilmembers Hopkins and Huber voted nay. Motion to amend the ordinance passed. Councilmember Huber inquired about the State Fire Marshall being an appellate body, and Mayor Powell clarified that it is already part of State law and would not change because a local appellate had also been assigned.

Moved by Councilmember Hopkins, seconded by Councilmember Johnson, to allow a wood fire stove that meets Underwriters Laboratories standards to be exempt from having a hood. Councilmembers Hopkins and Johnson voted aye, motion to amend failed.

City Attorney Henley asked if Council would like to consider amending the ordinance to not require a fire protection system or hoods in non-enclosed food preparation vehicles, pushcarts, etc. Moved by Councilmember Huber to allow specific language for non-enclosed food preparation vehicles, seconded by Councilmember Lutz. Motion passed.

Council then voted on the ordinance, as amended for appeals and non-enclosed food preparation, on seconded reading. Councilmembers Hopkins and Johnson voted nay. Motion passed.

SUBJECT: Establish Public Hearing for Consideration of an Ordinance Approving a Plat Creating Fleming Addition to the City of Casper, and Approving the Subdivision Agreement for said Addition.

Meeting Type & Date:

Regular Council Meeting, June 4, 2019.

Action Type:

Establish Public Hearing for June 18, 2019.

Recommendation:

That Council, by minute action, establish June 18, 2019, as the date of public hearing for consideration of a plat creating Fleming Addition to the City of Casper, and also approving the Subdivision Agreement for said Addition.

Summary:

Greg D. Fleming has applied for a replat of his property located at 801 Jane Street, generally north of Interstate 25, and southeast of the North Casper baseball fields. The subject property consists of Lot 27 of the Keystone Addition, as well as an unplatted parcel directly to the north. The proposed plat is creating a single lot, approximately 16,008 square feet in area, on which the applicant plans to construct a commercial/industrial building. Access to the property is via Jane Street, which is fully constructed to City standards. The property is zoned C-4 (Highway Business), and there are no minimum lot size requirements in the C-4 district.

The Planning and Zoning Commission voted unanimously to approve the plat and forward a do-pass recommendation to Council after a public hearing on May 16, 2019. A notice of public hearing will be published in the Casper Star-Tribune advertising the City Council public hearing. All public hearings are also advertised on the City's website (casperwy.gov).

Summary
Section 17.12.150 of the Casper Municipal Code (Code) currently governs the City's approval process for Site Plans. Two subsections of Section 17.12.150, 17.12.150(D)(1) and 17.12.150(H) need amending for the following reasons:

Section 17.12.150(D)(1) refers to plans that are outdated and no longer in effect. By replacing these specific outdated plans with all plans currently adopted by Council, the Code would require site plans to maintain compliance with Council approved plans, while eliminating the need for Council to constantly update this subsection.

Section 17.12.150(H) refers to site plans that require Council approval. However, for additions to existing buildings of exactly forty-three five hundred sixty thousand square feet, both sections G and H apply, creating confusion about whether the site plan should go before Council or the Planning and Zoning Commission. To rectify this confusion, the Code should be amended so that site plans for additions to existing buildings follow the same process as site plans of new multi-family developments, public buildings, commercial buildings, industrial buildings, or churches. This code section has also been amended to clarify exactly when a building addition requires the approval of the Planning and Zoning Commission and City Council.

Financial Considerations
The proposed ordinance does not impact the City's budget.

1. Be compatible with the goals and policies of the 1993 Future Housing and Land Use Plan, 1995—5 Year Consolidated Housing Plan, 1985 and 1992 Neighborhood Analysis, 1983 Stormwater Management Plan, 1997 Water Facility Master Plan, 1981 201 Facility Plan, 1999 Wastewater Facility Master Plan 1998 Long Range Transportation Plan, 1998 Elkhorn Creek Stormwater Master Plan and the 2000 Casper Area Comprehensive Plan adopted by the council.
2. Promote the efficient use of land by means of a sound arrangement of buildings, safe and functional points of access, well planned parking circulation systems, and adequate sidewalks and pathways for pedestrians.

H. City Council Review. Site plan applications for new multi-family developments, public buildings, commercial buildings, industrial buildings, or churches, with a ground floor area in excess of forty-three thousand five hundred sixty square feet, and all additions to existing buildings of forty three five hundred and sixty thousand square feet or larger, must be approved by both the planning and zoning commission and the council pursuant to the following procedure:

1. Site plan applications must be reviewed by the planning and zoning commission pursuant to the procedures set forth in Section 17.12.150(G) prior to council review in the event the planning commission denies the application, the applicant may appeal to the city council pursuant to Section 17.12.150(G);
2. Upon approval, or approval with conditions, of a site plan recommendation by the planning and zoning commission, a written notice of the date, time, and place of the council public hearing shall be mailed or delivered to the applicant and all owners of private real property within a three hundred foot radius of the perimeter of the project area, as shown on the site plan. The notice shall be mailed at least fifteen calendar days prior to the hearing date;

 - ii. Approve with conditions;
 - iii. Deny; or
 - iv. Continue discussion of the application to a future council meeting.
5. If the site plan application is approved or approved with conditions, the applicant shall sign a site plan agreement stating the terms of approval and his willingness to comply with those terms. The agreement may then be executed by the mayor upon approval of the council. If the application is continued, it may be considered at the next regularly scheduled council meeting and the decision to approve, approve with contingencies, or deny shall be made. Appeal of decisions may be made in writing to district court within ten calendar days of written notice of the council's decision.

Recommendation

That Council approve an ordinance to amend Sections 17.52.100 and 17.52.110 of the Casper Municipal Code to correct scrivener's errors and harmonize those sections.

Summary

This is merely a Casper Municipal Code clean-up item. Sections 17.52.100 and 17.52.110 of the Casper Municipal Code currently govern the City's approval process for PUDs. The City needs to update its PUD approval ordinance because the current ordinance contains scrivener's errors which make the sections contradictory or impossible to comply with.

The title of Section 17.52.100 indicates that the section applies to PUD's of 20,000—43,560 square feet. But, the text of 17.52.100(A) gives the commission authority over PUD's of 5,000 square feet or more. The 5,000 square feet language of 17.52.100(A) is a scrivener's error, and should change to match the title of the section.

Section 17.52.110 addresses PUD's consisting of more than twenty residential units, and commercial and industrial PUD's consisting of over 43,560 square feet of building area. A conflict exists between 17.52.110(A) and (B). 17.52.110(A) requires a public hearing to be held by the Commission within 15 working days after receipt of the required information. But, then, Section (B) requires notice of that same public hearing to be mailed and delivered at least 15 calendar days prior to the hearing. That is impossible because it takes several days to mail and deliver notice. The 15 day language of 17.52.110(A) should change to 90 days, and the first clause of 17.52.110(B) should be deleted.

Financial Considerations

The proposed ordinance does not impact the City's budget.

Recommendation
That Council approve an ordinance to amend Section 16.08.480 of the Casper Municipal Code to harmonize with Wyoming Statutes § 15-1-501(a)(iii).

Summary
This is merely a Casper Municipal Code clean-up item. Section 16.08.480 of the Casper Municipal Code (“Code”) currently gives the City’s definition of a “subdivision.” Wyoming Statutes § 15-1-501(a)(iii) also defines a “subdivision” in cities. The two definitions conflict. State law trumps a City ordinance in the event of a conflict. So, the City should amend its Code to eliminate the conflict between the two. An amendment to the Code has been prepared for your review and approval.

Financial Considerations
The proposed ordinance does not impact the City’s budget.

Recommendation

That Council adopt an Ordinance amending Chapter 10.36 of the Municipal Code to make small trailers subject to the same parking restrictions as other trailers and recreational vehicles.

Summary

Current Casper Municipal Code Section 10.36.030 A (5) (attached) exempts trailers under a certain size from the definition of recreational vehicles in the context of parking regulation. While large trailers and other RVs are currently subject to parking limitations, in part due to their impact on traffic and safe sight lines for drivers, it has been the experience of City staff that parking smaller trailers on City streets also poses a hazard to traffic, due to their small size and their resulting limited visibility to drivers.

Subject: Authorizing a 10-Year Agreement with Thomson Reuters for Westlaw Print Research Services for the City Attorney's Office.

Meeting Type & Date

Regular City Council Meeting
June 4, 2019

Action type

Resolution

Recommendation:

That Council, by resolution, authorize the 10-year Agreement with Thomson Reuters for Westlaw internet legal research services for the City Attorney's Office.

Summary:

The City Attorney's Office subscribes to Westlaw print research services through Thomson Reuters for Wyoming statutes, Wyoming and federal court rules, and other materials for its legal research needs. The Agreement for these services will expire shortly. It is advantageous to the City to renew the Agreement for 10 years, as it, over the course of the ten-year term, saves the City \$15,314 compared to 1-year at a time subscription rates.

Financial Considerations

The total estimated subscription cost under the Agreement is \$1,701.96 for the first annual term, with each annual renewal term thereafter capped at a 1% increase. The ten-year subscription plan is further subject to a "non-availability of funds" clause for government subscribers. This clause allows the City to cancel the Agreement in the event there is a lack of funding for the service.

Oversight/Project Responsibility

John Henley

A copy of the Agreement is included for your review, along with a resolution authorizing the Mayor to execute the Agreement on behalf of the City.

May 29, 2019

MEMO TO: J. Carter Napier, City Manager 

FROM: Liz Becher, Community Development Director 

SUBJECT: Consideration of a Resolution approving a vacation and replat creating Ash Street Commons, and the associated Ash Street Commons Subdivision Agreement.

Meeting Type & Date:

Regular Council Meeting, June 4, 2019.

Action Type:

Resolution.

Recommendation:

The Planning and Zoning Commission recommends that Council, by resolution, approve the vacation and replat of Casper Addition Blocks 1-12, Block 1, Lots 20-22, as Ash Street Commons, and the associated Ash Street Commons Subdivision Agreement.

Summary:

Ashby Construction Inc. has applied for a replat of three (3) lots, located at the northeast corner of West Midwest Avenue and South Ash Street, to create the Ash Street Commons Addition. The property is zoned OYDSPC (Old Yellowstone District and South Poplar Street Corridor Form Based Code). The applicant recently renovated the structure known formerly as "Milo's Toyota," situated on proposed Lot 4. Proposed Lots 1-3 are currently undeveloped, but will be under construction in the near future as three separate live-work units, with store fronts facing Ash Street, and dwelling units on the second story. The proposed lots range in size from roughly 2,400 square feet, up to approximately 5,000 square feet. The OYDSPC zoning district does not have any minimum lot size requirements.

The Planning and Zoning Commission voted to unanimously support the vacation and replat after a public hearing on April 18, 2019. No public comments were received, and there were no recommended conditions of approval.

Financial Considerations:

Not applicable.

Oversight/Project Responsibility:

Craig Collins, AICP, City Planner, is tasked with processing plat proposals.

**ASH STREET COMMONS
SUBDIVISION AGREEMENT**

4th This Subdivision Agreement ("Agreement") is made and entered into this day of June, 2019, by and between the following parties:

1. The City of Casper of Casper, Wyoming, a Wyoming municipal corporation, 200 North David Street, Casper, Wyoming 82601 ("City").
2. Ashby Construction Inc., 274 West Midwest Ave., Casper, Wyoming 82601 ("Owner").

Throughout this Agreement, City and Owner may be individually referred to as a "party" or collectively referred to as the "parties."

RECITALS

- A. Whenever the Public Services Director, City Engineer, Community Development Director, or other City official is mentioned in this Agreement, it shall be deemed to include their designees.
- B. Owner applied for a vacation and replat of Casper Addition Blocks 1-12, Block 1, Lots 20-22, to create the Ash Street Commons Addition, comprising 0.30-acres, more or less.
- C. A plat of Ash Street Commons ("Addition") has been prepared by the Owner, and approved by the City of Casper, and shall be signed and recorded at the Natrona County Clerk's Office concurrently with this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the parties hereto agree as follows:

SECTION 1 – INCORPORATION OF RECITALS

The recitals set forth above are incorporated at this point as if fully set forth as part of this Agreement.

SECTION 2 - OBLIGATIONS OF OWNER

Upon written demand of the Council or the City Manager, the Owner, its heirs, successors, grantees or assigns, at their sole cost and expense, shall do, or cause to be done, the following:

2.1 Surveying:

- a. All subdivision corners shall be marked with 3¼ brass caps. These caps shall show the name of the surveyor or company making the survey, and the license number of the surveyor making the survey or certifying the survey. All PLSS corners shall be properly marked for identification as to the location as per Wyoming Statutes and Rules and Regulations of the Wyoming Board of Registration for Professional Engineers and Professional Land Surveyors, shall be referenced if subject to destruction, and again shall show the proper identification and license of the certifying surveyor. A corner record shall be recorded as per Wyoming Statutes and Rules and Regulations of the Wyoming Board of Registration for Professional Engineers and Professional Land Surveyors. A copy will be provided to the City upon recordation.
- b. Block and Lot corners, points of tangency (PT's) and points of curve (PC's) of all curves shall be marked by an iron pin not less than five-eighths (5/8) inches in diameter and not less than twenty-four (24) inches in length, with a brass or aluminum cap not less than 2 and one-half (2½) inches in diameter securely fastened to the top, unless otherwise impractical. These monuments will be set prior to the recording of the plat in the Office of the County Clerk unless approved by the City Surveyor.
- c. Said corners shall be in place for final inspection by the Public Services Director upon completion of the sidewalk (curbwalk), or curb and gutter.
- d. A digital copy of the Final Subdivision Plat shall be provided to the City, as required by the Casper Municipal Code ("Code"). No building permit shall be issued prior to the recording of the plat.

2.2 Construction Sequence:

Main water lines, sewer lines, storm sewer, streets, sidewalks, pavement overlays, and access drives shall be constructed in an orderly sequence, as the Addition is developed and built upon, so that there will be no gaps left in the paving, sidewalks, and other off-site improvements. Streets shall not be paved until all water lines, storm sewers, and property water and sewer services are in place and the ditches thereof properly backfilled and compacted, in accordance with City requirements. The Owner shall receive the approval of the Public Services Director prior to commencing any and all phases of construction.

2.3 Certification of Construction; Repair Obligations:

- a. All improvements shall be designed and inspected by a Wyoming registered professional engineer, who shall certify that the improvements, including, but not limited to, streets, curbs, gutter, sidewalks, paving, parkways, utility systems, storm sewers, street lighting, street signs and

striping, etc., have been constructed in accordance with plans and specifications approved by the Public Services Director. The certification by the engineer and approval by the City shall be in writing. Approval of the construction plans by the Public Services Director is required before a building permit will be issued by the City.

- b. The Owner shall maintain, repair, and replace all improvements that fail within the warranty period as provided by the Code. This obligation includes maintenance, repair or replacement for any cause during such period, including acts of subcontractors. In the event the Owner fails to maintain, repair, or replace said improvements, City shall have the right but not the obligation, at its option, to maintain, repair, or replace the same and Owner agrees to pay for any cost incurred thereby. Maintenance, repair, or replacement by the City does not relieve the Owner from its obligation under this paragraph and shall not be construed to be an acceptance of the improvements by the City.
- c. Upon issuance of a "letter of acceptance" by the Public Services Director pursuant to the Code, the City will assume ownership and the responsibility for the maintenance of the improvements. The Owner shall be responsible for the maintenance, repair and replacement of the improvements until the City issues its "letter of acceptance."

2.4 Underground Utilities and Street Lights:

All new utilities shall be located underground. All street lights shall be installed in compliance with Code street-lighting standards at the Owner's sole expense. Streetlight pole materials shall be as approved in writing by the Public Services Director.

2.5 Soils Analysis:

The Owner shall provide the Public Services Director with a soils analysis concurrently with the submittal of subdivision construction plans. Individual lot test bores may be required on each lot, with a soil analysis for the foundation design at the sole discretion of the Public Services Director. Test results, soil analyses and foundation designs shall be submitted to the Community Development Director.

2.6 Erosion Control Program:

- a. The Owner shall submit, and have approved by the Public Services Director, a comprehensive erosion control program for the area disturbed during construction activities to mitigate the adverse effects of blowing dirt or dust, and water erosion on other properties in the immediate area before the issuance of an earthwork, road cut or grading permit pursuant to the Code. An erosion and sediment control permit shall be obtained

from the Public Services Director prior to any earthwork taking place in the Addition.

- b. The Owner shall post security for its erosion control as required by the Code, and in a form acceptable to the City. It shall be the obligation of the Owner to keep any security in full force and effect, as required by the Code. In addition, the Owner shall furnish proof of the same to the Public Services Director upon demand of the City.

2.7 Retaining Walls and Fences:

Any retaining walls constructed within the subdivision by the Owner shall be designed and certified by a Wyoming registered professional engineer. The design(s) shall be submitted to the Public Services Director and Community Development Director for written approval before a building permit will be issued. Said walls shall be constructed within the boundaries of each lot and not on the property lines. Maintenance of said walls shall be the responsibility of each individual lot owner. Provided, however, retaining walls and fences shall not be constructed on any drainage easements, or on any other ways depicted on any other recorded instrument without the approval of the Public Services Director.

2.8 Water and Sewer:

All water and sewer improvements shall be constructed in full compliance with the Code as it exists at the time of construction, including, but not limited to the following requirements:

- a. Curb boxes shall be left behind the sidewalk in front of each lot and the Owner shall protect, during the subsequent course of developing the Addition, valve boxes and curb boxes from damage, and be wholly responsible for the repair and replacement to the Public Services Director's satisfaction of such that are damaged or destroyed. If the Owner shall fail or refuse to promptly repair or replace such boxes as required, the City may do so and charge the Owner directly for said cost. The Owner shall adjust said valve and curb boxes to finished grade, at the time the paving work is completed in the Addition.
- b. The Owner shall construct the necessary water lines and appurtenances up to and through the Addition. All work shall be in accordance with plans and specifications to be prepared by the Owner's engineer and approved in writing by the Public Services Director. Water line sizes shall be as determined by the Public Services Director.
- c. The Owner, at its cost, shall install water service lines in accordance with Code specifications to the property line so as to serve each lot or building site in the Addition.

- d. The Owner shall construct the necessary sewer lines up to and through the Addition. All work shall be in accordance with plans and specifications to be prepared by the Owner's engineer and approved in writing by the Public Services Director. Sewer sizes shall be as determined by the Public Services Director.
- e. The Owner, at its own cost, shall install sewer service lines, in accordance with Code specifications, to the property line so as to serve each lot or building site in the Addition.
- f. The Owner shall protect manhole covers and rings from damage in the course of constructing the line, and shall be solely responsible for repair or replacement to the Public Services Director's satisfaction. The Owner shall adjust such manhole rings and covers to finished grade. The Owner agrees to protect and save the City harmless from any loss or claim suffered by other sewer users to their real or personal property, and from personal injury or damages by reason of obstruction or damage to the sewer lines or any part thereof occasioned by present or future construction work on said Addition by the Owner. Said obligation shall continue until the sewer line and the system within the Addition is accepted by the Public Services Director by issuance of a "letter of acceptance." Provided, however, that acceptance of part of the system shall not relieve the Owner of the obligations herein imposed for the remaining improvements that have not been accepted within said Addition.
- g. Prior to the issuance of a building permit for any new structure, or prior to the issuance of a plumbing permit to connect existing buildings to the water and sewer systems, the then-existing water system investment charge (connection charge), sewer system investment charge (connection charge) and water meter charge shall be paid to the City. The Owner will also pay to the Central Wyoming Regional Water System Joint Powers Board the then current Regional Water System investment charge for each building to be served with water.
- h. All necessary water and sewer easements, in forms acceptable to the City, up to and through the subdivision shall be obtained by the Owner, which grant to the City the right of ingress and egress thereto for purposes of laying out, constructing, inspecting, maintaining and replacing water lines, sewer lines, its fire hydrants and other appurtenances.
- i. The Owner agrees to abide by all federal, state and local laws, rules and regulations regarding the use of its water and sewer facilities, and water and sewer service, including, but not limited to, the Federal Pretreatment Regulations and all the Code sections relating to industrial pretreatment.
- j. At such time as said water and/or sewer mains are installed by the Owner and a "letter of acceptance" is issued by the Public Services Director, the City shall pursuant to the Code, reimburse the Owner twice the difference in material cost between an eight (8) inch water and/or sewer main, or larger size if required by the development, and the required oversized main pursuant to the Code, as

amended. Such reimbursement will be determined by the City based upon its most recent applicable material costs at the time of the Agreement execution. Reimbursement will only be based on oversizing of water and sewer mains larger than the size required by system analysis and approved by the Public Services Director.

2.9 Easements for all Utilities, Bikeways and Pedestrian Pathways:

Easements for all utilities and future bikeway/pedestrian pathways and access, in recordable forms acceptable to the City, must be provided prior to application for a permit to construct being made to City.

2.10 Street and Traffic Signs and Controls:

Owner shall pay for the cost and installation of all necessary on and off-site street and traffic control signage, signs signifying the street names, street striping, crosswalk striping, and traffic calming devices, as determined by the Public Services Director in his sole discretion.

2.11 Security Requirements:

In addition to and separate from the security required for erosion control, Owner shall comply with all Code requirements for all other security and surety requirements as set forth in the Code, including, but not limited to the financial surety and security for the project, landscaping and warranty period.

2.12 Record Drawings:

- a. Owner shall submit "as-built" record documents for paving, drainage, water and sewer to City prior to the issuance of the certificate of occupancy. Reproducible hard copy drawings shall be in the form of one (1) set of 4 mil Mylar, 24" x 36" labeled as "Record Drawings" and dated. Record Drawings shall also be provided on electronic media in Adobe (pdf) format and in AutoCAD format or other format specified by Owner. Record documents shall be submitted on CDs, or other media as directed by Owner, labeled as "Record Drawings" and include the project name, City of Casper project number and date.
- b. All digital files necessary for correct plotting of the final record drawings in the AutoCAD version, such as external references, pen assignments, images, etc. shall be provided. Any x-refs or other files that can be, shall be incorporated into the final drawings to minimize the manipulation necessary for plotting.

2.13 Completion of Infrastructure Improvements Prior to Certificate of Occupancy:

All required on-site and off-site improvements shall be completed and approved by the Public Services Director prior to the issuance of the first certificate of occupancy unless otherwise designated in this Agreement.

2.14 Other Costs in Separate Agreements:

If any recapture costs, costs for a drainage basin or sub-basin wide stormwater management program are applicable to this Subdivision, those costs shall be allocated in a separate exhibit attached to this Agreement. Failure of any such exhibit to be attached to this Agreement shall not relieve the Owner of its obligation to pay its proportionate share of those costs.

2.15 Stormwater, Flooding and Letters of Map Revisions:

- a. Owner shall comply with and pay for all costs associated with any Stormwater Pollution Prevention Plan, Letter of Map Revision (LOMR), or other related requirements of Wyoming DEQ, Federal Emergency Management Agency (FEMA) or any other agency that has jurisdiction over the real property in impacted by this Agreement.
- b. Owner shall provide the City with copies of all Stormwater Pollution Prevention Plan elements as reviewed and approved by Wyoming DEQ; any LOMR, along with the necessary submittals to update flood mapping in accordance with FEMA requirements, and documentation of Base Flood Elevations.
- c. All requirements of this section shall be met prior to issuance of a permit to construct subdivision improvements.

SECTION 3 - OBLIGATIONS OF CITY

The City shall issue a building permit and certificate of occupancy for the buildings in the Addition upon performance by the Owner of the conditions set forth herein, and upon Owner's compliance with all applicable Code requirements. All building permits will be issued by the Community Development Director in accordance with the Code.

SECTION 4 - REMEDIES

In the event the Owner fails to do, or fails to cause to be done, any of the requirements set forth in this Agreement in an expeditious manner, the City may, at its option, do any or all of the following:

- a. Refuse to issue any building permits or certificates of occupancy to any person, including the Owner, or its heirs, successors, assigns and grantees.
- b. After written notice to the Owner of any public improvements which have not been completed or properly completed, and upon Owner's failure to cure the same within a reasonable period of time, the City may complete any and all of the public improvements required by this Agreement by

itself or by contracting with a third party to do the same. In the event the City elects to complete said improvements, or contracts with a third party to do so, the Owner agrees to pay any and all costs resulting therefrom upon demand by the City.

The remedies provided in this section are in addition to any other remedies specifically provided for in this Agreement, or which the City may otherwise have at law or in equity, and are not a limitation upon the same. The Owner further agrees to pay all reasonable attorneys' fees, court costs, and litigation costs in the event the City is required to enforce the provisions of this Agreement in a court of law.

SUBJECT: Resolution Approving a Deed Restriction Agreement for Lots 29-33, Block 6, North Casper Addition

Meeting Type & Date:

Regular Council Meeting, June 4, 2019.

Action Type:

Resolution.

Recommendation:

That Council, by resolution, approve a Deed Restriction Agreement for Lots 29-33, Block 6, North Casper Addition, to prevent the conveyance of a garage separately from the principal residence.

Summary:

Warren and Laura Gamble applied for, and were granted a Conditional Use Permit to construct a detached garage on lots contiguous with, and adjacent to their residence located at 1175 North Washington Street. The property consists of five (5) individual, platted lots zoned R-3 (One to Four Unit Residential). The home is situated on Lots 29, 30 and 31, and the proposed garage would be located on Lots 32 and 33.

Section 17.12.121(H) of the Municipal Code states:

“Where multiple lots of record have continuous frontage and are under single ownership, detached garages and/or accessory buildings may be constructed on a separate lot which is adjacent to and contiguous to the lot which the principal building is located, subject to all other requirements of this section and after approval of a Conditional Use Permit.”

The intent of the requirement is to ensure that garages are not conveyed separately from the principal dwelling. Detached accessory buildings, by definition, must always be associated with a residence, and are not permitted as standalone structures. As one of the conditions of approval, the Planning and Zoning Commission is requiring that the owners enter into a Deed Restriction Agreement in order to formally tie the lots together as a single unit.

Deed Restriction Agreement

DEED RESTRICTION AGREEMENT

This Deed Restriction Agreement (“Agreement”) is signed on this 4th day of June, 2019, by and between these parties:

1. The City of Casper, Wyoming (“City”), a Wyoming municipal corporation, 200 North David Street, Casper, Wyoming 82601

2. Warren Scott Gamble and Laura Ann Gamble (the “Owners”), husband and wife, 1157 North Washington, Casper, Wyoming 82601

Throughout this document, the City and the Owners may be collectively called the “parties.”

RECITALS

A. The Owners are the owners of Lots 29, 30, 31, 32 and 33, Block 6, North Casper Addition to the City of Casper, Natrona County, Wyoming, with all the improvements thereon, as evidenced by that Trustee’s Deed recorded with the Natrona County Clerk as Instrument No. 1037594 on October 5, 2017.

B. The Owners have a principal residence built on lots 29-31 of the above-enumerated lots.

C. The Owners want to construct a shop building (without a residence) across Lots 32-33 of the above-enumerated lots, and have applied for a conditional use permit to do so.

D. All of the above-enumerated lots of record are zoned R-3 (one to four unit residential), have continuous frontage, and are under single ownership; and, Lots 29-31 are adjacent and continuous to lots 32-33.

E. Under Casper Municipal Code Section 17.21.121 (H), when multiple lots of record have continuous frontage and are under single ownership, detached garages and/or accessory buildings may be constructed on a separate lot which is adjacent and continuous to the lot upon which the principal building is located, subject to all other Casper Municipal Code (“Code”) Requirements and after approval of a conditional use permit.

F. The purpose of Casper Municipal Code Section 17.21.121 (H) is to prevent an owner from conveying the lots with the garage or accessory building (in this case, a shop) separately from the principal residence; circumventing Code Section 17.21.121 (D) and (I), which require a residential building to be on-site before a garage or accessory building is allowed.

G. To safeguard compliance with Code Section 17.21.121 (H), a condition of the conditional use permit will be that the Owners must execute this Agreement to prevent selling the lots with the shop building separately from the principal residence.

NOW THEREFORE, in consideration of the covenants and conditions set forth herein to be performed, the parties agree:

1. INCORPORATION OF RECITALS

The recitals set forth above are hereby incorporated herein at this point as if fully set forth as part of this Agreement.

2. DEED RESTRICTION COVENANT

The Owners agree and covenant that for so long as Lots 32-33 have a shop (without a residence) on them, Lots 32-33 shall not be conveyed or transferred separately from Lots 29-31. All five (5) Lots must be sold as one (1) unit for so long as the shop exists. However, Lots 32-33 may be conveyed separately if Lots 32-33 have a residence on them; if the shop building on them is removed, or if the zoning applicable to the use of Lots 32-33 changes such that having a garage (without a residence) on Lots 32-33 is a conforming use. This covenant shall be binding upon and run with the land set forth herein.

3. BUILDING PERMIT

Upon approval of both a conditional use permit by the Planning and Zoning Commission and execution of this Agreement, the City agrees to issue a building permit for the shop building for Lots 32-33, all in accordance with the Casper Municipal Code.

4. GENERAL TERMS AND CONDITIONS

A. Wyoming Governmental Claims Act. The City does not waive any right or rights it may have pursuant to the Wyoming Governmental Claims Act, Wyoming Statutes Section 1-39-101 et seq., and the City specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

B. No Third Party Beneficiary Rights. The parties to this Agreement do not intend to create in any other individual or entity the status of third-party beneficiary, and this Agreement shall not be construed to create such status. The rights, duties and obligations in this Agreement shall operate only between the parties to this Agreement, and shall inure solely to the benefit of the parties to this Agreement. The parties to this Agreement intend and expressly agree that only parties signatory to this Agreement shall have any legal or equitable right to seek to enforce this Agreement, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Agreement, or to bring an action for the breach of this Agreement.

C. Governing Law and Venue: This Agreement, its interpretation and enforcement shall be governed and construed in accordance with the laws of the State of Wyoming. Any litigation

regarding this Agreement shall be resolved in a court of competent jurisdiction in Natrona County, Wyoming.

D. Complete Agreement. This Agreement represents the entire and integrated Agreement between the parties, and supersedes all prior negotiations, representations, or agreements, either written or oral. The Agreement may be amended only by written instrument signed by both parties.

E. Successors. This Agreement shall be binding upon the Owner's personal representatives, heirs, successors, and assigns.

IN WITNESS WHEREOF, the undersigned duly authorized representatives of the parties have executed this Agreement as of the day and year above.

SUBJECT: Authorizing a Cooperative Agreement with the Wyoming Department of Transportation for Construction Activities for the South Poplar Street and West 1st Street Utilities Project, No. 17-072

Meeting Type & Date

Regular Council Meeting

June 4, 2019

Action Type

Resolution

Recommendation:

That Council, by resolution, authorize a Cooperative Agreement with the Wyoming Department of Transportation (WYDOT) for construction activities for the South Poplar Street and West 1st Street Utilities Project, No. 17-072, in the amount of \$1,498,500.

Summary:

WYDOT is preparing to reconstruct South Poplar Street between West 1st Street and Collins Drive. This project includes replacement of the bridge over the North Platte River to include pedestrian sidewalks and reconstruction of the intersection at South Poplar Street and West 1st Street for additional turn lanes.

The City owns and maintains water and sewer mains within this project corridor that are over 25 years old and approaching the end of their service life. WYDOT was approached to include the replacement of these mains during their reconstruction operations. Utility replacements will include both the water and sanitary sewer mains currently strung beneath the Poplar Street Bridge, and relocation of the sanitary sewer lift station at the southeast corner of Poplar Street and West 1st Street. The cost to replace these utilities, including WYDOT's overhead and construction administration fees, is estimated to be \$1,498,500.

Under the terms of a cooperative agreement with WYDOT, WYDOT will acquire all necessary construction permits and easements necessary to complete the work and provide engineering services during construction. The cooperative agreement spells out the project limits, responsibilities of WYDOT and the City, and the funding arrangements.

Financial Considerations

The City's funding for this project will come from One Cent #16 funds allocated to water projects and from sewer fund reserves.

**COOPERATIVE AGREEMENT
BETWEEN THE
WYOMING DEPARTMENT OF TRANSPORTATION
AND THE
CITY OF CASPER**

State Project ARSCT N212A04

Poplar Street and West 1st Street
Natrona County

1. **Parties.** The parties to this Cooperative Agreement (Agreement) are the Wyoming Department of Transportation (WYDOT), whose address is 5300 Bishop Blvd., Cheyenne, Wyoming 82009, and the City of Casper (City), whose address is 200 North David Street, Casper, Wyoming 82601.
2. **Purpose of Agreement.** The purpose of this Agreement is to set forth the terms and conditions by which the City and WYDOT desire to participate in the construction of water and sanitary sewer mains. WYDOT has heretofore designated the location and the City has approved the location for the construction of the water and sanitary sewer mains beneath the Poplar Street Bridge and at the corner of Poplar Street and West 1st Street as shown on Exhibit "A", Location Map, which is attached to and incorporated into this Agreement by this reference. This Agreement is combined with WYDOT projects NHPP N212121, which involves modification of the intersection, and STP-E N212125, which involves decorative lighting, street trees and landscaping enhancements. WYDOT, the City, and the traveling public shall derive a benefit and advantage by reason of having the water and sanitary sewer mains constructed.
3. **Term of Agreement.** This Agreement is effective when all parties have executed it (Effective Date). The term of the Agreement is from the Effective Date through the completion of the project. All services shall be completed during this term.
4. **Participation of Project Costs**
 - A. The City agrees to pay WYDOT the entire actual cost of this project including all indirect costs through the current Indirect Cost Allocation Plan (ICAP) rate as approved by the Federal Highway Administration (FHWA), within forty-five (45) days after billing for the water and sanitary sewer mains, which estimated costs are more particularly set forth on the Exhibit "B", Cost Summary, which is attached to and incorporated into this Agreement by this reference. ICAP is a rate built into WYDOT's accounting system for overhead expenditures for administering a project. The ICAP rate is developed by WYDOT and approved by the FHWA, with the new rate taking effect immediately. The current rate of eleven percent (11%) is effective until September 30, 2020 at which time the rate

is subject to change based on FHWA approval. The ICAP rate will be charged on total direct costs on this project, as shown on the Exhibit "B".

- B. The costs shown on the Exhibit "B" are estimates only and the City understands that the final costs may be higher or lower. If the actual costs go over by twenty percent (20%) of the total estimated costs, both parties must agree and sign an amendment for the additional costs.
- C. WYDOT will bill the City on a monthly basis unless otherwise agreed upon between the parties.
- D. No payment shall be made for work performed before the Effective Date of this Agreement.

5. **Responsibilities of the Parties and General Conditions of Preliminary Engineering, Right-of-way Acquisition, Utility Adjustments, Letting, Construction Engineering, Construction and Maintenance.**

- A. The City, or an engineering consultant selected by the City, shall conduct preliminary survey work, engineering investigations, environmental and right-of-way studies and will develop final design plans and estimates necessary to construct the water and sanitary sewer mains for this project.
- B. WYDOT, or an engineering consultant selected by WYDOT, shall acquire all necessary construction permits and permanent easements necessary to construct the water and sanitary sewer mains shown on Exhibit "A". The City shall keep easements across private property in force for perpetuity.
- C. The City shall submit a letter to WYDOT designating a qualified project representative, at no cost to WYDOT, capable of making timely decisions and authorized to sign documents concerning the completion of water and sanitary sewer mains for this project.
- D. WYDOT agrees to make all arrangements for the adjustment and/or relocation of utilities in conflict with this project. Arrangements will be made by separate agreement(s) with the affected utility owner(s) not covered by this Agreement. Utility relocation costs will be pro-rated according to the most recent State, County or Municipal policies and regulations.
- E. The City shall be given the opportunity to approve the estimates prior to the advertisement of bids by WYDOT. Likewise, the City shall be asked to concur in the award of this project to the lowest qualified bidder. As a result of signing the letter of concurrence, the City agrees to the amended costs to match the actual bid amount. Said concurrence letter, which is incorporated into this Agreement by this reference, and Exhibit "B", shall become part of this Agreement.

- F. Upon completion and acceptance of this project, the City shall maintain, at its sole expense, all features constructed under this Agreement. Maintenance shall include all repairs necessary to keep the improvement in its functional constructed condition.
- G. Upon completion and acceptance of the project by WYDOT and the City, the City shall return, within thirty (30) days of WYDOT Resident Engineer's request, WYDOT's Acceptance Certificate, or any other required WYDOT documents. Once this Acceptance Certificate has been completed, all National Pollutant Discharge Elimination System (NPDES) General Permits related to the project will be transferred to the City. The City shall then be responsible for all storm water runoff on the project and storm water monitoring until a Notice of Termination (NOT) can be submitted for the project by the City. In the event petroleum contaminated soil or water is encountered on this project, the required work associated with mitigation of the contamination will become part of this project.

6. **General Provisions**

- A. **Amendments.** Any changes, modifications, revisions or amendments to this Agreement which are mutually agreed upon by the parties to this Agreement shall be incorporated by written instrument, executed by all parties to this Agreement.
- B. **Applicable Law, Rules of Construction, and Venue.** The construction, interpretation, and enforcement of this Agreement shall be governed by the laws of the State of Wyoming, without regard to conflicts of law principles. The terms "hereof," "hereunder," "herein," and words of similar import, are intended to refer to this Agreement as a whole and not to any particular provision or part. The City shall not use this Agreement, or any portion thereof, for collateral for any financial obligation without the prior written permission of WYDOT.

If and when the City receives a request for information subject to this Agreement, the City shall notify WYDOT within ten (10) days of such request and shall not release such information to a third party unless directed to do so by WYDOT.

Consistent with the express terms of this Agreement, the City shall be free from control or direction over the details of the performance of services under this Agreement. The City shall assume sole responsibility for any debts or liabilities that may be incurred by the City in fulfilling the terms of this Agreement and shall be solely responsible for the payment of all federal, state, and local taxes which may accrue because of this Agreement. Nothing in this Agreement shall be interpreted as authorizing the City or its agents or employees to act as an agent or representative for or on behalf of the State of Wyoming or WYDOT or to incur any obligation of any kind on the behalf of the State of Wyoming or WYDOT. The City agrees that no health or hospitalization benefits, workers' compensation, unemployment insurance or similar benefits available to State of Wyoming employees will inure to the benefit of the City or the City's agents or employees as a result of this Agreement.

South Poplar Street and West 1st Street Enhancements Project, No. 17-072

Meeting Type & Date

Regular Council Meeting

Action Type

Resolution

Recommendation:

That Council, by resolution, authorize a Cooperative Agreement with the Wyoming Department of Transportation (WYDOT) for construction activities for the South Poplar Street and West 1st Street Enhancements Project, No. 17-072, in the amount of \$400,000.

Summary:

WYDOT is preparing to reconstruct South Poplar Street between West 1st Street and Collins Drive. This project includes replacement of the bridge over the North Platte River to include pedestrian sidewalks and reconstruction of the intersection at South Poplar Street and West 1st Street for additional turn lanes.

Federal Surface Transportation On-System Enhancement funds, administered by WYDOT, have been allocated to the project. A portion of these funds were utilized to install decorative pedestrian lights on the Poplar Street Bridge over the BNSF railroad. The City of Casper is prepared to utilize the balance of these funds, \$265,000, augmented with the additional \$500,000 in 1%#16 funds allocated by council, to construct enhancements at the site. The exact enhancements are unknown at this time, but will likely involve the installation of decorative lighting, street trees, and landscaping. The City of Casper will enter into a separate contract with a landscape/engineering firm to design and oversee construction of the improvements. This contract will likely be in the neighborhood of \$100,000.

Under the terms of a cooperative agreement with WYDOT, WYDOT will acquire all necessary construction permits and easements necessary to complete the work and provide engineering services during construction. The cooperative agreement spells out the project limits, responsibilities of WYDOT and the City, and the funding arrangements.

Financial Considerations

The estimated cost for the improvements, including WYDOT's overhead and construction administration fees, is \$665,000. WYDOT's federal aid match for the enhancements covers

\$265,000. The City of Casper would be responsible for the remaining \$400,000. The City of Casper would also be responsible for the entire estimated design and construction administration fee of \$100,000.

The City's funding for this project will come from 1%#16 funds allocated to the project.

Natrona County

1. **Parties.** The parties to this Cooperative Agreement (Agreement) are the Wyoming Department of Transportation (WYDOT) whose address is 5300 Bishop Blvd., Cheyenne, Wyoming 82009, and the City of Casper (City) whose address is 200 North David Street, Casper, Wyoming 82601.
2. **Purpose of Agreement.** The purpose of this Agreement is to set forth the terms and conditions by which the City and WYDOT desire to participate in the On-System Enhancements Program which is federally funded and administered by WYDOT. WYDOT has heretofore designated the location and the City has approved the location for the construction of the enhancements in the City of Casper which will involve installation of decorative lighting, street trees and landscaping, as shown on the attached Location Map marked Exhibit "A", which is attached to and incorporated into this Agreement by this reference. This Agreement is for the City's portion only and is combined with WYDOT projects NHPP N212121, which involves modification of the intersection, and ARSCT N212A04, which involves the construction of water and sanitary sewer mains. WYDOT, the City, and the traveling public shall derive a benefit and advantage by reason of having the enhancements constructed.
3. **Term of Agreement.** This Agreement is effective when all parties have executed it (Effective Date). The term of the Agreement shall remain in full force and effect until terminated. All services shall be completed during this term.
4. **Participation of Project Costs:**
 - A. The City agrees to reimburse WYDOT for the project costs at the rate of nine and fifty-one hundredths percent (9.51%) of the cost of survey work, preliminary engineering, right-of-way acquisition, utility adjustments, letting, construction and construction engineering as shown on Exhibit "B", Cost Summary, which is attached to and incorporated into this Agreement by this reference. The City agrees to reimburse to WYDOT any funds above those authorized by WYDOT and matched by the City necessary to build this project. Any costs exceeding the two hundred sixty-five thousand dollars (\$265,000.00) maximum available federal funds authorized by WYDOT for this project will be borne by the City.

- B.** It is understood by the parties that the above-mentioned percentages may vary slightly during the life of this Agreement, as dictated by the *Federal Notices on Sliding Scale Rates of Federal Aid Participation in Public Lands States*. It is further understood by the City that the estimated costs may vary as the project plans are developed and let to contract and that the City shall reimburse WYDOT for the total amount not paid with federal funds.
- C.** The costs shown on the Exhibit “B” are estimates only and the City understands that the final costs may be higher or lower. Rates may vary for the life of this project based on federal reviews and approval. If the actual costs go over by twenty percent (20%) of the total estimated costs, both parties must agree upon and sign an amendment for the additional costs.
- D.** The City agrees to pay their portion of indirect costs through the current Indirect Cost Allocation Plan (ICAP) rate as approved by the Federal Highway Administration (FHWA), within forty-five (45) days after submission of invoice pursuant to Wyo. Stat. § 16-6-602 for the enhancements, which estimated costs are more particularly set forth on the Exhibit “B”. ICAP is a rate built into WYDOT’s accounting system for overhead expenditures for administering a project. The ICAP rate is developed by WYDOT and approved by the FHWA, with the new rate taking effect immediately. The current rate of eleven percent (11%) is effective until September 30, 2020 at which time the rate is subject to change based on FHWA approval. The ICAP rate will be charged on total direct costs on this project, as shown on the Exhibit “B”. WYDOT will bill the City on a monthly basis unless otherwise agreed upon between the parties.

No payment shall be made for work performed before the Effective Date of this Agreement.

- E.** This Agreement is required to comply with the Federal Funding Accountability and Transparency Act (FFATA) of 2006. As the prime recipient of these funds, WYDOT will report the required information to the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS). The FFATA requires any person or entity receiving contract or grant funds directly from the federal government to report certain information regarding those funds through a centralized website, www.fsr.gov. The law requires that you provide your Data Universal Numbering System (DUNS) number to WYDOT. This requirement means you must register with DUNS and Bradstreet. Instructions for this process can be found at www.dnb.com. Additional information regarding this Act may be found at the following sites:

and

<http://edocket.access.gpo.gov/2010/pdf/2010-22706.pdf>.

5. **Reimbursement.** The City hereby agrees to reimburse WYDOT for its share of actual costs incurred to the project, less previous payments, within forty-five (45) days after billing.

6. **Responsibilities of the Parties and General Conditions of the Survey Work, Preliminary Engineering, Right-of-way Acquisition, Utility Adjustments, Letting, Construction Engineering, Construction and Maintenance:**

WYDOT will assist the City in condemnation proceedings by preparing exhibits and displays. At its request, the City shall be provided a copy of the right-of-way plans and cost estimates when federal acquisition approval is requested. The City agrees to reimburse WYDOT for the total cost needed to clear the right-of-way not paid with federal aid funds. Under the terms of this Agreement, if right-of-way acquisition is not required for this project, all references to such acquisition herein are considered null and void.

The City shall then be responsible for all storm water runoff on the project and storm water monitoring until a Notice of Termination (NOT) can be submitted for the project by the City. In the event petroleum contaminated soil or water is encountered on this project, the required work associated with mitigation of the contamination will become part of this project.
 - H. Upon completion and acceptance of this project, the City shall maintain, at its sole expense, the enhancements in compliance with all applicable federal and state standards and regulations. Maintenance shall include all repairs necessary to keep the improvement in its functional constructed condition.
7. **Project Abandonment.** Should the City abandon the project at any time, or if the project is not let to construction within two (2) years of the completion of the design or prior to the completion, due to the delay or actions by the City, the City shall reimburse WYDOT for the entire cost, including any federal aid portion of the work completed at the time of abandonment.

effective date, the Consultant must purchase “extended reporting” coverage for a minimum of *three (3)* years after completion of contract work and at all times thereafter until the applicable statute of limitations runs.

8. *Verification of Coverage*

Consultant shall furnish the City with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Consultant’s obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

9. *Subconsultants*

Consultant shall require and verify that all subconsultants maintain insurance meeting all the requirements stated herein, and Consultant shall ensure that the City is an additional insured on insurance required from subconsultants.

E. Consultant agrees to indemnify the City, the City’s employees, elected officials, appointed officials, agents, and volunteers, and all additional insured and hold them harmless from all liability for damages to property or injury to or death to persons, including all reasonable costs, expenses, and attorney's fees incurred related thereto, to the extent arising from negligence, fault or willful and wanton conduct of the Consultant and any subconsultant thereof.

specifically reserves the right to assert any and all rights, immunities, and defenses it may have pursuant to the Wyoming Governmental Claims Act.

14. NO THIRD PARTY BENEFICIARY RIGHTS:

The parties to this Contract do not intend to create in any other individual or entity the status of third-party beneficiary, and this Contract shall not be construed so as to create such status. The rights, duties and obligations contained in this Contract shall operate only between the parties to this Contract, and shall inure solely to the benefit of the parties to this Contract. The parties to this Contract intend and expressly agree that only parties signatory to this Contract shall have any legal or equitable right to seek to enforce this Contract, to seek any remedy arising out of a party's performance or failure to perform any term or condition of this Contract, or to bring an action for the breach of this Contract.

WEST PLAINS ENGINEERING, INC.

Scope of Work

The project consists of an evaluation, recommendations, construction documents and construction administration services of the fire alarm systems for the Casper Events Center located in Casper Wyoming. The evaluation will look at the current fire alarm system and evacuation system per current life safety codes.

In general, this project will consist of an evaluation of the existing fire alarm system, recommendations for meeting current life safety codes in regards to the fire alarms system and implementation of a voice evacuation system. Existing fire alarm device locations will be reused in order to minimize the amount of new rough-in locations required for the system replacement. However, existing device locations will be examined with respect to current life safety code requirements, and may be relocated as necessary. More notification devices may also be required. WPE will also evaluate the current fire sprinkler service and fire pump system to see if a new service line would eliminate the need for the fire pump. The fire sprinkler system will have a general evaluation done in regards to possible system operation changes.

West Plains Engineering will make recommendations for the fire alarm and voice evacuation systems. We will develop electrical construction documents for the approved solutions.

West Plains Engineering will make recommendations on possible changes for the fire sprinkler entrance and system and provide construction drawings and a performance specification for approved changes.

Engineering services include electrical final alarm and voice evacuation design/contract documents, mechanical drawings for the service entrance and performance specifications on fire sprinkler system modifications, bid phase services and construction administration. Our scope will include development of the front-end bidding documents, forms and conditions of the contract, and General Requirements. We will assist the Owner in bid advertisement and reproduction of the final documents; advertising and printing costs will be either direct to the Owner or will be billed at cost.

Final design/contract document services include development of construction drawings and technical specifications.

Bid phase services include answering questions and preparing any necessary addenda. Construction phase services include shop drawing review, answering contractor questions and RFI's, preparation of any necessary change orders and review of operation and maintenance manuals and as-built drawings provided by the contractors. Change orders resulting from a change in scope, as requested by the Owner, will require additional fees.

Construction administration services also include visits to the project site to observe the work in progress, assist in the resolution of design related construction issues, and perform substantial completion observation of the work.

This proposal does not include an eleventh month inspection by an electrical engineer, but we will provide recommendations regarding any electrical issues identified by the Owner.

WEST PLAINS ENGINEERING, INC.

The pipe will connect on the east end near the intersection of Wolf Creek Road and 38th Street, and will connect on the west end at the existing pump station on Coates Road just south of CY Avenue. Construction of the improvements is to be substantially complete by May 15, 2020.

Progress payments shall be structured as provided below. All progress payments will be on the basis of the progress of the Work measured by the Schedule of Values provided for in Paragraph 14.01 of the General Conditions, subject to the cutoff and submittal dates provided in the Measurement and Payment Procedures.

5.1.1 Prior to payment of fifty percent (50%) of Total Contract Price, progress payments will be made in an amount equal to ninety percent (90%) of the Work completed, and ninety percent (90%) of Invoice Cost of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made so the current retainage is equal to ten percent (10%) of the Work complete.

- 5.1.2 After payment of fifty percent (50%) of Total Contract Price has been made, Contractor may request that the Owner withhold such amounts necessary so the total retainage is equal to five percent (5%) of the Total Contract Price with approval of the Project Engineer.
 - 5.1.3 In the event the Contractor makes only one application for payment upon substantially completing the Work, progress payment will be made in an amount equal to ninety percent (90%) of the Work completed. Owner shall withhold five percent (10%) of the work completed as retainage, said retainage to be paid in accordance with the provisions of Paragraph 5.2, Final Payment. The Contractor may request that the Owner only withhold such amounts necessary so the total retainage is equal to five percent (5%) of the Total Contract Price with approval of the Project Engineer.
 - 5.1.4 Should amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other item or purpose remain unpaid beyond the City's general credit policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this agreement.
- 5.2 OWNER may withhold progress payments if CONTRACTOR fails to submit an updated progress schedule with the application for payment as detailed in Section 01310 Progress Schedules.
- 5.3 Final Payment. Upon final completion and acceptance of the Work in accordance with Article 14 of the General Conditions, Engineer shall recommend payment and present Contractor's Final Application for Payment to the City. Pursuant to Wyoming State Statutes, final payment cannot be made until forty-one (41) days after publication of the first Notice of Completion.

ARTICLE 6. WITHHELD FUNDS.

Pursuant to Wyoming Statutes Section 16-6-701 et seq., withheld percentages for Contracts exceeding \$25,000.00 will be retained in an account in the name of the Contractor (except when specifically waived in writing by Contractor) which has been assigned to the Owner until the Contract is completely, satisfactorily, and finally accepted by the Owner. Unless a depository is designated by the Contractor in a written attachment hereto, the Contractor's signature hereon shall act as authority for the Owner to designate a retainage depository on behalf of the Contractor, for the purposes specified in Wyoming Statutes Section 16-6-704. The Contractor's signature hereon shall act as an assignment of the depository account to the Owner, as provided by Wyoming Statutes Section 16-6-701 et seq., whether the depository is designated by the Contractor or by the Owner.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

- 7.4 Contractor has correlated the results of all such observations, examinations, investigations, tests, reports, and data with the terms and conditions of the Contract Documents.
- 7.5 Contractor has given Engineer written notice of all conflicts, errors, or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by Engineer is acceptable to Contractor.

STANDARD FORM OF
AGREEMENT BETWEEN OWNER AND CONTRACTOR

THIS AGREEMENT is made between the City of Casper, 200 North David Street, Casper, Wyoming 82601, hereinafter referred to as the "Owner," and Wired Electric, LLC, 3741 Aspen Place, Casper, Wyoming 82604, hereinafter referred to as the "Contractor."

WHEREAS, the City of Casper desires to install an emergency power generator for the Hogadon Ski Basin waste water treatment plant (WWTP).

WHEREAS, the Contractor is able and willing to provide those services specified as the

Hogadon Ski Basin WWTP Generator, Project No. 18-095.

NOW, THEREFORE, it is hereby agreed as

follows: ARTICLE 1. WORK.

Contractor shall perform all the work required by the Contract Documents for the Hogadon Ski Basin WWTP Generator, Project No. 18-095, hereinafter referred to as the "Work."

ARTICLE 2. ARCHITECT/ENGINEER.

The Project has been designed by the West Plains Engineering who is hereinafter referred to as the "Engineer" and who is to act as Owner's representative, assume all duties and responsibilities and have the rights and authority assigned to Architect and/or Engineer in the Contract Documents in connection with completion of the Work in accordance with the Contract Documents.

ARTICLE 3. CONTRACT TIME.

- 3.1 The Work will be substantially completed by August 30, 2019, and ready for final payment in accordance with Article 14 of the General Conditions by September 6, 2019. Substantial Completion will be accepted once all utilities are installed and in working order, surfacing is replaced and the project site is returned to full normal vehicular and pedestrian traffic. Once Contractor has mobilized on-site and work has commenced, Contractor shall work continuously on-site, during the construction activities hours specified in these contract documents, until work is substantially complete. Contractor shall submit a comprehensive construction site and staging plan. No open excavations shall remain overnight.
- 3.2 Liquidated Damages. Owner and Contractor recognize that time is of the essence of this Agreement and that Owner will suffer financial loss if the Work is not substantially completed by the time specified in Paragraph 3.1 above, plus any extension thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not substantially completed on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty) Contractor shall pay Owner One Thousand Dollars

(\$1,000.00) for each day that expires after the time specified in Paragraph 3.1 for substantial completion. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining work within the time specified in paragraph 3.1 for completion and readiness for final payment or any proper extension thereof granted by Owner, Contractor shall pay Owner Five Hundred Dollars (\$500.00) for each day that expires after the time specified in paragraph 3.1 for completion and readiness for final payment. It is further agreed that such liquidated damages are not a penalty, but represent the parties' best estimate of actual damages.

ARTICLE 4. CONTRACT PRICE.

In Consideration of the performance of the work in accordance with the Contract documents for this Unit Price Contract, Owner shall pay Contractor in current funds a not-to-exceed total contract price of Fifty-Seven Thousand Four Hundred Fifty and 00/100 Dollars (\$57,450.00), subject to additions and deductions by Change Order approved by the Owner. The contract fee shall be based on materials actually furnished and installed and services actually provided based on the unit prices for the Base Bid.

ARTICLE 5. PAYMENT PROCEDURES.

Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed through the Engineer as provided in the General Conditions.

5.1 Progress Payments. Contractor's Applications for Payment, as recommended by Engineer, shall be submitted to City Engineering Staff on or before the 25th day of each month during construction, and Owner shall mail progress payments in the following month one day after the second monthly meeting of the Casper City Council. Progress payments shall be structured as provided below. All progress payments will be on the basis of the progress of the Work measured by the Schedule of Values provided for in Paragraph 14.01 of the General Conditions, subject to the cutoff and submittal dates provided in the Measurement and Payment Procedures.

5.1.1 Prior to payment of fifty percent (50%) of Total Contract Price, progress payments will be made in an amount equal to ninety percent (90%) of the Work completed, and ninety percent (90%) of Invoice Cost of materials and equipment not incorporated in the Work but delivered and suitably stored, less in each case the aggregate of payments previously made.

5.1.2 After payment of fifty percent (50%) of Total Contract Price has been made, Owner shall withhold such amounts necessary so the total retainage is equal to five percent (5%) of the Total Contract Price.

5.1.3 In the event the Contractor makes only one application for payment upon substantially completing the Work, progress payment will be made in an amount equal to ninety-five percent (95%) of the Work completed. Owner shall withhold five percent (5%) of the work completed as retainage, said retainage to be paid in accordance with the provisions of Paragraph 5.2, Final Payment.

- 5.1.4 Should amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other item or purpose remain unpaid beyond the City's general credit policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this agreement.
- 5.2 OWNER may withhold progress payments if CONTRACTOR fails to submit an updated progress schedule with the application for payment as detailed in Section 01310 Progress Schedules.
- 5.3 Final Payment. Upon final completion and acceptance of the Work in accordance with Paragraph 14.13 of the General Conditions, Engineer shall recommend payment and present Contractor's Final Application for Payment to the City. Pursuant to Wyoming State Statutes, final payment cannot be made until forty-one (41) days after publication of the first Notice of Completion.

ARTICLE 6. WITHHELD FUNDS.

Pursuant to Wyoming Statutes Section 16-6-701 et seq., withheld percentages for Contracts exceeding Twenty-Five Thousand Dollars (\$25,000.00) will be retained in an account in the name of the Contractor (except when specifically waived in writing by Contractor) which has been assigned to the Owner until the Contract is completely, satisfactorily, and finally accepted by the Owner. Unless a depository is designated by the Contractor in a written attachment hereto, the Contractor's signature hereon shall act as authority for the Owner to designate a retainage depository on behalf of the Contractor, for the purposes specified in Wyoming Statutes Section 16-6-704. The Contractor's signature hereon shall act as an assignment of the depository account to the Owner, as provided by Wyoming Statutes Section 16-6-701 et seq., whether the depository is designated by the Contractor or by the Owner.

ARTICLE 7. CONTRACTOR'S REPRESENTATIONS.

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

- 7.1 Contractor has familiarized himself with the nature and extent of the Contract Documents, Work, locality, and with all local conditions and federal, state, and local Laws and Regulations that in any manner may affect cost, progress, or performance of the Work.
- 7.2 Contractor has studied carefully all reports of investigations and tests of subsurface and latent physical conditions at the site or otherwise affecting cost, progress, or performance of the work which were relied upon by Engineer in the preparation of the Drawings and Specifications and which have been identified in the Supplementary Conditions.
- 7.3 Contractor has made or caused to be made examinations, investigations, and tests and studies as he deems necessary for the performance of the Work at the Contract Price, within the Contract Time, and in accordance with the other terms and conditions of the Contract Documents; and no additional examinations, investigations, tests, reports, or similar data are or will be required by Contractor for such purposes.

- 7.4 Contractor has correlated the results of all such observations, examinations, investigations, tests, reports, and data with the terms and conditions of the Contract Documents.
- 7.5 Contractor has given Engineer written notice of all conflicts, errors, or discrepancies that he has discovered in the Contract Documents and the written resolution thereof by Engineer is acceptable to Contractor.

- 8.1 This Agreement (Pages SFA-1 to SFA-6, inclusive).
- 8.2 Joint Account Agreement or Letter of Forfeiture waiving same.

SUBJECT: Authorizing a Funding Agreement in the amount of \$32,200 with the Central Wyoming Regional Water System Joint Powers Board (RWS) for Construction Services for the RWS Caisson Recharge Channel Intake Piping Extension Project.

Resolution

Recommendation

That Council, by resolution, authorize a funding agreement in the amount of \$32,200 with the RWS for construction service charges for the RWS Caisson Recharge Channel Intake Piping Extension Project.

Summary

The City of Casper completed the North Platte River Restoration Project adjacent to the RWS Morad wellfield in 2017. A change in river channel geometry and creation of a backwater wetland resulted in stagnant water near the existing recharge intake directly west of the WTP on the west side of the river. The recharge channel intake pipe now needs to be extended approximately 200 feet so that it receives water clear of mud, silt, and other potential pollutants.

71 Construction, Inc. is under contract with the RWS to construct the North Platte River Exposed Waterline Repair Project. At its May 21, 2019 Joint Powers Board meeting, the RWS executed Change Order No. 1 to the water line repair project to enable completion of the intake piping extension project.

This proposed funding agreement serves as a mechanism for transferring Casper river project funding to the RWS to cover the costs associated with the intake piping extension project.

Financial Considerations

Upon consummation of this funding agreement, the City of Casper will pay \$32,200 to the RWS.

Recommendation
That Council, by minute action, authorize the purchase of one (1) new dedicated turf sprayer, from Midland Implement Co., Billings, Montana, to be used in the Golf Division of the Parks and Recreation Department, in the total amount of \$52,636.00.

Summary
On May 13, bids were publicly opened for one (1) new dedicated turf sprayer, two (2) bids were received. The dedicated turf sprayer will be utilized by golf course crews for treating all ornamental and noxious weeds and also applying liquid fertilizers where needed. Spraying is performed throughout the season at the golf course.

There is no trade for the new sprayer. In the past, a spray trailer was used to accomplish all spraying on the golf course. The trailer was pulled by a small utility vehicle leaving the crew without a transportation vehicle while the course was being treated. A dedicated sprayer will allow other vehicles to still be used while spraying is taking place. The spray trailer is no longer in working order due to its age and unavailability of replacement parts.

As required by Wyoming State Statute 15-1-113(b), a bid notice was published in a local newspaper once a week for a minimum of two (2) consecutive weeks. The bids were as follows:

<u>Bid Item</u>	<u>Vendor</u>	<u>Bid Amount</u>	<u>Trade</u>	<u>Net Cost</u>
(1) New Sprayer Toro 5800G	Midland Implement Billings, MT	\$52,636.00	NA	\$52,636.00

<u>Bid Item</u>	<u>Vendor</u>	<u>Bid Amount</u>	<u>Trade</u>	<u>Net Cost</u>
(1) New Sprayer Smithco 3180	Stotz Equipment Casper, WY	\$59,850.00	NA	\$59,850.00

The recommended purchase of the dedicated turf sprayer from Midland Implement Co., Billings, MT complies with the intent of all specifications.

Financial Considerations

This purchase was approved in the FY19 adopted budget and is funded by One Cent capital.

Oversight/Project Responsibility

This purchase will be made by Dan Coryell, Fleet Manager, with oversight being transferred to Randy Norvelle, Parks Manager in the Parks and Recreation Department, after the equipment is received.

Recommendation

That Council, by minute action, authorize the purchase of one (1) three-quarter-ton cab and chassis pickup, from Greiner Ford, Casper, Wyoming, to be used in the Water Distribution Division of the Public Services Department, in the total amount of \$26,649.00.

Summary

On May 13, bids were publicly opened for one (1) three-quarter ton cab and chassis pickup truck. Four (4) bids were received from two (4) Wyoming vendors. This vehicle will be used for transporting employees, equipment, tools and supplies, as well as towing large equipment (backhoe and skid steer) to water repair sites around the city.

The trade for this vehicle is a 2008 Ford F350 with a utility bed. The 2008 Ford F350 meets all criteria for replacement that includes repair and maintenance costs, age, and mileage.

As required by Wyoming State Statute 15-1-113(b), a bid notice was published in a local newspaper once a week for a minimum of two (2) consecutive weeks. The bids were as follows:

Recommendation

That Council, by minute action, authorize the purchase of one (1) one-ton cab and chassis pickup with platform bed, from Greiner Ford, Casper, Wyoming, to be used in the Water Distribution Division of the Public Services Department, in the total amount of \$47,063.00.

Summary

On May 13, bids were publicly opened for one (1) three-quarter ton pickup truck with platform bed. Three (3) bids were received from two (2) Wyoming vendors. All vendors made an exception to bid a full one-ton instead of a three-quarter-ton pickup truck due to the weight of the platform bed. A one-ton chassis is required for this application due to the weight of the crane that will be attached and then certified for DOT weight requirements, as well as the large equipment (backhoe and skid steer) that is trailered and towed to water repair sites around the city.

The trade for this vehicle is a 2008 Ford F250 with a utility bed. The crane that was used on this vehicle will be removed and transferred over to the new vehicle. The 2008 Ford F250 meets all criteria for replacement that includes repair and maintenance costs, age, and mileage.

As required by Wyoming State Statute 15-1-113(b), a bid notice was published in a local newspaper once a week for a minimum of two (2) consecutive weeks. The bids were as follows:

<u>Bid Item</u>	<u>Vendor</u>	<u>Bid Amount</u>	<u>Trade</u>	<u>Net Cost</u>

(1) One-Ton 2019 Ford F350	Fremont Motors Sheridan, WY	\$52,679.00	\$3,000.00	\$49,679.00

The recommended purchase for the one (1) one-ton cab and chassis pickup with platform bed from Greiner Ford, Casper, WY complies with the intent of all remaining specifications.

This purchase was approved in the FY19 adopted budget and is funded by the water fund.
