SUBJECT: Public Hearing for Consideration of an Ordinance approving a vacation and replat creating Central Services Addition No. 2

Meeting Type & Date:

Regular Council Meeting, March 16, 2021

Action Type:

First reading of ordinance, and a public hearing

Recommendation:

That Council, by ordinance, approve a vacation and replat creating Central Services Addition No. 2.

Summary:

The City of Casper, as property owner, is the applicant for the proposed vacation and replat creating the Central Services Addition No. 2. The sole purpose of the replat is to create a new eighty (80) foot wide right-of-way/street, to be known as Memorial Way. Memorial Way continues from the Central Services Addition No. 2, east, to connect to the VA Cemetery Road in Evansville, with the purpose of providing a secondary means of access/egress for Evansville. Presently, the Town of Evansville only has a single-point of ingress/egress, located at Curtis Street, just north of the Interstate. The Curtis Street access is vulnerable, in that it could become impassable if there were an accident within the rail corridor, thereby cutting off the Town. Construction of the secondary access road is planned for the summer of 2021.

The Planning and Zoning Commission voted to support the vacation and replat after a public hearing on February 18, 2021. There were no public comments either for or against the case.

MEMO TO: J. Carter Napier, City Manager 
FROM: Tom Pitlick, Financial Services Director 
SUBJECT: Amendment to the Fiscal Year 2021 Budget

Meeting Type & Date

Regular Council Meeting
March 16, 2021

Action Type

Public Hearing
Resolution

Recommendation

That Council, by Resolution, authorize an amendment to the Fiscal Year 2021 Budget.

Summary

The Municipal Budget Act, Section 16-4-108, prohibits the expenditure or encumbrance of any money in excess of the amounts provided in the budget for each department. To comply with this requirement, City Council may authorize an adjustment of budgets.

The budget amendment being proposed would be the fourth amendment to the originally adopted Fiscal Year 2020-2021 budget. If approved, this amendment would add \$23,104,409 of additional expenditure authority to the budget. For the purpose of a summary analysis, the proposed amendment is divided into the following seven categories:

Transfers of existing financial resources between Funds

\$12,775,152 will be covered through the transfer of existing dollars between Funds. Much of this amount involves transactions related to the newly created Cares Act Fund. Creation of this fund was authorized by Council on December 15, 2020, in order to maintain a clear accounting record of expenditures and grant reimbursements associated with the COVID 19 virus. Prior to the creation of the Cares Act Fund, the \$11M+ in reimbursements already received had been deposited into the General Fund. This amendment will move those deposits from the General Fund into the Cares Act Fund. In addition, some COVID related expenditures had been paid from the General Fund for which a transfer of grant dollars from the Cares Act Fund back to the General Fund would be appropriate.

Council authorized projects/disbursements

\$4,586,196 is required to cover the costs of projects and disbursements for which Council direction has previously been given and budget expenditure authority is needed. Specific items, and the recommended funding source, in this category are:

- \$2,681,795 for City Hall Project Safe. Funding will come from a transfer of existing financial resources in the Revolving Land Fund (\$890k); the LAD Fund (\$1,677,306); and residual 1% #16 dollars allocated for this purpose.
- \$1,250,000 for the purchase of two Fire-EMS vehicles. Funding will be from 1% #16 dollars allocated for this purpose.
- \$482,404 for employee recompense associated with the Voluntary Unpaid Days/Furlough program implemented during the first half of this fiscal year, as previously authorized by Council. Funding will be from Cares Act grant receipts.
- \$171,997 to enable the Ford Wyoming Center to allow furloughed employees to return to work immediately and return salaries to normal levels. Funding will be from Cares Act grant receipts.

Prior year approved transfers

\$4,552,023 for previously approved budget transfers. These budget transfers were authorized in the passage of fiscal year 2020 budget amendments but, for various reasons, the actual transfer of the funds never occurred within that year. These transfers must now be re-authorized in this fiscal year so that the funds can be made available for the intended purposes.

FY '20 Carry Over Purchases

\$442,901 for fiscal year 2020 authorized purchases. The following items were approved for purchase in the fy '20 budget year but funds were not spent or encumbered by fiscal year end. Funds must now be re-appropriated in fy '21 for authorized expenditure:

- \$353,673 for Striper Truck
- \$ 89,228 to equip police vehicles with communication technology equipment

Budgetary adjustments

\$319,211 is the net amount being requested to cover budgetary shortfalls caused by unanticipated and higher than expected expenditures. The net amount includes a budgetary reduction of \$347,166 caused by over budgeting for a project.

- \$385,000 to cover the costs of catastrophic claims expense associated with City vehicle/property damage. Insurance reimbursements of \$352,000 are anticipated with the remaining \$33,000 to be covered by existing Property & Liability Fund reserves.
- \$176,500 to cover the cost of higher than anticipated truck and equipment repairs in the Refuse Fund. Funding will be from existing Refuse Fund reserves.
- \$104,877 other misc. adjustments
- (\$347,166) budgeted expense reduction. Fy'21 budgeted expense for project was overstated.

New projects

\$270,000 is included to provide funding for the following projects that were part of the fy '22 capital budget plan but, due to the critical need for timely completion, are being requested in the fy '21 budget:

- \$130,000 to cover the cost of air handling unit replacements at the City owned Senior Center building. Funding will be from existing capital reserves.

- \$70,000 for installation of roll-up garage doors at the 19th Hole. Funding will be from existing Golf Fund reserves.
- \$70,000 for the purchase of call center software to improve tracking and management of customer telephone calls. Funding will be from transfers of existing financial resources in the Water, Sewer, and Refuse Funds.

New Appropriations with offsetting revenues

\$158,926 for unbudgeted expenditures for which there is offsetting revenues:

- \$134,000 Coates Road LAD (\$67,000 from Natrona County; \$67,000 private)
- \$ 10,000 AV system upgrades (funding provided through franchise fees)
- \$ 8,326 EUDL overtime expense (funded through EUDL grant)
- \$ 6,600 African American Cultural Study (offsetting grant revenue)

FROM: John Henley, City Attorney 

SUBJECT: An Ordinance Repealing Ordinance No. 54-00 as Codified by Article IV, Chapter 9.40 of the Casper Municipal Code and Creating a New Article IV of Chapter 9.40 of the Casper Municipal Code Titled "Sale of Nicotine Products"

Meeting Type & Date

Council Meeting
March 16, 2021

Action type

Third Reading of Ordinance (postponed on March 2nd to March 16th)

Recommendation

Consider and discuss each of the proposed amendments and decide if the proposed Ordinance should be passed and adopted on Third Reading.

Summary

The concern raised at the last Council meeting, where there was substantive discussion on the proposed ordinance, focused on the lack of any real incentive or ability to help those under the age of eighteen (18) enroll in a nicotine education/cessation program.

I. Information

Tobacco products and their derivatives are addictive, and can cause significant illness and disease. Addiction in the adolescent age group is particularly troublesome; neural pathways are being developed, skewing the individual's ability to make an unbiased "use or not use" decision later in life.

When a person indulges in addictive behavior, their brain floods with dopamine. Dopamine release is not only highly rewarding, it also increases the ability to learn this happened so you can feel this way again. As the behavior is performed again and again, the level of dopamine release decreases, and increased or more powerful use is necessary to obtain the same effect. Eventually, tolerance may build to such a point that the addictive behavior no longer provides pleasure at all—merely avoidance of withdrawal. But even in the face of diminished rewards, the

neural pathways beg for the repetition of the behavior; the brain is now built for addiction. (Kvarnstrom, E., *Alta Mira Recovery* © 2015)

Multiple sources have reached the same conclusion:

“Tobacco use typically begins in childhood or adolescence — 80% of smokers begin smoking by 18 years of age.⁶⁴ Although two thirds of young people try cigarette smoking, only 20 to 25% of them become dependent daily smokers, usually as adults.⁶⁵ Risk factors for smoking in childhood or adolescence include peer and parental influences, behavioral problems (e.g., poor school performance), personality characteristics (rebelliousness, risk taking, depression, and anxiety), and genetic influences.⁶⁴ The risk of dependence increases when smoking begins early.”(Benowitz, Neal, M.D., *N. Engl. J. Med.*, 2010, June 17.)

Cigarette smoking remains a leading cause of preventable disease and premature death in the United States and other countries. On average, 435,000 people in the United States die prematurely from smoking-related diseases each year; overall, smoking causes 1 in 5 deaths. The chance that a lifelong smoker will die prematurely from a complication of smoking is approximately 50%.

Tobacco use is a major cause of death from cancer, cardiovascular disease, and pulmonary disease. Cigarette smoking is also a risk factor for respiratory tract and other infections, osteoporosis, reproductive disorders, adverse postoperative events and delayed wound healing, duodenal and gastric ulcers, and diabetes. (Benowitz, Neal, M.D., *N. Engl. J. Med.*, 2010, June 17.)

The combination of the physiological response with the adolescent behavioral component, puts adolescents at particular risk.

Risk taking and novelty seeking are hallmarks of typical adolescent behavior. Adolescents seek new experiences and higher levels of rewarding stimulation, and often engage in risky behaviors, without considering future outcomes or consequences. These behaviors can have adaptive benefits with regard to the development of independence and survival without parental protection, but also render the adolescent more vulnerable to harm. Indeed, the risk of injury or death is higher during the adolescent period than in childhood or adulthood, and the incidence of depression, anxiety, drug use and addiction, and eating disorders increases. Brain pathways that play a key role in emotional regulation and cognitive function undergo distinct maturational changes during this transition period. (Ann N Y Acad Sci., 2004 June; 1021: 27-32.)

Comparing smoking behavior of adolescents to that of adults may point to an enhanced sensitivity of the adolescent brain to the addictive properties of nicotine. Adolescents report symptoms of dependence even at low levels of cigarette consumption (Colby et al. 2000; Kandel and Chen 2000). The most susceptible youth lose autonomy over tobacco intake already within 1 or 2 days of first inhaling from a cigarette. Among adolescents the appearance of tobacco withdrawal symptoms and failed attempts to stop smoking can precede daily smoking dependence and appear even before consumption reaches two cigarettes per day (DiFranza et al. 2007). . .

The vulnerability to the rewarding effects of nicotine during adolescence may be explained by adolescent brain development. Structural and functional MRI data show earlier maturation of reward systems and much slower development of prefrontal cognitive control (Spear 2000; Chambers et al. 2003; Casey et al. 2005; Ernst et al. 2005; Ernst and Fudge 2009).

Compared with adults, adolescents are generally more motivated by rewards, are less averse to risks, and are more easily influenced by peers (Spear 2000; Steinberg 2005; Galvan et al. 2006). The same applies to estimation of health risks of smoking—adolescents have a more optimistic attitude regarding their smoking behavior than adults, believing that they “could smoke for a few years and then quit” if they wished (Arnett 2000). Lack of mature cognitive control in adolescents makes them also more susceptible to social pressure. The smoking behavior of parents, siblings, and friends leads to a higher risk of smoking among adolescents and this social influence decreases with age (Vink et al. 2003). Adolescents with ADHD symptoms, whose behavior is even more characterized by impulsive and risk-taking choices, are more likely to experiment with smoking and to become regular tobacco users (Tercyak et al. 2002; McClellon et al. 2008). II. Analysis of Statutes

The phrase “further regulation” and the word “standards”

The statute titled “Further regulation by local ordinance,” is important. On the one hand it is generous:

W.S. § 14-3-308 (a):

“Except as specified under subsection (b) of this section, this article shall not be construed to prohibit the imposition by local law or ordinance of further regulation or prohibition upon the sale, use and possession of nicotine products to any person under twenty-one (21) years of age in violation of this article.”

From this, the Legislature anticipated that localities may want to and could impose further regulation.

However, the statute’s constraint upon localities (W.S. § 14-3-308(b)), in addressing the purchase, use, and possession of nicotine products prohibits changes to the “standards” provided within sections 14-3-304(a) and 14-3-305(a). The referenced sections state:

W.S. § 14-3-308(b):

“No governmental entity shall enact any law or ordinance which changes the standards provided by W.S. 14-3-302(a) and (c), 14-3-303(a), 14-3-304(a) and 14-3-305(a).”

W.S. § 14-3-304(a):

“No person under the age of twenty-one (21) years shall purchase or attempt to purchase nicotine products, or misrepresent his identity or age, or use any false or altered identification for the purpose of purchasing or attempting to purchase nicotine products. A person shall not be arrested for an alleged violation of this subsection but shall be issued a citation as a charging document by a peace officer having probable cause to believe the person violated this subsection. An officer issuing a citation shall deposit one (1) copy of the citation with the court having jurisdiction over the alleged offense. Bond may be posted and forfeited for an offense charged under this section in an amount equal to the fine imposed by subsection (b) of this section.”

W.S. § 14-3-305(a):

“It is unlawful for any person under the age of twenty-one (21) years to possess or use any nicotine products. A person shall not be arrested for an alleged violation of this subsection but shall be issued a citation as a charging document by a peace officer having probable cause to believe the person violated this subsection. An officer issuing a citation shall deposit one (1) copy of the citation with the court having jurisdiction over the alleged offense. Bond may be posted and forfeited for an offense charged under this section in an amount equal to the fine imposed by subsection (b) of this section.”

The word “standards” in this context seems to mean a criterion, gauge or yardstick; described as a measure established by authority. In this context, the phrase “high standards” comes to mind, e.g. do not diminish the high standards that have been set.

Of note, the Legislature only referred to subparagraphs (a) in both statutes, not paragraphs (b), establishing the punishment, not paragraphs (c), providing for alternative punishments and not paragraphs (d), discussing conviction and expungement.

Thus the framework that would permit Casper to focus on emphasizing education, with the goal of promoting nicotine cessation, should not diminish the standards contained within the quoted subparagraphs (a) above and should incorporate the principles that form the basis for the State’s statutory scheme.

III. Proposed Amendments

The proposed amendments address modification of the punishment to violations of the possession, purchase, and use of tobacco or nicotine products for persons under the age of (18) eighteen.

In the suggested amendments, the punishment for the first violation is to attend a nicotine education and cessation course approved by the Municipal Court. There would be a small fee for the course to reduce the number of no shows, no greater than twenty-five dollars (\$25.00).

If there were a second violation, a different class, a substance use/intervention class would be required. There would be a small fee for the course, no greater than twenty-five dollars (\$25.00).

For the third and subsequent violations, the persons under the age of eighteen (18) would need to perform between ten to twenty (10-20) hours of community service, as determined by the Court. The imposition of the customary ten dollars (\$10.00) in Court costs could be imposed as determined by the Court.

The rationale of the suggested amendments, do not diminish the standards referenced by the statutes, and the principle of affordable punishment is respected and incorporated.

IV. Background

On July 1, 2020, Wyoming State Statutes § 14-3-301 *et. seq.*, went into effect; these Statutes, which were passed by the Legislature and are the controlling law, prohibit the sale of nicotine products to persons under the age of twenty-one (21) years old, as well as the purchase, possession and use of nicotine products by persons under the age of twenty-one (21) years old.

The current Ordinance is extremely outdated; it was adopted over twenty (20) years ago, and does not address new types of vaping products, and similar products, that have since become available.

The proposed ordinance significantly incorporates the State Statutes, which recently became effective.

The proposed ordinance incorporates punishments that are consistent with the punishments included in the statutes. As shown on the graph below, the fine increases would affect businesses who violate the ordinance in terms of certain notices required to be posted by businesses, as well as employees who sell or deliver nicotine products to individuals under twenty-one (21) years of age.

Punishments for prohibited purchase, possession, and use by individuals would decrease significantly if the proposed ordinance is adopted.

V. History and Comparison

Under the current Ordinance a fine for a second or third violation can be imposed if a subsequent violation occurred within one year. The proposed Ordinance would set the time period two years from the subsequent violation.

The proposed Ordinance introduces a new expungement provision (consistent with the State Statute) for persons who plead guilty to, or are convicted of underage purchase, use, or possession of nicotine products; upon satisfaction of the punishment there is an automatic expungement of convictions from the Court record after six (6) months of entry of conviction.

A full copy of the proposed Ordinance is attached to this Memo. The current Casper Code is published online by MuniCode and can be accessed by the public.

Financial Considerations

Increased punishment for individuals who sell or deliver nicotine products to persons twenty (20) years old and under. Decrease in punishment for persons twenty (20) years old and under for purchasing, possessing and using nicotine products.

(a) No individual shall sell, offer for sale, give away or deliver nicotine products to any person under the age of twenty-one (21) years.

(b) Any individual violating W.S. 14-3-309 or subsection (a) of this section is guilty of a misdemeanor punishable by a fine of not more than:

(i) Two hundred fifty dollars (\$250.00) for a first violation committed within a twenty-four (24) month period. The court may allow the defendant to perform community service or attend a tobacco or nicotine cessation program and be granted credit against his fine and court costs at the rate of ten dollars (\$10.00) for each hour of work performed or each hour of tobacco or nicotine cessation program attended;

(ii) Five hundred dollars (\$500.00) for a second violation committed within a twenty-four (24) month period, regardless of the locations where the violations occurred. The court may allow the defendant to perform community service or attend a tobacco or nicotine cessation program and be granted credit against his fine and court costs at the rate of ten dollars (\$10.00) for each hour of work performed or each hour of tobacco or nicotine cessation program attended;

(iii) Seven hundred fifty dollars (\$750.00) for a third or subsequent violation committed within a twenty- four (24) month period, regardless of the locations where the violations occurred. The court may allow the defendant to perform community service and be granted credit against his fine and court costs at the rate of five dollars (\$5.00) for each hour of work performed.

(c) No retailer shall sell, permit the sale, offer for sale, give away or deliver nicotine products to any person under the age of twenty-one (21) years.

(d) Any person violating subsection (c) of this section is guilty of a misdemeanor punishable by a fine of not more than:

SECTION 1 – INCORPORATION OF RECITALS

The recitals set forth above are incorporated at this point as if fully set forth as part of this Agreement.

SECTION 2 - OBLIGATIONS OF OWNER

Upon written demand of the Council or the City Manager, the Owner, its heirs, successors, grantees or assigns, at their sole cost and expense, shall do, or cause to be done, the following:

2.1 Surveying:

- a. All subdivision corners shall be marked with 3¼ brass caps. These caps shall show the name of the surveyor or company making the survey, and the license number of the surveyor making the survey or certifying the survey. All PLSS corners shall be properly marked for identification as to the location in accordance with Wyoming Statutes and Rules and Regulations of the Wyoming Board of Registration for Professional Engineers and Professional Land Surveyors, shall be referenced if subject to destruction, and again shall show the proper identification and license of the certifying surveyor. A corner record shall be recorded as per Wyoming Statutes and Rules and Regulations of the Wyoming Board of Registration for Professional Engineers and Professional Land Surveyors. A copy will be provided to the City upon recordation.
- b. Block and Lot corners, points of tangency (PT's) and points of curve (PC's) of all curves shall be marked by an iron pin not less than five-eighths (5/8) inches in diameter and not less than twenty-four (24) inches in length, with a brass or aluminum cap not less than 2 and one-half (2½) inches in diameter securely fastened to the top, unless otherwise impractical. These monuments will be set prior to the recording of the plat in the Office of the County Clerk unless approved by the City Surveyor.
- c. Said corners shall be in place for final inspection by the Public Services Director upon completion of the sidewalk (curbwalk), or curb and gutter.
- d. A digital copy of the Final Subdivision Plat shall be provided to the City, as required by the Casper Municipal Code ("Code"). No building permit shall be issued prior to the recording of the plat.

2.2 Construction Sequence:

Main water lines, sewer lines, storm sewer, streets, sidewalks, pavement overlays, and access drives shall be constructed in an orderly sequence, as the Addition is developed and built upon, so that there will be no gaps left in the paving, sidewalks, and other off-site improvements. Streets shall not be paved until all water lines, storm sewers, and property water and sewer services are in place and the ditches thereof properly backfilled and compacted, in accordance with City requirements. The Owner shall receive the approval of the Public Services Director prior to commencing any and all phases of construction.

2.3 Certification of Construction; Repair Obligations:

- a. All improvements shall be designed and inspected by a Wyoming registered professional engineer, who shall certify that the improvements, including, but not limited to, streets, curbs, gutter, sidewalks, paving, parkways, utility systems, storm sewers, street lighting, street signs and striping, etc., have been constructed in accordance with plans and specifications approved by the Public Services Director. The certification by the engineer and approval by the City shall be in writing. Approval of the construction plans by the Public Services Director is required before a building permit will be issued by the City.
- b. The Owner shall maintain, repair, and replace all improvements that fail within the warranty period as provided by the Code. This obligation includes maintenance, repair or replacement for any cause during such period, including acts of subcontractors. In the event the Owner fails to maintain, repair, or replace said improvements, the City shall have the right but not the obligation, at its option, to maintain, repair, or replace the same and Owner agrees to pay for any cost incurred thereby. Maintenance, repair, or replacement by the City does not relieve the Owner from its obligation under this paragraph and shall not be construed to be an acceptance of the improvements by the City.
- c. Upon issuance of a "letter of acceptance" by the Public Services Director pursuant to the Code, the City will assume ownership and the responsibility for the maintenance of the improvements. The Owner shall be responsible for the maintenance, repair and replacement of the improvements until the City issues its "letter of acceptance."

2.4 Underground Utilities and Street Lights:

All new utilities shall be located underground. All street lights shall be installed in compliance with Code street-lighting standards at the Owner's sole expense.

Streetlight pole materials shall be as approved in writing by the Public Services Director.

2.5 Soils Analysis:

The Owner shall provide the Public Services Director with a soils analysis concurrently with the submittal of subdivision construction plans. Individual lot test bores may be required on each lot, with a soil analysis for the foundation design at the sole discretion of the Public Services Director. Test results, soil analyses and foundation designs shall be submitted to the Community Development Director.

2.6 Erosion Control Program:

- a. The Owner shall submit, and have approved by the Public Services Director, a comprehensive erosion control program for the area disturbed during construction activities to mitigate the adverse effects of blowing dirt or dust, and water erosion on other properties in the immediate area before the issuance of an earthwork, road cut or grading permit pursuant to the Code. An erosion and sediment control permit shall be obtained from the Public Services Director prior to any earthwork taking place in the Addition.
- b. The Owner shall post security for its erosion control as required by the Code, and in a form acceptable to the City. It shall be the obligation of the Owner to keep any security in full force and effect, as required by the Code. In addition, the Owner shall furnish proof of the same to the Public Services Director upon demand of the City.

2.7 Retaining Walls and Fences:

Any retaining walls constructed within the subdivision by the Owner shall be designed and certified by a Wyoming registered professional engineer. The design(s) shall be submitted to the Public Services Director and Community Development Director for written approval before a building permit will be issued. Said walls shall be constructed within the boundaries of each lot and not on the property lines. Maintenance of said walls shall be the responsibility of each individual lot owner. Provided, however, retaining walls and fences shall not be constructed on any drainage easements, or on any other ways depicted on any other recorded instrument without the approval of the Public Services Director.

2.8 Water and Sewer:

All water and sewer improvements shall be constructed in full compliance with the Code as it exists at the time of construction, including, but not limited to the following requirements:

- a. Curb boxes shall be left behind the sidewalk in front of each lot and the Owner shall protect, during the subsequent course of developing the Addition, valve boxes and curb boxes from damage, and be wholly responsible for the repair and replacement to the Public Services Director's satisfaction of such that are damaged or destroyed. If the Owner shall fail or refuse to promptly repair or replace such boxes as required, the City may do so and charge the Owner directly for said cost. The Owner shall adjust said valve and curb boxes to finished grade, at the time the paving work is completed in the Addition.
- b. The Owner shall construct the necessary water lines and appurtenances up to and through the Addition. All work shall be in accordance with plans and specifications to be prepared by the Owner's engineer and approved in writing by the Public Services Director. Water line sizes shall be as determined by the Public Services Director.
- c. The Owner, at its cost, shall install water service lines in accordance with Code specifications to the property line so as to serve each lot or building site in the Addition.
- d. The Owner shall construct the necessary sewer lines up to and through the Addition. All work shall be in accordance with plans and specifications to be prepared by the Owner's engineer and approved in writing by the Public Services Director. Sewer sizes shall be as determined by the Public Services Director.
- e. The Owner, at its own cost, shall install sewer service lines, in accordance with Code specifications, to the property line so as to serve each lot or building site in the Addition.
- f. The Owner shall protect manhole covers and rings from damage in the course of constructing the line, and shall be solely responsible for repair or replacement to the Public Services Director's satisfaction. The Owner shall adjust such manhole rings and covers to finished grade. The Owner agrees to protect and save the City harmless from any loss or claim suffered by other sewer users to their real or personal property, and from personal injury or damages by reason of obstruction or damage to the sewer lines or any part thereof occasioned by present or future construction work on said Addition by the Owner. Said obligation shall continue until the sewer line and the system within the Addition is accepted by the Public Services Director by issuance of a "letter of acceptance." Provided, however, that acceptance of part of the system shall not relieve the Owner of the obligations herein imposed for the remaining improvements that have not been accepted within said Addition.
- g. Prior to the issuance of a building permit for any new structure, or prior to the issuance of a plumbing permit to connect existing buildings to the water and sewer systems, the then-existing water system investment charge (connection charge), sewer system investment charge (connection charge) and water meter charge shall be paid to the City. The Owner will also pay to the Central

Wyoming Regional Water System Joint Powers Board the then current Regional Water System investment charge for each building to be served with water.

- h. All necessary water and sewer easements, in forms acceptable to the City, up to and through the subdivision shall be obtained by the Owner, which grant to the City the right of ingress and egress thereto for purposes of laying out, constructing, inspecting, maintaining and replacing water lines, sewer lines, its fire hydrants and other appurtenances.
- i. The Owner agrees to abide by all federal, state and local laws, rules and regulations regarding the use of its water and sewer facilities, and water and sewer service, including, but not limited to, the Federal Pretreatment Regulations and all the Code sections relating to industrial pretreatment.
- j. At such time as said water and/or sewer mains are installed by the Owner and a "letter of acceptance" is issued by the Public Services Director, the City shall pursuant to the Code, reimburse the Owner twice the difference in material cost between an eight (8) inch water and/or sewer main, or larger size if required by the development, and the required oversized main pursuant to the Code, as amended. Such reimbursement will be determined by the City based upon its most recent applicable material costs at the time of the Agreement execution. Reimbursement will only be based on oversizing of water and sewer mains larger than the size required by system analysis and approved by the Public Services Director.
- k. Notwithstanding the foregoing and being that Charles J. Pater currently has valid, legal and previously paid for water and sewer services connected to the respective City mains off of Trevett Lane near Whispering Springs Road, if Charles J. Pater chooses in the future to relocate his water and sewer services, he will not be charged for the water system investment charge (connection charge), sewer system investment charge (connection charge), the water meter charge or the Regional Water System investment charge if the size of his services remain the same. If he upsizes either service, he will be responsible for paying the difference between those fees he previously paid and those in existence when he applies for the new services. In any case he will be responsible for all other charges including, but not limited to, hiring a contractor to perform the work required for the water/sewer abandonment and the new services installation, the City fees for inspection of the abandonment and installation, the material for the new taps, and the City fees for performing the new taps.

2.9 Easements for all Utilities, Bikeways and Pedestrian Pathways:

Easements for all utilities and future bikeway/pedestrian pathways and access, in recordable forms acceptable to the City, must be provided prior to application for a permit to construct being made to the City.

2.10 Street and Traffic Signs and Controls:

Owner shall pay for the cost and installation of all necessary on and off-site street and traffic control signage, signs signifying the street names, street striping, crosswalk striping, and traffic calming devices, as determined by the Public Services Director in his sole discretion.

2.11 Security Requirements:

In addition to and separate from the security required for erosion control, Owner shall comply with all Code requirements for all other security and surety requirements as set forth in the Code, including, but not limited to the financial surety and security for the project, landscaping and warranty period.

2.12 Record Drawings:

- a. Owner shall submit "as-built" record documents for paving, drainage, water and sewer to the City prior to the issuance of the certificate of occupancy. Reproducible hard copy drawings shall be in the form of one (1) set of 4 mil Mylar, 24" x 36" labeled as "Record Drawings" and dated. Record Drawings shall also be provided on electronic media in Adobe (pdf) format and in AutoCAD format or other format specified by Owner. Record documents shall be submitted on CDs, or other media as directed by Owner, labeled as "Record Drawings" and include the project name, City of Casper project number and date.
- b. All digital files necessary for correct plotting of the final record drawings in the AutoCAD version, such as external references, pen assignments, images, etc. shall be provided. Any x-refs or other files that can be, shall be incorporated into the final drawings to minimize the manipulation necessary for plotting.

2.13 Completion of Infrastructure Improvements Prior to Certificate of Occupancy:

All required on-site and off-site improvements shall be completed and approved by the Public Services Director prior to the issuance of the first certificate of occupancy unless otherwise designated in this Agreement.

2.14 Other Costs in Separate Agreements:

If any recapture costs, costs for a drainage basin or sub-basin wide stormwater management program are applicable to this Subdivision, those costs shall be allocated in a separate exhibit attached to this Agreement. Failure of any such exhibit to be attached to this Agreement shall not relieve the Owner of its obligation to pay its proportionate share of those costs.

2.15 Stormwater, Flooding and Letters of Map Revisions:

- a. Owner shall comply with and pay for all costs associated with any Stormwater Pollution Prevention Plan, Letter of Map Revision (LOMR), or other related requirements of Wyoming DEQ, Federal Emergency Management Agency (FEMA) or any other agency that has jurisdiction over the real property in impacted by this Agreement.
- b. Owner shall provide the City with copies of all Stormwater Pollution Prevention Plan elements as reviewed and approved by Wyoming DEQ; any LOMR, along with the necessary submittals to update flood mapping in accordance with FEMA requirements, and documentation of Base Flood Elevations.
- c. All requirements of this section shall be met prior to issuance of a permit to construct subdivision improvements.

SECTION 3 - OBLIGATIONS OF CITY

The City shall issue a building permit and certificate of occupancy for the buildings in the Addition upon performance by the Owner of the conditions set forth herein, and upon Owner's compliance with all applicable Code requirements. All building permits will be issued by the Community Development Director in accordance with the Code.

SECTION 4 - REMEDIES

In the event the Owner fails to do, or fails to cause to be done, any of the requirements set forth in this Agreement in an expeditious manner, the City may, at its option, do any or all of the following:

- a. Refuse to issue any building permits or certificates of occupancy to any person, including the Owner, or its heirs, successors, assigns and grantees.
- b. After written notice to the Owner of any public improvements which have not been completed or properly completed, and upon Owner's failure to cure the same within a reasonable period of time, the City may complete any and all of the public improvements required by this Agreement by itself or by contracting with a third party to do the same. In the event the City elects to complete said improvements, or contracts with a third party to do so, the Owner agrees to pay any and all costs resulting therefrom upon demand by the City.

The remedies provided in this section are in addition to any other remedies specifically provided for in this Agreement, or which the City may otherwise have at law or in equity, and are not a limitation upon the same. The Owner further agrees to pay all reasonable attorneys' fees, court costs, and litigation costs in

the event the City is required to enforce the provisions of this Agreement in a court of law.

- g. No Third-Party Beneficiary Rights: The parties to this Agreement do not intend to create in any other individual or entity the status of third-party beneficiary, and this Agreement shall not be construed so as to create such status. WHEREAS, said resolution was duly mailed and published as a notice, affidavits of such mailing and publication being now on file in the Office of the City Clerk; and,

WHEREAS, in response to said notice, no written remonstrances were filed against the proposed improvements; and,

WHEREAS, a public hearing shall be held on the first reading of this ordinance, February 16, 2021.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF CASPER, WYOMING:

Section 1. Creation of District.

That there be, and there hereby is created and established within the corporate limits of the City of Casper, Wyoming, a local improvement district for the purpose of making certain local improvements consisting of asphaltic concrete pavement on the roads hereinafter designated, and, to assess the cost thereof (except as hereinafter provided) on the property benefited thereby and included within the Local Assessment District herein described.

Section 2. Name of District.

The Council has determined and does hereby determine that:

- A. The Local Assessment District herein described, as such might hereinafter be modified, shall be known as the "City of Casper, Wyoming, Local Assessment District No. 158";

Section 3. Location of Paving Improvements.

The City proposes to establish grades for the following named streets, intersections, and parts of streets, within the City between the termini specified, as such are set forth on the official plats of the subdivisions or additions in said City, now on file and of record, as follows:

LOCATION OF ROADWAY PAVING IMPROVEMENTS

	<u>STREET</u>	<u>WIDTH</u>	<u>PROPOSED IMPROVEMENT</u>
1.	Coates Road	26.0'	Asphaltic Concrete Pavement

The width in feet of said road, hereinabove set forth, is measured from the edge of the blacktop to the edge of the blacktop on each side.

Section 4. Description of Paving Improvements.

The character, kind, and extent of the asphaltic concrete pavement improvements shall be as follows:

- A. All streets as denoted in Section 3 shall include installation of a sub-base aggregate base course, a plant mix bituminous base, tack coat, and a plant mix pavement surface course, in accordance with approved City Standards. The work shall include all necessary removal, excavation, filling, grading, and replacement to design elevations and appurtenant work.

Section 5. Boundaries of the District.

It is proposed to create the District, the boundaries of which lie entirely within the City of Casper, as follows:

-----------------	--

Section 6. Determination of Benefits.

The City Council has determined, and does hereby determine, that the method of assessment will result in a distribution of costs among property owners in proportion to the special benefits conferred by the improvements, and that any other method of assessment would result in an inequitable distribution of costs among some owners whose property is benefitted by the improvements.

Section 7. Method of Assessment.

- A. Paving Improvements. Each piece of property with access to the road in or along which the improvements are to be made shall be assessed by the following method:
 - 1. Each property shall be assessed on the basis of its acreage so that the total assessment

on each piece of property shall be in proportion to the total accessible acreage of the property to be assessed for the same improvement.

- B. Assessment Liens. Notwithstanding any provision to the contrary, the assessment shall be levied and an assessment lien attached on all, or a piece, of benefitted property so as to avoid the imposition of a lien upon a part of the subdivided lot or partial lot under common ownership and use.

Section 8. Estimated Costs.

The City of Casper has agreed to design the improvements in-house. The construction of the improvements will be performed by a qualified contractor with the lowest competitive bid. The properties will be assessed the full cost for a contractor to install the asphalt pavement, plus the cost of engineering.

The estimated total costs for the total improvement project (including, but not limited to, all incidental improvements or work) are as follows:

1. The estimated contract price for installation of asphalt pavement is \$ 171,820.
2. The estimated cost for engineering is \$ 15,620.
3. The estimated total cost of the total improvement project is \$ 187,440.
4. The estimated assessable costs for each acre of property are as follows:
 - a. All Improvements \$1,575.83 per acre.
5. The estimated project cost of the Local Assessment District is \$187,440, which includes all improvements.

The City's funding source will be from 1%#16 funds for miscellaneous street improvements.

The City Council shall accept no bids or combination of bids, which shall exceed by more than ten percent (10%) the aforesaid estimate of the contract price unless approved by the property owners, subject to a special assessment.

Section 9. Direction to Engineer to Proceed.

The City Engineer is hereby directed and authorized, immediately upon the passage of this Ordinance, to prepare and file with the City Clerk final plans, specifications, and the estimated cost of said improvements, which plans, specifications, and estimated cost shall show in detail the work to be done, the quantities of materials to be handled and the estimated cost of said improvements, which plans, specifications, and estimated cost shall be hereafter approved by the Council, by resolution.

It is hereby determined and ordered, that such improvements shall be made as soon as practical. Immediately after the approval of said plans and specifications, the City Clerk shall call for bids for the making of said improvements, by publishing notice in at least one issue of a newspaper published and of general circulation within the City of Casper, which notice shall be substantially in agreement with the provisions of Wyoming Statutes, 1977, as amended, and this Ordinance.

Section 10. Maintenance of Improvements.

The maintenance of the proposed improvements after their acceptance by the City on said streets, intersections, and parts thereof, shall not be included in the construction contract or contracts, and there shall be no charges for such maintenance included in the assessments for the proposed improvements; provided, however, that nothing herein shall be construed to preclude provision in the contract or contracts relating to the guarantee of improvements thereunder.

Section 11. Ratification.

All action heretofore taken by the City and officers thereof, directed toward the creation of the City of Casper, Wyoming, Local Assessment District No. 158, the improvement of property therein and the levy of assessments therefor, be, and the same hereby is, ratified, approved, and confirmed.

Section 12. Severability.

Recommendation:

That Council, by resolution, authorize a Memorandum of Agreement, Quitclaim Deed, and Drainage, Utility and Access Easement with the Wyoming Department of Transportation for Construction Activities for the South Poplar Street and West 1st Street Project, WYDOT Project N212121.

Summary:

WYDOT is preparing to reconstruct South Poplar Street between West 1st Street and Collins Drive. This project includes replacement of the bridge over the North Platte River to include pedestrian sidewalks and reconstruction of the intersection at South Poplar Street and West 1st Street for additional turn lanes.

To facilitate construction, WYDOT requires the acquisition of additional right-of-way from the City of Casper, as well as a drainage, utility, and access easement. The additional right-of-way, less than a tenth of an acre in size, is generally located at the southeast corner of 1st Street and Poplar Street and consists largely of city property along and in the North Platte River. The drainage, utility, and access easement is located on the south side of the river, adjacent the Poplar Street bridge, and allows for a storm sewer outfall.

Financial Considerations

WYDOT has agreed to compensate the city \$23,010 for the right-of-way and drainage, utility, and access easement to be made available to the City of Casper's revolving land fund.

If the Contractor fails to accept all responsibility for cuts less than 2,000 square feet within seventy-two (72) hours, or three (3) working days, liquidated damages as per Article 3.7 shall be invoked. Furthermore, if the Contractor fails to complete a site within ten (10) working days of the original email notification, liquidated damages as per Article 3.7 shall be invoked.
- 3.3 All asphaltic repairs greater than 2,000 square feet associated with the replacement program, located throughout the City of Casper and environs, shall be started within one hundred and twenty (120) hours or five (5) working days after email notification to Contractor by Owner, that the site is ready for repair. If work does not commence within this time period the Contractor shall assume all responsibilities for that work site, including all maintenance and traffic control. If the Contractor fails to accept responsibility for cuts within one hundred and twenty (120) hours or five (5) working days of email notification, liquidated damages as per Article 3.7 shall be invoked. Furthermore, if the Contractor fails to complete a site within fifteen (15) days of the original email notification, liquidated damages as per Article 3.7 shall be invoked.
- 3.4 Any and all asphaltic street repair locations provided to Contractor by Owner between the date of this Agreement and June 15, 2021, shall be completed in accordance with Articles 3.1, 3.2, and 3.3, above.
- 3.5 Once the work commences, there shall be no delays. The work shall progress in a timely continuous manner until completion. If the Contractor should discontinue work prior to completion without Owner's approval, it shall result in liquidated damages for delay as agreed in Article 3.7 of the "Agreement Between Owner and Contractor".
- 3.6 If the Contractor, or the City of Casper representative, feels that in order to adequately insure proper repairs to any given asphalt repair, that complete street closure is necessary, it shall be the Contractor's responsibility to notify all affected residences. If the closure affects business, the affected business shall be given a minimum of a 24-hour notice prior to closure.
- 3.7 Liquidated Damages. Owner and Contractor recognize that time is of the essence of this Agreement and that Owner will suffer financial loss if the Work is not finally completed by the times and schedules specified in Paragraphs 3.1 through 3.5, inclusive, above, plus any extension thereof allowed in accordance with Article 12 of the General Conditions. They also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Owner if the Work is not finally completed

on time. Accordingly, instead of requiring any such proof, Owner and Contractor agree that as liquidated damages for delay (but not as a penalty) Contractor shall pay Owner Two Hundred Fifty Dollars (\$250) for each day that expires after the times specified in Paragraphs 3.1 and 3.2, and Five Hundred Dollars (\$500) for each day that expires after the times specified in Paragraphs 3.3 through 3.5, inclusive, for final completion. It is further agreed that such liquidated damages are not a penalty, but represent the parties' best estimate of actual damages.

ARTICLE 4. CONTRACT PRICE.

Owner shall pay Contractor in current funds for performance of the Work in accordance with the Contract Documents, subject to additions and deductions by Change Order, the contract price of Two Hundred Ninety-Four Thousand Three Hundred and 00/100 Dollars (\$294,300.00), subject to additions and deductions by Change Order approved by the Owner. The contract fee shall be based on materials actually furnished and installed and services actually provided based on the unit prices contained in the Bid Form and Itemized Bid Schedule, included as Exhibit "A" (pages BF-1 through BF-4, Bid Form and BS-1 through BS-2, Bid Schedule) and by this reference made a part of this Agreement.

ARTICLE 5. SUBSTANTIAL COMPLETION

All references in the General Conditions regarding Substantial Completion shall be disregarded, and are not a part of the Contract. All progress payments to the Contractor shall be based upon acceptance of the work as finally complete at each individual work site for street repairs.

ARTICLE 6. PAYMENT PROCEDURES.

Contractor shall submit Applications for Payment in accordance with Article 14 of the General Conditions. Applications for Payment will be processed through the Engineer as provided in the General Conditions.

6.1 Progress Payments. Owner shall make progress payments on the basis of Contractor's Applications for Payment as recommended by Engineer, on or about the 25th day of each month during construction as provided below. All progress payments will be on the basis of the progress of the Work measured by the Schedule of Values provided for in Paragraph 14.1 of the General Conditions, subject to the cutoff and submittal dates provided in the General Provisions.

6.1.1 Progress payment will be made in an amount equal to ninety-five percent (95%) of the Work completed. Owner shall withhold five percent (5%) of the work completed as retainage, said retainage to be paid in accordance with the provisions of Paragraph 5.3, Final Payment.

6.1.2 Should amounts owed by the Contractor to the City for any goods, services, licenses, permits or any other item or purpose remain unpaid beyond the City's general credit

policy, those amounts may be deducted from the payment being made by the City to the Contractor pursuant to this agreement.

- 6.2 Final Payment. Upon final completion and acceptance of the Work in accordance with Paragraph 14.13 of the General Conditions, Engineer shall recommend payment and present Contractor's Final Application for Payment to the City. Pursuant to Wyoming State Statutes, final payment cannot be made until forty-one (41) days after publication of the first Notice of Completion.

ARTICLE 7. WITHHELD FUNDS.

Pursuant to Wyoming Statutes Section 16-6-701 et seq., withheld percentages for Contracts exceeding Fifty Thousand and 00/100 Dollars (\$50,000.00) will be retained in an account in the name of the Contractor (except when specifically waived in writing by Contractor) which has been assigned to the Owner until the Contract is completely, satisfactorily, and finally accepted by the Owner. Unless a depository is designated by the Contractor in a written attachment hereto, the Contractor's signature hereon shall act as authority for the Owner to designate a retainage depository on behalf of the Contractor, for the purposes specified in Wyoming Statutes Section 16-6-704. The Contractor's signature hereon shall act as an assignment of the depository account to the Owner, as provided by Wyoming Statutes Section 16-6-701 et seq., whether the depository is designated by the Contractor or by the Owner.

ARTICLE 8. CONTRACTOR'S REPRESENTATIONS.

In order to induce Owner to enter into this Agreement, Contractor makes the following representations:

AMOCO REUSE JOINT POWERS BOARD

LETTER OF INTEREST AND PERSONAL INFORMATION

To Whom It May Concern

My name is Larry Madsen. I moved to Casper in October of 1972 and have lived here since. I came to work as a CPA for a small CPA firm and have been a continuous part of this community since. I have always been a member of the Catholic parishes, a member of the Lions Club for five years and a member of the Casper Rotary Club for over thirty years. When I moved here the refinery was a major part of the economy, employer and community participant. The refinery was an important part of Casper as well as its history. The removal of the refinery, its land reclamation and the development of its lands has been a long and interesting journey. I am interested in seeing that what remains and develops stays an important part of the Casper story. The use of the land should be a lasting legacy for the Casper community and Natrona County.

I was born and raised in Green River Wyoming, graduated from high school there and continued on to Western Wyoming Community College and then the University of Wyoming. I graduated with a degree in accounting in 1970. I started my career by moving to Grand Junction Colorado for about two years then on to Casper. I became a CPA with the firm of Tangney, Harris and Homar and then one of its partners. In 1981 we merged with a firm named McGladrey where I was a partner. In October of 1989 I left public accounting and became the VP and CFO of Black Hills Bentonite. I held that position until January 1, 2021. I have officially retired as a CPA and now work part time at Black Hills Bentonite helping the transition to new management. I was involved when Amoco did remediation work on our Casper Plant and office site as well as the purchase of part of the land that surrounds our Casper Plant and office.

Sincerely,

Larry Madsen
